Religion And African Civil Wars:

Religion and African Civil Wars Niels Kastfelt, 2005-03-16 This collection analyzes the part played by religion Christianity Islam and traditional beliefs in Africa's recent civil wars and insurgent conflicts The contributors focus on four key areas of the continent the southern Sudan Rwanda Burundi Congo Zimbabwe South Africa and Sierra Leone Liberia Guinea Among the topics discussed are the role of religious institutions in these conflicts how religion is used to legitimize violence and war the role of religion in debating and making sense of war and conflict and the application of religion as a cultural resource in warfare The inverse war's impact on religious beliefs and practices is also explored The Role of Religion in African Civil Wars N Kastfelt, 2001 The Logic of Ethnic and Religious Conflict in Africa John F. McCauley, 2017-04-27 This book explains why conflicts in Africa are sometimes ethnic and sometimes religious and why a conflict might change from ethnic to religious even as the opponents remain fixed Conflicts in the region are often viewed as either tribal or Muslim Christian seemingly rooted in deep seated ethnic or religious hatreds Yet as this book explains those labels emerge as a function of political mobilization It argues that ethnicity and religion inspire distinct passions among individuals and that political leaders exploit those passions to achieve their own strategic goals when the institutions of the state break down To support this argument the book relies on a novel experiment conducted in Cote d'Ivoire and Ghana to demonstrate that individual preferences change in ethnic and religious contexts It then uses case illustrations from Cote d'Ivoire Nigeria and Sudan to highlight the strategic choices of leaders that ultimately shape the frames of conflict

in Africa Y. Tesfai,2010-06-21 Out of the many challenges facing Africa today there is the tendency of some to manipulate religious and ethnic identities for private interests The book examines how religion has given rise to these conditions in Africa by weaving together issues of poverty wealth and violent conflicts **Religion, Occult and Youth Conflict in the Niger Delta of Nigeria** E. Anugwom,2017-03-02 The book examines the nexus between youth conflict and the occult drawing its insights from the oil rich Niger Delta of Nigeria It sees the occult represented by the Egbesu deity in this conflict as a form of religious belief imbued in this case with the powers of good Thus the religious occult is regenerated and re energised as an idiom of justice and fairness within the Nigerian state by militant youth fighting the forces of the Nigerian state Ingeniously the young men simply dug into the cultural repertoire of the people for a hitherto popular expression of justice and perceived source of potency which they felt would not only provide spiritual protection but also pander to the popular imagination of justice Even against the background prevalent Christianity the Egbesu does not generate tension in beliefs but responds to the critical exigency of the immediate socio political milieu of the people War and Conflict in Africa Paul D. Williams,2013-04-26 After the Cold War Africa earned the dubious distinction of being the world s most bloody continent But how can we explain this proliferation of armed conflicts What caused them and what were their main characteristics And what did the world s governments do to stop them In this fully revised and updated second edition of his popular text Paul Williams offers an in depth and wide ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa Taking a broad comparative approach to examine the political contexts in which these wars occurred he explores the major patterns of organized violence the key ingredients that provoked them and the major international responses undertaken to deliver lasting peace Part I Contexts provides an overview of the most important attempts to measure the number scale and location of Africa s armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged Part II Ingredients analyses the role of five widely debated features of Africa s wars the dynamics of neopatrimonial systems of governance the construction and manipulation of ethnic identities questions of sovereignty and self determination as well as the impact of natural resources and religion Part III Responses discusses four major international reactions to Africa s wars attempts to build a new institutional architecture to help promote peace and security on the continent this architecture s two main policy instruments peacemaking initiatives and peace operations and efforts to develop the continent War and Conflict in Africa will be essential reading for all students of international peace and security studies as well as Africa s international relations War and Religion Jeffrey M.
