Illustrated with Fifty One Plates* Jean-François de Galaup comte de La Pérouse,1798 **Round About the Earth** Joyce E. Chaplin,2012-10-30 In this first full history of around the world travel Joyce E Chaplin brilliantly tells the story of circumnavigation Round About the Earth is a witty erudite and colorful account of the outrageous ambitions that have inspired men and women to circle the entire planet For almost five hundred years human beings have been finding ways to circle the Earth by sail steam or liquid fuel by cycling driving flying going into orbit even by using their own bodily power The story begins with the first centuries of circumnavigation when few survived the attempt in 1519 Ferdinand Magellan left Spain with five ships and 270 men but only one ship and thirty five men returned not including Magellan who died in the Philippines Starting with these dangerous voyages Joyce Chaplin takes us on a trip of our own as we travel with Francis Drake William Dampier Louis Antoine de Bougainville and James Cook Eventually sea travel grew much safer and passengers came on board The most famous was Charles Darwin but some intrepid women became circumnavigators too a Lady Brassey for example Circumnavigation

became a fad as captured in Jules Verne's classic novel *Around the World in Eighty Days*. Once continental railroads were built, circumnavigators could traverse sea and land. Newspapers sponsored racing contests and people sought ways to distinguish themselves by bicycling around the world for instance or by sailing solo. Steamships turned round the world travel into a luxurious experience as with the tours of Thomas Cook. Son Famous authors wrote up their adventures including Mark Twain and Jack London and Elizabeth Jane Cochrane better known as Nellie Bly. Finally humans took to the skies to circle the globe in airplanes. Not much later Sputnik, Gagarin and Glenn pioneered a new kind of circumnavigation in orbit. Through it all the desire to take on the planet has tested the courage and capacity of the bold men and women who took up the challenge. Their exploits show us why we think of the Earth as home. Round About the Earth is itself a thrilling adventure.

Around the World in Eighty Days Jules Verne, 1995-02-23 Jules Verne's classic a bestseller for over a century has never appeared in a critical edition before William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey. Having assured the members of London's exclusive Reform Club that he will circumnavigate the world in 80 days Fogg, stiff repressed English starts by joining forces with an irrepressible Frenchman Passepartout and then with a ravishing Indian beauty Aouda. Together they slice through jungles over snowbound passes even across an entire isthmus only to get back five minutes late. Fogg faces despair and suicide but Aouda makes a new man of him able to face even the Reform Club again. *Around the World in Eighty Days* 1872 contains a strong dose of post-Romantic reality plus extensive borrowing from the author's own *Journey to England and Scotland* but not a shred of science fiction. Its modernism lies instead in the experimental literary technique with parallel plots a narrator constantly made to look foolish four characters in search of their own unconscious and a unique twisting of space and time. Verne's classic a bestseller for over a century has never appeared in a critical edition before William Butcher's stylish new translation moves as fast and as brilliantly as Fogg's own journey.
