lens of such media Given the variety of perspectives and methodological approaches adopted by the contributors this volume offers useful insights to students and practitioners of discourse analysis alike From an educational perspective the book which also includes practical worksheets can be used in first and second level degrees in Foreign Languages Communication Political Sciences Media and Cultural Studies as well as specific courses in linguistics multimodal studies critical discourse analysis and corpus linguistics The underlying rationale of the book is its concentration on the prominent role of English in representing the Mediterranean heritage despite the fact that it is a non Mediterranean language At the same time the volume bridges the gap between academic research and class practice at the university level *Classic Vegetarian Recipes*
