speak to the contemporary conditions of digital scholarship and publishing As a mixed media artifact itself Cut Copy Paste enacts for readers what Trettien argues that digital forms have the potential to decenter patriarchal histories of print From the religious household of Little Gidding whose biblical concordances and manuscripts exemplify protofeminist media innovation to the queer poetic assemblages of Edward Benlowes and the fragment albums of former shoemaker John Bagford Cut Copy Paste demonstrates history s relevance to our understanding of current media Tracing the lives and afterlives of amateur bookwork Trettien creates a method for identifying and comprehending hybrid objects that resist familiar bibliographic and literary categories In the process she bears witness to the deep history of radical publishing with fragments and found materials With many of Cut Copy Paste s digital resources left thrillingly open for additions and revisions this book reimagines our ideas of publication while fostering a spirit of generosity and inclusivity An open invitation to cut copy and paste different histories it is an inspiration for students of publishing or the digital humanities as well as anyone interested in the past present and future of creativity

Reasons include but go far beyond a general humanitarian feeling that we might have or the hope that if we help others, others will be there to help us. How we repair the world. The concrete expressions of tikkun olam in our families, our communities, the wider Jewish community and the world at large help shape one of the most important aspects of the Jewish tradition. By illuminating Judaism's understanding of the components of an ideal world and the importance of justice, compassion, education, piety, social and familial harmony and enrichment and physical flourishing for both the individual and society, we see how this ancient quest for a world with all these elements helps us define Jewish identity and mission today.
