*The Secret Stream* Rudolf Steiner, 2000 Rosicrucianism is one of the most important and least recognized streams of Western spirituality Forced underground in the maelstrom of the Thirty Years War Rosicrucianism was passed down secretly by alchemists hermetists and Masons into the nineteenth century when

it inspired new spiritual movements including theosophy the Order of the Golden Dawn and Rudolf Steiner's spiritual science This book collects from many different sources Steiner's discussions on Rosicrucianism the Tao and the Rose Cross the history and mission of Christian Rosenkreutz the nature of Rosicrucian practice and experience the meaning of The Chemical Wedding Goethe's Rosicrucian poem The Mysteries and how to meditate on the Rose Cross itself *Learning to Experience the Etheric World* Baruch Luke Urieli, Hans Müller-Wiedemann, 2020-12-16 Our world today is increasingly characterized by speed movement and flux There is often a lack of sufficient time to do what needs to be done and life seems to be marked by change upheaval and revolution But in the midst of this turmoil say the authors people are having conscious and semiconscious experiences of the etheric world the world that comprises the forces of life However this growing sensitivity to the etheric realm only intensifies experiences of movement and upheaval To counter such feelings we should take hold of our inner life and strengthen the I our true self Featuring essays supplemented with a substantial amount of source material from Rudolf Steiner and other authors this book is an invaluable resource for inner development and the beginnings of true spiritual vision We learn to practise the ability to add to every physical perception whether of stone plant animal or another person the etheric reality associated with that entity This process leads us to become more aware of the after image and to become conscious within the etheric realm Baruch Urieli comments that this is not an esoteric path but is rather an endeavour to bring the beginnings of a natural consciousness of the etheric to full consciousness and hence under the rulership of the ego

**Rosicrucianism Renewed** Rudolf Steiner, 2006-03 After Rudolf Steiner had left us in the body the gifts of the spirit that were offered by him in such overflowing measure could not continue It must now happen that a community of human beings takes over the results of his spiritual research takes them in such a way that they remain alive in the community People must come together in anthroposophic work united in such a way that Anthroposophy comes into its own Carl Unger Oct 29 1928 This volume provides perhaps the most comprehensive and profound exegesis of Rudolf Steiner's Anthroposophy especially his book titled Anthroposophical Leading Thoughts That book provides Steiner's final and most complete explanation of his Spiritual Science through brief aphoristic thoughts or meditations on the profound esoteric meaning of the modern spiritual path he called Anthroposophy In The Language of the Consciousness Soul Carl Unger unfolds and expands Rudolf Steiner's leading thoughts in 78 brief meditative chapters to help the reader comprehend the deeper meaning behind the Leading Thoughts Unger helps us see how Steiner created a mandala like image of Anthroposophy revealing an ever expanding cosmology and epistemology that goes far beyond mere philosophy or a belief system to a practical path of spiritual investigation and knowledge for modern humankind Rudolf Steiner had this to say about Carl Unger Dr Carl Unger for many years past has always been the most industrious and devoted collaborator in the anthroposophic movement At an early date Dr Unger saw that Anthroposophy before all needs a strong foundation of the theory of knowledge With a deep understanding he took up what I myself many years ago was able to give in my books

Goethe's Theory of Knowledge Truth and Knowledge and Intuitive Thinking as a Spiritual Path A Philosophy of Freedom he developed independently what I had intimated Supported by mental discernment his goal was to see through the nature of the human process of knowledge in a clear analysis and from that to form its true picture Dr Unger is not dialectical but an observer of empirical facts This is why through the years he has been able to give results of the highest value showing how the process of knowledge in ordinary consciousness produces always and everywhere out of itself the impulses to anthroposophic investigation Moreover Dr Unger's method of thinking trained through technical problems is free from subjective vagueness and thus his scientific collaboration in Anthroposophy is the most important that we can have The Language of the Consciousness Soul is an indispensable guidebook for group study and for individuals who wish to penetrate the depths of Anthroposophy and apply its principles both inwardly and to daily life This volume is an edited translation by Effie Grace Wilson of *Aus der Sprache der Bewusstseinsseele Unter Zugrundelegung der Leitsätze Rudolf Steiners* **The Spiritual Hierarchies and the Physical World** Rudolf Steiner, 2008-08 10 lectures in D sseldorf April 12 18 1909 participants notes from Q the nine choirs of angels elemental beings and nature spirits and the elements of fire earth air and water The Spiritual Hierarchies and the Physical World Zodiac Planets Cosmos is a translation from German of *Geistige Hierarchien und ihre Widerspiegelung in der physischen Welt Tierkreis Planeten Kosmos GA 110* The Spiritual Hierarchies and the Physical World Reality and Illusion 1996 contained a previous edition of this lecture course *The Etheric* Ernst Marti, 2017-05-08 Ernst Marti devoted his life to researching the etheric realm a subtle area that exists between the physical and spiritual Taking the numerous statements and references by Rudolf Steiner as his starting point Marti develops our understanding of the etheric world in various fields from the theory of knowledge to the natural world through to music the realm of colours eurythmy and medicine In doing so he proposes exciting bridges from the ancient and medieval worldview to the present and future of natural and spiritual science The Etheric explores the fourfold realm of the ethers Giving an overview of their cosmic origins in the evolution of the earth Dr Marti shows how the ethers work in phenomena of warmth light sound and organic life He brings a contemporary understanding and insight to the classical elements fire air water and earth as the media through which ethericity manifests and works in the world Four physical forces are also explored which as opposites to the ethers have a constant tendency to break down and annul what life giving ether creates Dr Marti then studies the shadow aspects of the ethers connected to what he terms the sub natural forces of electricity magnetism and nuclear force Given that the author was unable to complete this book in his lifetime his pupil and colleague Irmgard Rossmann edited the final version in the spirit of her teacher It is published here in two volumes with this first focusing on The World of the Ethers and the forthcoming volume on The World of Formative Forces *Spiritualism, Madame Blavatsky and Theosophy* Rudolf Steiner, 2002-11 This work builds on the foundation of the Popol Vuh the document that retraces in mythical language the four ages or stages of civilization that all of America has undergone to some degree It also moves from

the Popol Vuh into later times through myths and legends of the Aztec and Iroquois Myth and history are placed side by side in a scientific and imaginative approach that documents the correlation between pre historical and historical periods and the spiritual events that ushered them in as narrated in the myths and legends of North America This approach reconciles Western analytical consciousness with the Native American language of myths and legends All of this is placed first in the perspective of Maya spiritual tradition and then from the perspective that the twentieth century research of Rudolf Steiner brought to light especially in relation to the events that took place in Central America two thousand years ago about which only Rudolf Steiner has spoken The first part of the work explores events of 2 000 years ago and their consequences in the onset of Maya civilization The second part researches the rise of new spiritual influences around the time just before the arrival of Columbus in America At the extremes of the spectrum we find Aztec and Iroquois worldviews Both cosmologies have links subtle or obvious with the Popol Vuh whether continuing or reinterpreting its original message This polarity carries momentous consequences for global social trends in modern world history Spiritual Turning Points of North American History brings a fresh perspective to North American history and the meeting of European and First Nations worldviews

The Esoteric Significance of Spiritual Work in Anthroposophical Groups Sergei O. Prokofieff, 2007 The anthroposophical community seeks to lift human souls into supersensible realms so that they may enter the company of angels Rudolf Steiner Sergei Prokofieff traces the three stages of heavenly preparation of Anthroposophy the spiritual thunderstorm the Michael School in the Sun sphere and the imagination based cultus in the spiritual word nearest the Earth These events involved the nine spiritual hierarchies associating them with the karma of the anthroposophic movement The author goes on to elaborate the tasks of the Anthroposophical Society and indicates how these are connected with the spiritual hierarchies the Michael movement the Grail mysteries the work of new group souls and the Foundation Stone Meditation He shows that in an esoteric sense the General Anthroposophical Society was created so that people could learn to work with the gods This is a vital book for all those who care deeply about the future of the Anthroposophical Society and the proper evolution of humanity

A Life for the Spirit Henry Barnes, 1997 Whether or not Steiner's insights are valid is for each of us to determine His work is not easy and he challenges our usual thinking every step of the way The insights are radical in the original meaning of that word they go to the roots We are forced more and more to realize that only through such thinking can actions arise that are truly healing and constructive Henry Barnes from the introduction Few people today recognize Rudolf Steiner's name yet those who are aware of him know that his presence pervades every forward looking aspect of contemporary life Nearly all fields of life have been fructified by his insights not abstractly or theoretically but in a concrete way that changes lives No wonder then that Steiner has been called the best kept secret of the twentieth century Born in 1861 in Kraljvec Austria Steiner showed evidence early on of the most varied gifts a precise and probing scientific mind combined with a natural clairvoyant ability to see into the spiritual world a determined need to think things through for

himself and a profound reverence for the divine He first made his mark as a philosopher and the editor of Goethe s scientific writings He also recognized the revolutionary spirit in Nietzsche But Steiner s destiny led him in a different direction Profound cognitive experiences determined that his task would lie in service to the spirit While recognizing the integrity of modern science s phenomenological empiricism he also knew that the time had come to extend the field of science to include investigation of the supersensible Working at first within the Theosophical Society but always speaking and writing out of his own experience Steiner developed the foundations for a thoroughly modern spiritual scientific discipline that would transform spiritual and cultural life Until his death in 1925 in countless lectures and books Steiner created the body of knowledge and practice known as anthroposophy which not only challenged and extended the underlying methods of modern knowledge but stimulated many practical cultural initiatives such as Waldorf education biodynamic agriculture the art of eurythmy the movement for a threefold social order and anthroposophical medicine Henry Barnes the author of *Into the Heart s Land A Century of Rudolf Steiner s Work in North America* recounts the dynamic life of this remarkable man He does so by placing Steiner in the crosscurrents of history and showing him not as a spectator or ivory tower philosopher but as a leading actor in the drama one whose entire being was given in service to humanity and to the spirit Contents Foreword by Robert McDermott Introduction In Search of a New Thinking The Twentieth Century Battleground for Human Individuality Child of Middle Europe Biographical Foundations The Weimar Years Nietzsche Steiner and the Redemption of Thinking The Years of Inner Testing Berlin The Work Unfolds The Building Rises Insight Becomes Life The Three fold Movement for Social Reform The First Waldorf School and the Independence of Education The Healing Arts Religious Renewal Out of Fire Renewal from Within The Christmas Foundation Months of Grace Afterword The Battle Continues What Can I Do

*Foundation Stone Meditation* Sergei O. Prokofieff,2006 Meditative reflection strengthening thinking and feeling through the will is one of the main methods of experiencing Anthroposophy Prokofieff writes The best path to this goal is inner work with the Foundation Stone Meditation because this meditation is the quintessence of the whole of Anthroposophy given in meditatively inspired form by means of earthly words Rudolf Steiner described the substance of the Foundation Stone Meditation as spoken by him out of the will of the spiritual world and as verses heard from the Cosmic Word Owing to its spiritual and mantric form the text of this meditation represents an archetype and is thus a key to the most diverse areas of world and human existence Depending on which spiritual portal is opened with this key explains Prokofieff one arrives at one result or another and one and the same line of the meditation becomes a reply to the most varied questions The author applies this method in this work and in the process illuminates and opens up many dimensions of spiritual science His research embraces among other aspects the relationship of the Foundation Stone Meditation to the being Anthroposophia the spiritual hierarchies human karma the Rosicrucian Michaelic and Grail streams the Mystery of Golgotha the two Jesus

children the three spiritual sources of Anthroposophy and even the Constitution of the General Anthroposophical Society

Goetheanism Rudolf Steiner, 2024-10-28 There will be a resurrection a resurrection that should not be imagined politically but it will be a resurrection Goetheanism still rests in the grave as far as external culture is concerned But Goetheanism must rise again In the first winter following the Great War Rudolf Steiner appealed to the spirit of Central Europe which he characterized as Goetheanism that had been languishing for decades Only such a spiritual force could provide answers to the pressing social national and international questions of the time A new constellation of polar hostile opposition had emerged after the war with the East and Bolshevism on one side and the victorious West and Americanism on the other In the middle with no apparent role or hope for the future was the defeated Central Europe But this centre beseeched Steiner should not become a vacuum Rather it needs to discover its true world historical task In this context with deep seriousness and urgency Rudolf Steiner speaks of the work of Goetheanism which begins with understanding the threefold human being and leads to threefolding the social organism Steiner goes on to describe the decisive role of the consciousness soul in the present epoch and how Schiller's Aesthetic Letters and Goethe's Fairy Tale relate to contemporary challenges He discusses a multitude of seemingly diverse but interrelated themes such as the migration of peoples in the past and present the thinking of John of the Cross and the modern path of spirit cognition The first English publication of these lectures features an introduction by Christian von Arnim notes and an index Twelve lectures Dornach Jan Feb 1919 GA 188
