Mendelssohn was herself incarcerated in Holloway women's prison between 1971-76 and her bold and inventive poetry foregrounds and subverts but does not triumphantly overcome conditions of constraint. Informed by extensive original archival research, this book reads her highly experimental lyric alongside the poetry of her forerunners and contemporaries including Nancy Cunard, Muriel Rukeyser, and Denise Riley, restoring to view a lost network of radical Jewish and feminist modernism. With chapters on the poetry of the Spanish Civil War, the legacy of the Holocaust, the Women's Liberation Movement, the transformation of HMP Holloway in the 1970s, and prison abolitionism, *Incarceration in the Poetry of Anna Mendelssohn* illuminates the historical, political, and literary contexts that shape this work and argues that Mendelssohn advances a poetics not of emancipation but of abolition.

[Seeking to Understand the World: Literary Journalism of Vincent Sheean](#) Anish Dave, 2023-05-30 Vincent Sheean, a groundbreaking American foreign correspondent and author, is known for reporting from Europe, North Africa, and Asia, writing news reports, articles, and books. A few books and articles have described Vincent Sheean's life and briefly discussed his major nonfiction books. However, no book-length study or article has closely examined his nonfiction books. *Seeking to Understand the World: Literary Journalism of Vincent Sheean* textually analyzes his five nonfiction journalistic books to examine them for characteristics of literary journalism. Spanning nearly the entirety of his journalistic career, these books include *Personal History* (1935), *Not Peace but a Sword* (1939), *Between the Thunder and the Sun* (1943), *Lead Kindly Light* (1949), and *Nehru: The Years of Power* (1960). Set in different world areas, the books illuminate events as disparate as the Rif War, the Spanish Civil War, the infamous Munich Pact, the Nazi bombing of London, and the assassination of Mahatma Gandhi. Sheean's books provide an in-depth, personal look at these and related events. This book includes analysis of Sheean's works, finding that they have several prominent characteristics of literary journalism: stories and scenes, cohesive structure, lifelike characters, vivid description, well-crafted sentences, immersive reporting, among others.

United States Demographics - Part A , Warped Narratives Melissa Kate Merry, 2020-01-06 The politics of gun policy in the United States are dramatic. Against the backdrop of daily gun violence, which claims more than 33,000 lives per year, gun control groups push for stronger regulations while gun rights groups resist infringements upon their Second Amendment rights. To illuminate the dynamics of this polarized debate, *Warped Narratives* examines how and why interest groups frame the gun violence problem in particular ways, exploring the implication of groups framing choices for policymaking and politics. Melissa K. Merry argues that the gun policy arena is warped and that both gun control and gun rights organizations contribute to the distortion of the issue by focusing on atypical characters and settings in their policy narratives. Gun control groups emphasize white victims, child victims, and mass shootings in suburban locales, while gun rights groups focus on self-defense shootings, highlighting threats to law-abiding gun owners. In reality, most gun deaths are the result of suicide. Homicides occur disproportionately in urban areas, mainly affecting racial minorities. While warping makes political sense in the short term, it may lead to negative long-term consequences, including constraints on groups' ability to

build broad based coalitions and to reduce prospects for compromise To demonstrate warping Merry analyzes nearly 67 000 communications by 15 national gun policy groups between 2000 and 2017 collected from blogs emails Facebook posts and press releases This book is the first to systematically assess the role of race in gun policy groups framing and offers the most comprehensive examination to date of interest groups presentation of this issue Playing at War Patrick A. Lewis, James Hill Welborn III, 2024-09-19 Playing at War offers an innovative focus on Civil War video games as significant sites of memory creation distortion and evolution in popular culture With fifteen essays by historians the collection analyzes the emergence and popularity of video games that topically engage the period surrounding the American Civil War from the earliest console games developed in the 1980s through the web based games of the twenty first century including popular titles such as Red Dead Redemption 2 and War of Rights Alongside discussions of technological capabilities and advances as well as their impact on gameplay and content the essays consider how these games engage with historical scholarship on the Civil War era the degree to which video games reflect and contribute to popular understandings of the period and how those dynamics reveal shifting conceptions of martial identity and historical memory within U S popular culture Video games offer productive sites for extending the analysis of Civil War memory into the post Confederates in the Attic era including the political and cultural moments of Obama and Trump where overt expressions of Lost Cause memory were challenged and removed from schools and public spaces then embraced by new manifestations of white supremacist organizations Edited by Patrick A Lewis and James Hill Welborn III Playing at War traces the drift of Civil War memory into digital spaces and gaming cultures encouraging historians to engage more extensively with video games as important cultural media for examining how contemporary Americans interact with the nation s past *The Oxford Handbook of Public History*, 2017-09-20 *The Oxford Handbook of Public History* introduces the major debates within public history the methods and sources that comprise a public historian s tool kit and exemplary examples of practice It views public history as a dynamic process combining historical research and a wide range of work with and for the public informed by a conceptual context The editors acknowledge the imprecision bedeviling attempts to define public history and use this book as an opportunity to shape the field by taking a deliberately broad view They include professional historians who work outside the academy in a range of institutions and sites and those who are politically committed to communicating history to the wide range of audiences This volume provides the information and inspiration needed by a practitioner to succeed in the wide range of workplaces that characterizes public history today for university teachers of public history to assist their students and for working public historians to keep up to date with recent research This handbook locates public history as a professional practice within an intellectual framework that is increasingly transnational technological and democratic While the nation state remains the primary means of identification increased mobility and the digital revolution have occasioned a much broader outlook and awareness of the world beyond national borders It addresses squarely the tech savvy media literate citizens of the world

the digital natives of the twenty first century in a way that recognizes the revolution in shared authority that has swept museum work oral history and much of public history practice This volume also provides both currently practicing historians and those entering the field a map for understanding the historical landscape of the future not just to the historiographical debates of the academy but also the boom in commemoration and history outside the academy evident in many countries since the 1990s which now constitutes the historical culture in each country Public historians need to understand both contexts and to negotiate their implications for questions of historical authority and the public historian s work The boom in popular history is characterized by a significant increase in both making and consuming history in a range of historical activities such as genealogy family history and popular collecting cultural tourism historic sites and memorial museums increased memorialization both formal and informal from roadside memorials to state funded shrines and memorial Internet sites increased publication of historical novels biographies and movies and TV series set in the past Much of this as well as a vast array of new community cultural projects has been facilitated by the digital technologies that have increased the accessibility of historical information the democratization of practice and the demand for sharing authority
