discrimination highlights the interplay between technology media popular culture and schooling and inspects the relevance of ethics and philosophy in the modern classroom The third edition has been comprehensively updated to include the latest research statistics and legal policies Each chapter challenges and breaks down common myths surrounding each topic encouraging pre service teachers to think critically and reflect on their own beliefs The inclusion of a new chapter on alternative education reflects the ever changing Australian educational landscape In *Making Sense of Mass Education* Gordon Tait expertly blurs disciplinary boundaries drawing on sociology cultural studies history philosophy ethics and jurisprudence to provide a comprehensive understanding of the fundamental concepts of mass education Schooling and Society Gordon Tait, 2017-04-24 This new book is a wide ranging contemporary and accessible analysis of familiar and recurring myths about mass education in the United Kingdom Looking at a variety of important issues and problems each chapter begins by dispelling myths and assumptions about the classroom going beyond class race and gender to offer analysis of topics such as discipline youth cultures information technology and globalisation Utilising an interdisciplinary lens this book offers knowledge from disciplines as diverse as sociology philosophy jurisprudence and cultural studies Gordon Tait examines the strengths and weaknesses of different theoretical approaches to education from critical theory to postmodernism and Foucaultian governance to post colonialism Analysing the many assumptions about education taken for granted in British public discourse important conclusions are drawn about which of these assumptions are fair and reasonable and which we should challenge This book is an essential resource for advanced undergraduate and postgraduate courses on the sociology of education culture and education and the philosophy of education *International Handbook of Interpretation in Educational Research* Paul Smeyers, David Bridges, Nicholas C. Burbules, Morwenna Griffiths, 2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research It argues that all educational research is in some sense interpretive and that understanding this issue belies some usual dualisms of thought and practice such as the sharp dichotomy between qualitative and quantitative research Interpretation extends from the very framing of the research task through the sources which constitute the data the process of their recording representation and analysis to the way in which the research is finally or provisionally presented The thesis of the handbook is that interpretation cuts across the fields both philosophically organizationally and methodologically By covering a comprehensive range of research approaches and methodologies the handbook gives early career researchers what they need to know in order to decide what particular methods can offer for various educational research contexts fields An extensive overview includes concrete examples of different kinds of research not limited for example to teaching and learning examples as present in the Anglo Saxon tradition but including as well what in the German Continental tradition is labelled *pädagogisch* examples from child rearing and other contexts of non formal education with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice combined in each case with

consideration of the role of interpretation in the process The handbook includes examples of a large number of methods traditionally classified as qualitative interpretive and quantitative used across the area of the study of education Examples are drawn from across the globe thus exemplifying the different opportunities and constraints that educational research has to confront in different societies
