Serpents in the Classroom Thomas Korcok,2022-02-22 Serpents in the Classroom answers questions that teachers pastors and parents often ask themselves Despite their best efforts why do children so often reject the Christian faith The answer is found in the theological presuppositions that undergird much of contemporary education Though the educational establishment often presents its models as products drawn from evidence based research that is theologically neutral they are anything but Rather they are founded on theologies that are diametrically opposed to orthodox Christian teaching Drawing on his experience as an educator pastor and professor Dr Korcok uncovers the theological tenets of some of the pedagogues who have been influential in shaping contemporary educational thought and discovers how they have intentionally designed education to turn children away from the Christian faith For the Christian teacher and parent there is an alternative Dr Korcok presents the classical liberal arts education model that has served the church well for almost 2 000 years as a practical and theologically sound model of education for training a child for a life of faith

Popiel,2021-06 Heroic Hearts Sentiment Saints and Authority in Modern France examines how young women authorized by a widespread cultural discourse that privileged public action over love and marriage sought to change the world Rousseau and the French Revolution 1762-1791 Joan McDonald,2013-11-07 From 1789 onwards there sprang up a fervent revolutionary cult of Rousseau and at each stage in the subsequent unfolding of the drama of the Revolution historians have seen Rousseau s influence at work Mrs McDonald seeks in this study to trace the development of the cult and to define the nature of the influence by means of a detailed survey of the appeals made to the authority of Rousseau in books pamphlets and accounts of speeches put forth by revolutionary and counter revolutionary writers between 1762 and 1791 and she reaches conclusions more complex than those which have been commonly accepted She is able to show that most of the writers on the revolutionary side who

invoked Rousseau's name did so in order to put forward their own views and used arguments that were often in direct contradiction with those which he had formulated. The Social Contract was not widely read in these years and those revolutionaries who did actually study it were often critical of what they found there. By contrast the most careful analysis of Rousseau's political theory is to be found in the pamphlets written by aristocratic critics of the Revolution in protest against the misuse to which his name had been put. *Reflections on the French Revolution* Edmund Burke, 1905 **Rousseau and the French Revolution 1762-1791** Joan MacDonald, 1968 **Selections from Burke's Reflections on the French revolution** Edmund Burke, 1893
