Religion And American Life Resources:

Religion in American Life Jon Butler, Grant Wacker, Randall Balmer, 2011-10-07 The new edition of Religion in American Life written by three of the country's most eminent historians of religion offers a superb overview that spans four centuries illuminating the rich spiritual heritage central to nearly every event in our nation's history

Religion and American Life Anne T. Fraker, 1989

Religion in America John Corrigan, Winthrop Hudson, 2015-08-07 This comprehensive narrative account of religion in America from 1607 through the present depicts the religious life of the American people within the context of American society. It addresses topics ranging from the European Puritan origins of American religious thought, the ramifications of the Great Awakening, the effect of nationhood on religious practice, and the shifting religious configuration of the late 20th century.

Historical Dictionary of the Reformed Churches Robert Benedetto, Donald K. McKim, 2009-10-06 As its name implies, the Reformed tradition grew out of the 16th century Protestant Reformation. The Reformed churches consider themselves to be the Catholic Church reformed. The movement originated in the reform efforts of Huldrych Zwingli (1484-1531) of Zurich and John Calvin (1509-1564) of Geneva. Although the Reformed movement was dependent upon many Protestant leaders, it was Calvin's tireless work as a writer, preacher, teacher, and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew. Today, the Reformed churches are a multicultural, multiethnic, and multinational phenomenon. The second edition of the *Historical Dictionary of the Reformed Churches* contains information on the major personalities, events, facts, movements, and beliefs of the Reformed churches. This is done through a list of acronyms and abbreviations, a chronology, an introductory essay, appendixes, a bibliography, and over 800 cross-referenced dictionary entries on leaders, personalities, events, facts, movements, and beliefs of the Reformed churches.

Resources in Education, 1997-05

Historical Dictionary of the Reformed Churches Benedetto, Guder, McKim, 1999-11-03 A historical dictionary of Reformed churches. It includes a detailed chronology followed by specific entries on the geographical regions where Reformed faith has been rooted. Other entries are devoted to outstanding figures who have nurtured and shaped it.

Faith, Health, and Healing in African American Life Stephanie Y. Mitchem, Emilie M. Townes, 2008-08-30 Black Americans are more likely than Whites to die of cancer and heart disease, more likely to get diabetes and asthma, and less likely to get preventive care and screening. Some of this greater morbidity results from education, income level, and environment, as well as access to health care. But the traditional medical model does not always allow for a more holistic approach that takes into account the body, the mind, the spirit, the family, and the community. This book offers a better understanding of the varieties of religiously based approaches to healing and alternative models of healing and health found in Black communities in the United States. Contributors address the communal aspects of faith and health and explore the contexts in which individuals make choices about their health, the roles that institutions play in shaping these decisions, and the practices individuals engage in seeking better health or coping with the

health they have By paying attention to the role of faith spirit and health this book offers a fuller sense of the varieties of ways Black health and health care are perceived and addressed from an inter religious perspective Community and religion based initiatives have emerged as one key way to address the health challenges found in the African American community In cities such as Atlanta Baltimore Dallas and Oakland residents organize exercise groups teach one another how to cook with healthy ingredients and encourage neighbors to get regular checkups Churches have become key sites for health education screening and testing Another set of responses to the challenge of Black health and healthcare in the United States comes from those who emphasize the body as a whole body mind soul and spirit often drawing on religious traditions such as Islam and African based religions such as Spiritism Santeria Vodun aka Voodoo Candomblé and others Understanding the issues and the various approaches is essential to combating the problems and this unique volume sheds light on areas often overlooked when considering the issues *Information Resources in the Humanities and the Arts* Anna H. Perrault Ph.D., Elizabeth S.

Aversa, Sonia Ramírez Wohlmuth, Cynthia J. Miller, Cynthia F. Miller, 2012-12-10 This familiar guide to information resources in the humanities and the arts organized by subjects and emphasizing electronic resources enables librarians teachers and students to quickly find the best resources for their diverse needs Authoritative trusted and timely *Information Resources in the Humanities and the Arts* Sixth Edition introduces new librarians to the breadth of humanities collections experienced librarians to the nature of humanities scholarship and the scholars themselves to a wealth of information they might otherwise have missed This new version of a classic resource the first update in over a decade has been refreshed to account for the myriad of digital resources that have rewritten the rules of the reference and research world and been expanded to include significantly increased coverage of world literature and languages This book is invaluable for a wide variety of users librarians in academic public school and special library settings researchers in religion philosophy literature and the performing and visual arts graduate students in library and information science and teachers and students in humanities the arts and interdisciplinary degree programs *Sources for U.S. History* W. B. Stephens, 2003-01-30 This book offers a

detailed and comprehensive guide to contemporary sources for research into the history of individual nineteenth century U S communities large and small The book is arranged topically covering demography ethnicity and race land use and settlement religion education politics and local government industry trade and transportation and poverty health and crime and thus will be of great use to those investigating particular historical themes at national state or regional level As well as examining a wide variety of types of primary sources published and unpublished quantitative and qualitative available for the study of many places the book also provides information on certain specific sources and some individual collections in particular those of the National Archives *Catholic Bishops in American Politics* Timothy A. Byrnes, 2014-07-14 Over the past twenty years the American Catholic bishops have played a leading role in the antiabortion movement published lengthy and highly detailed pastoral letters on nuclear weapons and on the American economy and involved themselves collectively and individually in

several national election campaigns What is the source of the sometimes controversial political role of these religious leaders Timothy Byrnes proposes a new answer in this lucid description of the National Conference of Catholic Bishops and its activities He demonstrates that the key to the political role of the bishops and other modern American religious leaders has been political change rather than religious revival Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
