Enjoy this trip to potential Instagram fame with Aggie Lal as your tour guide **Finland's War of Choice** Henrik O. Lunde, 2020-01-10 A selection of the Military Book Club A solid operational analysis from an established scholar of the Scandinavian theater Publishers Weekly This book describes the odd coalition between Germany and Finland in World War II and their joint military operations from 1941 to 1945 In stark contrast to the numerous books on the shorter and less bloody Winter War which represented a gallant fight of a democratic David against a totalitarian Goliath and caught the imagination of the world the story of Finland fighting alongside a Goliath of its own has not brought pride to that nation and was a period many Finns would rather forget A prologue brings the reader up to speed by briefly examining the difficult history of Finland from its separation from the Soviet Union in 1917 to its isolation after being bludgeoned in 1939 40 It then examines both Finnish and German motives for forming a coalition against the USSR and how as logical as a common enemy would seem the lack of true planning and preparation would doom the alliance In this book Henrik Lunde a former US Special Operations colonel and author of Hitler's Pre-emptive War The Battle for Norway 1940 once again fills a profound gap in our understanding of World War II **Intelligent Agents in the Evolution of Web and Applications** Ngoc Thanh Nguyen, Lakhmi C Jain, 2009-01-17 Intelligent agents have revolutionised the way we do business we teach we learn design systems and so on Agent applications are increasingly being developed in mains as diverse as meteorology manufacturing war gaming UAV mission management and the evolution of Web 1 The Web has also has the same effect on our daily life as the intelligent agents We use Web for information search shopping news communication and so on We wonder how we lived without Web in the past 2 The book presents a sample of some of the most innovative research on the use of intelligent agents in the evolution of Web There are thirteen chapters in the book Chapters are on theoretical foundations as well as practical applications We are grateful to the contributors and reviewers for their contribution We believe that the research reported in the book will encourage researchers to develop the robust human like intelligent machines for the service of humans We sincerely thank Springer Verlag for their editorial support during the preparation of the manuscript The editors appreciate the resources provided by Wroclaw University of Technology and the University of South Australia to edit this volume **The NEBI Yearbook 2000** Lars Hedegaard, Bjarne Lindström, 2012-12-06 The NEBI Yearbook 2000 aims to provide a balanced picture of both the integrationist opportunities and disintegrationist pressures in the North European and Baltic Sea area a region with over 50 million inhabitants and great economic and trading potentials It brings together a wide range of scientific methods and perspectives in addition to a comprehensive statistical section with information found nowhere else The result is a unique source of up to date knowledge of this increasingly important European region
