Religion Against The Self:

Religion Against the Self Isabelle Nabokov, Isabelle Clark-Decès, 2000 This study based on the author's fieldwork among rural Tamil villagers in South India focuses on the ways in which people in this society interact with the supernatural beings who play such a large role in their personal and corporate lives Isabelle Nabokov looks at a spectrum of ritualized contexts in which the boundaries between the natural and spiritual worlds are penetrated and communication takes place Throughout Nabokov's meticulous analysis sheds new light on this hitherto almost unknown domain and entire range of fascinating phenomena basic to South Indian religion as it is really lived *Lifes Preservative against self-killing: or, an useful treatise concerning life and self-murder, etc* John SYM (Minister of Leigh.), 1637 *Transformations of the Inner Self in Ancient Religions* Jan Assmann, Guy Stroumsa, 2018-11-13 This collection of papers from two workshops held in Heidelberg Germany in July 1996 and Jerusalem Israel in October 1997 is concerned with anthropological rather than theological aspects of the Near Eastern and Mediterranean religions ranging from the primary religions of the archaic period and their complex developments in Egypt and Mesopotamia to the soteriological movements and secondary religions that emerged in Late Antiquity The first part of the book focuses on Confession and Conversion while the second part is devoted to the topic of Guilt Sin and Rituals of Purification The primary purpose of this volume is to convey a sense of the dynamics and dialectical relationships between the various Near Eastern and Mediterranean religions from the archaic period to Late Antiquity

Religion Against the Self : An Ethnography of Tamil Rituals Isabelle Nabokov Assistant Professor of Anthropology Princeton University, 2000-08-28 In this comprehensive analysis of South Indian village Hinduism Isabelle Nabokov shows that a wide spectrum of Tamil rituals effects transformations of identity through similar processual and symbolic operations She reveals that such operations may lead participants to adopt personalities which are at odds with themselves **Lifes Preservative Against Self-Killing (Psychology Revivals)** John Sym, 2014-06-23 This book first published in 1637 was the first full length treatise on suicide published in English Originally published in 1988 as part of the Tavistock Classics in the History of Psychiatry series the introduction by Michael MacDonald places the book in the context of attitudes to suicide in its day as well as showing some of the ways that this theological book is also a study of the psychology and sociology of suicide He discusses the evolution of the law of suicide and analyses the religious beliefs held about it at the time before going on to look at John Sym himself and the structure of his book *Proselytization and Communal Self-Determination in Africa* Abdullahi Ahmed An-Na'im, 2009-05-01 This probing collection of essays bring together a stellar group of Muslim and Christian African and Western scholars Together they explore the question Where does one community's right to commend itself to others leave off and another community's right to be left alone begin [What the Bible Says about the Dangers of Self-Deception](#) Joseph K. Religion and Nothingness Keiji Nishitani, 1982 In Religion and Nothingness the leading representative of the Kyoto School of Philosophy lays the foundation of thought for a world in the making for a world united beyond the differences of East and West Keiji Nishitani notes the irreversible trend of Western civilization to nihilism and singles out the conquest of nihilism as the task for contemporary philosophy Nihilism or relative nothingness can only be overcome by being radicalized to Emptiness or absolute nothingness Taking absolute nothingness as the fundamental notion in rational explanations of the Eastern experience of human life Professor Nishitani examines the relevance of this notion for contemporary life and in particular for Western philosophical theories and religious beliefs Everywhere his basic intention remains the same to direct our modern predicament to a resolution through this insight The challenge that the thought of Keiji Nishitani presents to the West as a modern version of an Eastern speculative tradition that is every bit as old and as variegated as our own is one that brings into unity the principle of reality and the principle of salvation In the process one traditional Western idea after another comes under scrutiny the dichotomy of faith and reason of being and substance the personal and transcendent notions of God the exaggerated role given to the knowing ego and even the Judeo Christian view of history itself Religion and Nothingness represents the major work of one of Japan's most powerful and committed
