**Manipulating Democracy** Wayne Le Cheminant, John M. Parrish, 2010-09-22 Manipulation is a source of pervasive anxiety in contemporary American politics. Observers charge that manipulative practices in political advertising, media coverage, and public discourse have helped to produce an increasingly polarized political arena: an uninformed and apathetic electorate, election campaigns that exploit public fears and prejudices, a media that titillates rather than educates, and a policy process that too often focuses on the symbolic rather than substantive. *Manipulating Democracy* offers the first comprehensive dialogue between empirical political scientists and normative theorists on the definition and contemporary practice of democratic manipulation. This impressive array of distinguished scholars—political scientists, philosophers, cognitive psychologists, and communications scholars—collectively draw out the connections between competing definitions of manipulation, the psychology of manipulation, and the political institutions and practices through which manipulation is seen to produce a tightly knit exploration of an issue at the heart of democratic politics.

**America's Forgotten Founders, second edition** Gary L. Gregg, Mark David Hall, 2023-05-30 Beyond Washington and Jefferson: Ranking the Founders. Even as Americans devour books about our Founding Fathers, the focus seldom extends past a half dozen or so icons: Franklin, Washington, Adams, Jefferson, Madison, Hamilton. Many of the men and women who made prodigious contributions to the American founding have been all but forgotten. *America's Forgotten Founders* corrects this injustice. Editors Gary L. Gregg II and Mark David Hall surveyed forty-five top scholars in history, political science, and law to produce the first ever ranking of the most neglected contributors to the American Revolution and our constitutional order. This unique book features engaging short biographies of the top ten most important Founders whose contributions are overlooked today: James Wilson, George Mason, Gouverneur Morris, John Jay, Roger Sherman, John Marshall, John Dickinson, Thomas Paine, Patrick Henry, and John Witherspoon. Part of the *Lives of the Founders* series, *America's Forgotten Founders* reshapes our understanding of America's founding generation.

*Political Theory and the Environment* Matthew Humphrey, 2020-04-22 This collection offers a sympathetic but critical perspective on contemporary ecological political theory and gives proposals for a reorientation of some of its key aspects.

*Science Fiction: the Evolutionary Mythology of the Future* Thomas Lombardo, 2021-08-26 An in-depth history of science fiction, primarily covering the 1930s from Superman to Olaf Stapledon's *Star Maker*. The book examines science fiction literature, art, cinema, and comics, and the impact of culture, philosophy, science, technology, and futures studies on the development of science fiction. Further, the book describes the influence of science fiction on human society and the evolution of future consciousness. Other key figures discussed include Asimov, Hamilton, Doc Smith, Campbell, Lovecraft, C. A. Smith, and Williamson.

assistant professor of political science at Patrick Henry University with every reason to think she will be granted tenure She has met her department's publication standards and has avoided offending any of her senior colleagues She has also shunned much of a personal life which only strengthens her suit or so she thinks It is with disbelief therefore that Lydia learns that a colleague with a scholarly record almost identical to her own has been denied tenure The standards have been raised one book is no longer enough Suddenly Lydia finds herself with less than a year to begin and complete a new research project In her scramble for ideas she discovers a local animal rights group and sets about dissecting the organization as a case study in political extremism But when she meets Charlie a former group member her research methods lose their objectivity Only after they are lovers does she realize how much a boon to her project the study of him in particular would be Lydia's temptation to use Charlie for her own gain sets into motion a sequence of events that places her in the same situation she has so often blithely put others What will she do when she discovers that her new project's success demands she expose something essential of herself
