Religion Politics In Contemporary Iran:

Religion and politics in contemporary Iran Shahrough Akhavi, 1979 Religion and Politics in Contemporary Iran Shahrough Akhavi, 1980-01-01 Indispensable for understanding the recent conflicts in Iran Religion and Politics in Contemporary Iran provides a political history of the fluctuating relationships between the Islamic clergy and Iranian government since 1925 How different factions of the clergy or ulama first lost and then regained a powerful position in Iran is the subject of this book Akhavi analyzes how various factions within the clergy have responded to the government's efforts to encourage modernization and secularization giving particular attention to the changes in the madrasahs or theological colleges He examines the main themes of the Ayatullah Khomeini's book Islamic Government and concludes by examining the alignments among the clergy in the past that indicate how they may develop in the future **Iran and the Muslim World: Resistance and Revolution** N. Keddie, 1995-04-03 This book consists of a series of interrelated chapters analyzing why Iran among all countries has seen so many revolutionary movements in the past century the degree to which its religion Shi'ism is revolutionary and the history of revolutionary and resistance movements in the modern Muslim world The author stresses historical change such as the change of Twelver Shi'ism from political quietism to revolutionary opposition and also previously unnoticed factors in revolution such as the multi-urban character of all Iran's modern revolutions **A History of the Modern Middle East** William L. Cleveland, Martin Bunton, 2024-07-29 A History of the Modern Middle East examines the profound and often dramatic transformations of the region in the past two centuries from the Ottoman and Egyptian reforms through the challenge of Western imperialism to the impact of US foreign policies Built around a framework of political history while also carefully integrating social cultural and economic developments this expertly crafted account provides readers with the most comprehensive balanced and penetrating analysis of the modern Middle East The seventh edition has been substantially revised to reflect the significance of the 2011 Arab Uprisings as a major turning point in the modern history of the region A new chapter considers how regional powers especially in the Gulf are now asserting themselves more forcefully seeking to push their own interests while Russia and China contest America's position Including an annotated and updated bibliography that offers guidance to readers seeking more in-depth information and incorporating an online companion website featuring quizzes timelines and instructor resources A History of the Modern Middle East remains the quintessential text for courses on Middle Eastern history Religion and Globalization Peter F. Beyer, 1994-01-17 In his exploration of the interaction between religion and worldwide social and cultural change the author examines the major theories of global change and discusses the ways in which such change impinges on contemporary religious practice meaning and influence Beyer explores some of the key issues in understanding the shape of religion today including religion as culture and as social system pure and applied religion privatized and publicly influential religion and liberal versus conservative religions He goes on to apply these issues to five contemporary illustrative cases the American

Christian Right Liberation Theology movements in Latin America the Islamic Revolution in Iran Zionists in Israel and religious environmentalism **Social Movements in Twentieth-century Iran** Stephen C. Poulson, 2005-01-01 Stephen C Poulson investigates cycles of social protest in Iran from 1890 to the present era This work covers the following social movements the 1890 92 Tobacco Movement the 1906 09 Constitutional Revolution two post World War II movements the Tudeh Masses and the National Front the 1963 Qom Protest and the 1978 79 Iranian Revolution Poulson shows how various Iranian political actors have framed their dissent drawing on both regional and Western influenced modes of protest to achieve their ends **Esotericism, Mysticism, and the Politics of Transcendence in Modern Asia** Soumen

Mukherjee, Toshio Akai, 2025-07-15 This invaluable anthology examines histories of esotericism mysticism and occultism in modern Asia understood here as the period roughly stretching from the late nineteenth through the twentieth century and paving eventually the way for the so called New Age The idea of histories in plural has to do with the complexities of their lineages the many pathways through which their affinities encounters and entanglements flowed and or developed during the period under review The contributors hail from different disciplines history literature and religious studies for instance and in what accounts for a cutting edge of the book provide truly multidisciplinary insights on the subject in one single volume Their select case studies illuminate key aspects of contemporaneous socio religious processes They explicate how aspects of mysticism esotericism and occultism were closely tied to wider socio political and intellectual processes of the period that were at once transregional even global and frequently transcultural and or cosmopolitan in character Postgraduate students research scholars and academics in general working in the fields of religious studies and or Asian religions in modern times will find this collection to be of great interest *Islam, Secularism, and Liberal Democracy* Nader Hashemi, 2009-04-02

Islam's relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible While there are certainly tensions between religion and democracy the two are not irreconcilable Liberal democracy requires a form of secularism to sustain itself yet the main political cultural and intellectual resources that Muslim democrats can draw upon are religious How can this paradox be reconciled Hashemi makes three principal arguments First in societies where religion is a key marker of identity the road to liberal democracy must pass through the gates of religious politics The process of democratization therefore cannot be artificially de linked from debates about the normative role of religion in government Secondly while liberal democracy requires secularism religious traditions are not born with an inherent secular and democratic conception of politics These ideas must be developed and in an emerging democracy how they are developed is critical Finally Hashemi argues that there is an intimate relationship between religious reformation and political development While the first often precedes the second these processes are deeply interlinked Democratization does not require a privatization of religion but it does require a

reinterpretation of religious ideas that are conducive to liberal democracy By engaging in this reinterpretation religious groups can play a central role in the development and consolidation of democracy Islam Secularism and Liberal Democracy argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies
