Religion And Man:

Religion of Man and Ethics of Science Hudson Tuttle, 2010-07-01 Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork *The Function of Religion in Man's Struggle for Existence* George Burman Foster, 1909 *Man, Faith and God* Terry Hayes, 2018 A quick study into the three major religions that say there is only one God for all men *The Religion of Man* Rabindranath Tagore, 1931 A classic of religious literature packaged in an elegant and durable format last published in 1988 *A Man's Religion* William Fraser McDowell, 1913 ***The Function of Religion in Man's Struggle for Existence***, 1910 *The Collected Works of Eric Voegelin* Eric Voegelin, 1998 Annotation Examining the emergence of modernity within the philosophical and political debates of the sixteenth century *Religion and the Rise of Modernity* resumes the analysis of the great confusion introduced in Volume IV of *History of Political Ideas* Encompassing a vast range of events ignited by Luther's Ninety Five Theses this period is one of controversy revolution and partiality Despite the era's fragmentation and complexity Voegelin's insightful analysis clarifies its significance and suggests the lines of change converging at a point in the future the medieval Christian understanding of a divinely created closed cosmos was being replaced by a distinctly modern form of human consciousness that posits man as the proper origin of meaning in the universe Analyzing the most significant features of the great confusion Voegelin examines a vast range of thought and issues of the age From the more obvious thinkers to those less frequently studied this volume features such figures as Calvin Althusius Hooker Bracciolini Savonarola Copernicus Tycho de Brahe and Giordano Bruno Devoting a considerable amount of attention to Jean Bodin Voegelin presents him as a prophet of a new true religion amid the civilizational disorder of the post Christian era Focusing on such traditional themes as monarchy just war theory and the philosophy of law this volume also investigates issues within astrology cosmology and mathematics *Religion and the Rise of Modernity* is a valuable work of scholarship not only because of its treatment of individual thinkers and doctrines influential in the sixteenth century and beyond but also because of its close examination of those experiences that formed the modern outlook ***Science, Politics and Gnosticism*** Eric Voegelin, 2012-03-27 *Science Politics and Gnosticism* comprises two essays by Eric Voegelin 1901-85 arguably one of the most provocative and influential political philosophers of the last century In these essays Voegelin contends that certain modern movements including positivism Hegelianism Marxism and the God is dead school are variants of the gnostic tradition he identified in his classic work *The New Science of Politics* Voegelin attempts to resolve the intellectual confusion that has resulted from the dominance of gnostic thought by clarifying the distinction between political gnosticism and the philosophy of politics *The Modern Man's Religion* Charles Reynolds Brown, 1911 ***Religion of Man and Ethics of Science*** Hudson Tuttle, 2015-06-12 Excerpt from *Religion of Man and Ethics of Science* The past has been the Age of the Gods the Present is the Age of Man Not servile trust in the Gods but

knowledge of the laws of the world belief in the Divinity of Man and his advancement toward perfection is the foundation of the Religion of Man the Ethics of Knowledge The Religion of the Gods comes from without as a foreign system to be received by the servile devotee the Religion of Man originates from within and is a normal growth of humanity While all past ages have been employed in the study and illustration of the former system not until recent times has the latter received attention Those who have in the past dared advocate the rights of man have been mercilessly crucified The field is new broad as the universe profound as the depths of space as high as heaven In its exploration the old charts are worthless the old guides are blind leaders of the blind and not a step can be taken until the charms of superstition and bigotry are cast aside Not alone the Manger born but every child is a divine child and the Immaculate Mother is repeated in every human mother About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
