Ghostly Encounters Dennis Waskul, 2016-06-10 Dennis Waskul writes these lines about his first hand experience with the supernatural in the introduction to his beguiling book Ghostly Encounters Based on two years of fieldwork and interviews with 71 midwestern Americans the Waskul's book is a reflexive ethnography that examines how people experience ghosts and hauntings in everyday life The authors explore how uncanny happenings become ghosts and the reasons people struggle with or against a will to believe They present the variety and character of hauntings and ghostly encounters outcomes of people telling haunted legends and the nested consequences of ghostly experiences Through these stories Ghostly Encounters seeks to understand the persistence of uncanny experiences and beliefs in ghosts in an age of reason science education and technology as well as how those beliefs and experiences

Doubting Ghosts Michele Hanks, 2025-04-28 Based on ethnographic research in England Doubting Ghosts explores the paradoxes faced by paranormal investigators or ghost hunters in spite of spending significant time observing and documenting what they suspect to be paranormal phenomena in a scientific secular and rational fashion many paranormal investigators remain skeptical about the existence of the paranormal What then does it mean to regularly see ghosts and yet to not believe ghosts are real Examining the manner in which the scientific approach adopted by investigators produces profound doubts about the existence of the paranormal the meaning of science and the nature of modernity the author demonstrates that doubt itself is central to experiences of secularity and that doubt can constitute a foundation for long term engagements with the paranormal Thus paranormal investigators are able to sustain a relationship albeit an uneasy one with the paranormal while maintaining a commitment to a scientific secular and rational worldview A contribution to understandings of doubt science religion and disenchantment this book will appeal to scholars of sociology and anthropology

Sensing Spirits Marc A. Eaton, 2020-10-15 Based on ethnographic research this book examines the paranormal investigation subculture in the US Presenting interviews with investigators as well as extensive field observations it explores their reasons for getting involved their use of different investigative methods the interpretive processes by which they individually and collectively sense spirits the ways in which these processes are influenced by small group power dynamics and what paranormal investigation ultimately means to those who participate While focusing on the practices by which investigators sense spirits in small groups the author also situates paranormal investigation within a broader cultural context and attends to how investigators attempt to legitimize their practice despite being marginalized by both science and religion A fascinating study of ghosts as an inherently social phenomenon Sensing Spirits will appeal to sociologists with interests in ethnography interactionism cultural studies and subcultures
