Aurel Croissant, Jeffrey Haynes

Roundtable Talks Of 1989:

The Roundtable Talks and the Breakdown of Communism Jon Elster,1996-09 In five country specific reports senior scholars provide detailed accounts of the talks in Bulgaria Poland Hungary Czechoslovakia and the German Democratic Republic These essays capture the historical circumstances of these countries their traditions customs and the balance of influence between competing factions that often took precedence over constitutional ideals

The Collapse Mary Elise Sarotte,2014-10-07 On the night of November 9 1989 massive crowds surged toward the Berlin Wall drawn by an announcement that caught the world by surprise East Germans could now move freely to the West The Wall infamous symbol of divided Cold War Europe seemed to be falling But the opening of the gates that night was not planned by the East German ruling regime nor was it the result of a bargain between either Ronald Reagan or George H W Bush and Soviet leader Mikhail Gorbachev It was an accident In The Collapse prize winning historian Mary Elise Sarotte reveals how a perfect storm of decisions made by daring underground revolutionaries disgruntled Stasi officers and dictatorial party bosses sparked an unexpected series of events culminating in the chaotic fall of the Wall With a novelist s eye for character and detail she brings to vivid life a story that sweeps across Budapest Prague Dresden and Leipzig and up to the armed checkpoints in Berlin We meet the revolutionaries Roland Jahn Aram Radomski and Siggie Schefke risking it all to smuggle the truth across the Iron Curtain the hapless Politburo member G Schabowski mistakenly suggesting that the Wall is open to a press conference full of foreign journalists including NBC s Tom Brokaw and Stasi officer Harald J r holding the fort at the crucial border crossing that night Soon Brokaw starts broadcasting live from Berlin s Brandenburg Gate where the crowds are exulting in the euphoria of newfound freedom and the dictators are plotting to restore control Drawing on new archival sources and dozens of interviews The Collapse offers the definitive account of the night that brought down the Berlin Wall

Bulletin ,2001 [The End of the Cold War](#) ,2001 Featuring new evidence on the end of the Cold War 1989 the fall of the Wall Sino Soviet relations 1958 59 Soviet missile deployments 1959 the Iran Crisis 1944 46 Tito and Khrushchev 1954

Imre Nagy, Martyr of the Nation Karl P. Benziger,2008-04-28 Imre Nagy is a compelling figure both in life and in death_ one whose actions stimulated consequences in Hungary that continue into the present Providing a summary review of Hungarian Cold War history Benziger examines the ways in which the memory of the martyred prime minister and the story of the 1956 Revolution influenced political socialization in Hungary The book begins with Nagy s 1989 funeral and the role memorialization played in the politics of transition continuing with a review of the important personages and events that informed Nagy s life and afterlife and it concludes in the tumultuous politics following the establishment of the Republic in 1989 Readers interested in Central and Eastern Europe will find this book useful as it expands the literature on history and memory and transition politics in the region

Twenty Years of Studying Democratization Aurel Croissant,Jeffrey Haynes,2015-06-05 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the

Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball game in terms of global political developments. The journal's first issue appeared in early 1994. Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath. The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders. In short the journal wants to promote a better understanding of democratization defined as the way democratic norms, institutions and practices evolve and are disseminated both within and across national and cultural boundaries. Over the years the many excellent articles that we have featured in the journal have shared our focus on democratization viewed as a process. The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy: how and why it emerges, develops and becomes consolidated. Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative. We include special reference to democratization in the developing world and in post communist societies. In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers, administrators and journalists, aid and development personnel, those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule. The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate, uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere.

The Communist Successor Parties of Central and Eastern Europe Andras Bozoki, John T. Ishiyama, 2020-07-24

What has become of the Communist parties that once held monopoly power in the east bloc? A decade ago it was assumed that they would dissolve but many of them have enjoyed electoral success. This book systematically examines how they have evolved. In the opening section Herbert Kitschelt and Ivan Szelenyi respectively consider post communist party strategies and social democratic prospects in the transitional societies. Part II presents nine case studies of the major communist and communist successor parties of the region and Part III is devoted to seven comparative studies. Appendices provide comparable electoral and party membership data.

The Reconstruction of Nations Timothy Snyder, 2004-07-11

Yet he begins with the principles of toleration that prevailed in much of early modern eastern Europe and concludes with the peaceful resolution of national tensions in the region since 1989.

A History of the Hungarian Constitution Ferenc Hörcher, Thomas Lorman, 2018-12-13

The new Hungarian Basic Law which was ratified on 1 January 2012 provoked domestic and international controversy. Of particular concern was the constitutional text's explicit claim that it was situated within a reinvigorated Hungarian legal tradition that had allegedly developed over centuries before its violent interruption during World War II by German invaders and later by Soviet occupation. To explore the context and validity of this claim and the legal traditions which have informed the stormy centuries of Hungary's constitutional development this book brings together

a group of leading historians political scientists and legal scholars to produce a comprehensive history of Hungarian constitutional thought Ranging in scope from an overview of Hungarian medieval jurisprudence to an assessment of the various criticisms levelled at the new Hungarian Basis Law of 2012 contributors assess the constitutions their impacts and their legacies as well as the social and cultural contexts within which they were drafted The historical analysis is accompanied by a selection of original source materials many translated here for the first time This is the only book in English on the subject and is essential reading for all those interested in Hungary s history political culture and constitution

Irreconcilable Differences? Michael Kraus,Allison Stanger,2000 This unique volume brings together a multi disciplinary group of scholars as well as Czech and Slovak decisionmakers who were personally involved in the events leading up to the separation of Czechoslovakia Asking whether the dissolution was inevitable the contributors bring a range of different approaches and perspectives to bear on the twin problems of democratic transitions in multinational societies and ethnic separatism and its origins The blend of analysis and insider experiences will make this book invaluable for all concerned with nationalism and ethnicity democratization and transitions in Eastern Europe Comrades No More Renee De Nevers,2003-06-20 In 1989 Soviet control over Eastern Europe ended when the communist regimes of the Warsaw Pact collapsed These momentous and largely bloodless events set the stage for the end of the Cold War and ushered in a new era in international politics Why did communism collapse relatively peacefully in Eastern Europe Why did these changes occur in 1989 after more than four decades of communist rule Why did this upheaval happen almost simultaneously in most of the Warsaw Pact In *Comrades No More* Renee de Nevers examines how internal and external factors interacted in the collapse of East European communism She argues that Gorbachev s reforms in the Soviet Union were necessary to start the process of political change in Eastern Europe but domestic factors in each communist state determined when and how each country abandoned communism A demonstration effect emerged as Hungary and Poland introduced reforms and showed that Moscow would not intervene to prevent political and economic changes De Nevers analyzes the process of change in Hungary Poland Bulgaria the German Democratic Republic Czechoslovakia and Romania She traces the pattern of reform in each country and shows how these patterns influenced their postcommunist political evolution *World History* Mr. Rohit Manglik,2024-03-20 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels

Eastern Europe And Democracy Wojtek Lamentowicz,2019-03-07 The events of 1989 in Eastern and Central Europe have shaken the foundations of the post war bipolar security system The quest for democracy demonstrated by such disparate events as the election of a Solidarity prime minister in Poland East Germans voting with their feet and leaving in droves for West Germany and the violent overthrow of the C **A History of Central Europe** Robert C. Austin,2021-09-30

This textbook offers a survey of the history of Central Europe since 1848 from the Springtime of Nations through the world wars and communist period to NATO and EU membership. With an emphasis on nation building it gives the reader a better understanding of not just political history but also of the region's economic development and of everyday life. The book brings the reader right up to the present considering contemporary issues such as the impact of the 2015 refugee crisis, migration out of Central Europe, the weakening of democratic institutions and the re-emergence of nationalism. Throughout it offers fresh perspectives, gives agency to Central Europe and pays attention to the ethnic, linguistic and religious diversity of the region. This is essential reading for students taking courses on Central East Central Europe. It is also suitable for courses on 19th and 20th Century Europe or for anyone with an interest in the region. **Opposite Poles** Mary Patrice

Erdmans, 1998-03-18 *Opposite Poles* presents a fascinating and complex portrait of ethnic life in America. The focus is Chicago Polonia, the largest Polish community outside of Warsaw. During the 1980s a new cohort of Polish immigrants from communist Poland, including many refugees from the Solidarity movement, joined the Polish American ethnics already settled in Chicago. The two groups shared an ancestral homeland, social space in Chicago and the common goal of wanting to see Poland become an independent noncommunist nation. These common factors made the groups believe they ought to work together and help each other, but they were more often at opposite poles. The specious solidarity led to contentious conflicts as the groups competed for political and cultural ownership of the community. Erdmans's dramatic account of intracommunity conflict demonstrates the importance of distinguishing between immigrants and ethnics in American ethnic studies. Drawing upon interviews, participant observation in the field, surveys and Polish community press accounts, she describes the social differences between the two groups that frustrated unified collective action. We often think of ethnic and racial communities as monolithic, but the heterogeneity within Polish Chicago is by no means unique. Today in the United States new Chinese, Israeli, Haitian, Caribbean and Mexican immigrants negotiate their identities within the context of the established identities of Asians, Jews, Blacks and Chicanos. *Opposite Poles* shows that while common ancestral heritage creates the potential for ethnic allegiance, it is not a sufficient condition for collective action. *Bridging the European Divide* Joshua B. Spero, 2004-10-20

Do middle powers matter geopolitically to great powers when confronting the unconventional twenty-first century threats from nation states or nonstate actors? *Bridging the European Divide* explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11, 2001.

Central European Ways to Democracy András Bozóki, 2003 Comparative Constitutional Reasoning András Jakab, Arthur Dyevre, Giulio Itzcovich, 2017-04-27 A large scale comparative work of leading cases examines judicial constitutional reasoning in eighteen different legal systems globally. The Politics of Pact-Making J. Schieman, 2015-12-11 Contributing to the literature on democratic transitions and with a focus on institutional bargaining, in this fascinating book the Hungarian case is contrasted with those of Poland, South Africa and China to explore the contours of what bargaining

strategies affect outcomes The result is an increased understanding of how actors and their interaction can make peaceful transition possible

The Abuse of Constitutional Identity in the European Union Julian Scholtes, 2023

The idea of constitutional identity has been central to the negotiation of authority between EU and national constitutional orders Many national constitutional courts have declared that the reach of EU law is limited by certain core elements of the national constitution often labelled constitutional identity With the rise of illiberal democracies within the EU the idea of constitutional identity has increasingly come under criticism being seen as easily embedded in authoritarian nativist rhetoric and vulnerable to being abused In *The Abuse of Constitutional Identity in the European Union* Julian Scholtes provides novel insights into how European authoritarians have utilised the concept of constitutional identity to further their illiberal goals Employing a comparative theoretical perspective his book identifies the factors behind legitimate constitutional identity claims and critically analyses the ways in which these claims can be abused Scholtes examines abuses of constitutional identity in three distinct theoretical dimensions generative substantive and relational The generative dimension looks at how constitutional identity claims come about while the substantive dimension examines a claim's broader relation to a normative theory of constitutionalism The relational dimension on the other hand considers how constitutional identity claims are advanced and whether they are employed as a means of constitutional dialogue or constitutional disengagement

Whispering the Strategies of Language: An Emotional Quest through **Roundtable Talks Of 1989**

In a digitally-driven world wherever displays reign supreme and instant conversation drowns out the subtleties of language, the profound techniques and emotional nuances hidden within words often get unheard. However, situated within the pages of **Roundtable Talks Of 1989** a charming fictional prize blinking with fresh feelings, lies a fantastic quest waiting to be undertaken. Penned by an experienced wordsmith, this marvelous opus attracts readers on an introspective journey, gently unraveling the veiled truths and profound impact resonating within the very cloth of each and every word. Within the mental depths of the moving review, we can embark upon a heartfelt exploration of the book's key subjects, dissect their charming publishing design, and succumb to the powerful resonance it evokes deep within the recesses of readers' hearts.
