Collins,Phillip D. Collins,2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are

*Crash at Corona* Don Berliner, Stanton T. Friedman, 2010-04-01 IF UFOS DON T EXIST THEN THEY CAN T CRASH But

something did crash near Corona a tiny town not far from Roswell New Mexico in 1947 And that crash has been dissected and debated ever since Aviation science writer Don Berliner and nuclear physicist Stanton Friedman the original civilian investigator of the so called Roswell incident have delved into the controversy to find the truth They sifted through once classified government documents interviewed military and civilian witnesses pieced together evidence considered alternative theories and concluded that a UFO crashed near Corona and the U S government knew it and covered it up Crash at Corona proves that what was found in the New Mexico desert wasn't a weather balloon or a secret weapon it was a UFO One of the more credible books arguing the existence of UFOs Most arresting of all is the testimony of those who handled the debris who had no opportunity to compare notes yet have described the materials in almost identical language Publishers Weekly
