others such as Samuel Richardson's *Pamela* became adult novels Michals considers how historically specific ideas about age shaped not only the readership of novels but also the ways that characters are represented within them Arguing that age is first understood through social status and later through the ideal of psychological development the book examines the new determination of authors at the end of the nineteenth century such as Henry James to write for an audience of adults only In these novels and in their reception a world of masters and servants became a world of adults and children

The British National Bibliography Arthur James Wells, 2006

Exploited, Empowered, Ephemeral Denise Burkhard, 2023-07-10

Childhood in neo Victorian fiction for both child and adult readers is an extremely multifaceted and fascinating field This book argues that neo Victorian fiction projects multiple competing visions of childhood and suggests that they can be analysed by means of a typology the childhood scale which provides different categories along the lines of power relations and literary possible worlds theory The usefulness of both is exemplified by detailed discussions of Philippa Pearce's *Tom's Midnight Garden* 1958 Eva Ibbotson's *Journey to the River Sea* 2001 Sarah Waters' *Fingersmith* 2002 and Dianne Setterfield's *The Thirteenth Tale* 2006

Mediating Criticism Roger D. Sell, 2001 In the twentieth century literature was under threat Not only was there the challenge of new forms of oral and visual culture Even literary education and literary criticism could sometimes actually distance novels poems and plays from their potential audience This is the trend which Roger D Sell now seeks to reverse Arguing that literature can still be a significant and democratic channel of human interactivity he sees the most helpful role of teachers and critics as one of mediation Through their own example they can encourage readers to empathize with otherness to recognize the historical achievement of significant acts of writing and to respond to literary authors own faith in communication itself By way of illustration he offers major reassessments of five canonical figures Vaughan Fielding Dickens T S Eliot and Frost and of two fascinating twentieth century writers who were somewhat misunderstood the novelist William Gerhardie and the poet Andrew Young

Globalization and Literary Studies Joel Evans, 2022-04-21 This book provides a history of the way in which literature not only reflects but actively shapes processes of globalization and our notions of global phenomena It takes in a broad sweep of history from antiquity through to the era of imperialism and on to the present day Whilst its primary focus is our own historical conjuncture it looks at how earlier periods have shaped this by tracking key concepts that are imbricated with the concept of globalization from translation to empire to pandemics and environmental collapse Drawing on these older themes and concerns it then traces the germ of the relation between global phenomena and literary studies into the 20th and 21st centuries exploring key issues and frames of study such as contemporary slavery the digital world literature and the Anthropocene
