Royal Air Force An Illustrated History:

The Royal Air Force M. J. Armitage, 1993 *The Royal Air Force* M. J. Armitage, 1998 *Royal Air Force* Continuum International Publishing Group, Limited, 1999-05 **The Official Illustrated History of RAF Search and Rescue** Paul E Eden, 2020-07-09 In February 2016 the RAF's Search and Rescue Force SARF celebrated its 75th anniversary In June that year the world renowned and universally admired service was officially disbanded despite attempts from many including HRH Prince William to save it as part of the RAF This book is an official fully illustrated in depth account of the SARF's rich and glorious history from its origins in World War II through to its recent withdrawal The book contains a foreword by HRH Prince William himself plus action packed and awe inspiring photographs from the RAF's archive of photographs and exclusive interviews with former crewmembers telling their own dramatic stories of derring do Officially endorsed by the RAF An Illustrated History of the RAF Search and Rescue Force is the first and probably the only major book of its kind written on this subject It is an essential purchase for anyone with an interest in military history British history the Royal Family and those who love stories of extreme and daring rescue missions **The Royal Air Force: The Trenchard Years, 1918-1929** Ian M. Philpott, 2005-07-19 The inter war years between 1918 and 1939 saw the newly created Royal Air Force fighting for its very existence politically being dispatched to the remotest corners of the British Empire and its Protectorates in various policing roles and then finally engaged in a headlong rush to modernize in the face of the new German Fascist regime that was threatening British and European freedom Yet this important period in RAF history and its effect on political and military rationale during the period has never been completely documented This exhaustive and comprehensive reference is the most detailed work to be published on the subject The author gives full information on the changing structure of the Force during the period squadron operations political machinations and their effects the airplanes and their equipment the personnel technical advances in navigation and breakthroughs achieved in engine performance The book is cross referenced throughout extremely well illustrated and contains an abundance of location maps and other diagrams This book will become a Bible for anyone interested in the history of the RAF This work has been reviewed by personnel at the RAF Historical Branch who praise it **The Territorial Air Force** Frances Louise Wilkinson, 2020-11-23 What is almost certainly the definitive account of the Auxiliary Air Force the Special Reserve and the Royal Air Force Volunteer Reserve Paul Nixon Army Ancestry Research To date little has been written about the Territorial Air Force as a voluntary military organization and no sustained analysis of its recruitment and social composition undertaken Made up of three different parts the Auxiliary Air Force the Special Reserve and the Royal Air Force Volunteer Reserve these three separate and different groups have not featured significantly in existing literature Along with a history of the Territorial Air Force this book includes an analysis of how the volunteers joined and what kinds of men were accepted into the organizations as both pilots and officers The influences class and social status had on recruitment in the run up to the Second World War are also discussed

There is an exploration of the key differences between the Auxiliary squadrons and the SR squadrons as well as the main reasons for the idea of merging the SR squadrons into the AAF squadrons Briefly discussed are the newly formed University Air Squadrons that were set up to promote air mindedness and to stimulate an interest and research on matters aeronautical Military voluntarism continued to play a key role in the defense of twentieth century Britain and class ceased to be the key determining factor in the recruitment of officers as the organizations faced new challenges Within both the AAF and the RAFVR the pre war impression of a gentlemen s flying club finally gave way to a more meritocratic culture in the post war world

The History of Air Intercept Radar & the British Nightfighter 1935-1959 Ian White,2007-05-30 This detailed history of Air Intercept radar traces the development of this vital military technology with the Royal Air Force during WWII In the years after World War I the United Kingdom was desperate to develop some form of protection from an enemy air strike As early as 1923 the British Army had devised sound mirrors that could detect aircraft up to twelve miles away This technical history traces the development of military radar technology from this early experimental phase to the creation of the first air to air radar systems and their uses in battle Historian Ian White sets this fascinating narrative within the larger political military economic and technological context of the era Through World War II Air Intercept radar was a vital asset in protecting RAF bomber forces as well as the country itself But developing the technology required the tireless work of physicists and engineers in the Air Ministry Research Establishment particularly members of the Establishment s Airborne Group working under Dr Edward Bowen Their Airborne Interception radars such as the AI Mk IV were used in Blenheim night fighters

during the winter Blitz and by Mosquito during the Baedeker Raids This in depth history covers the introduction of centimetric technology at the Telecommunications Research Establishment the creation of centimetric AI and their installation in the Beaufighter and later marks of the Mosquito It describes the creation of the Radiation Laboratory at MIT and concludes with a section on further developments during the Cold War **RAF College, Cranwell** Roger

Annett,2020-01-19 A history of Great Britain s Royal Air Force College in Cranwell told from the perspective of former cadets We Seek the Highest has been the motto of the thousands of Officer Cadets who over ten decades have passed through the rigorous training regime at the Royal Air Force College Cranwell Lincolnshire The words embody the College ethos to strive to reach the tough standards demanded by the RAF in the air and on the ground This book tells the 100 year story from the point of view of the Officer Cadets themselves The College was founded in 1919 some eighteen months after the birth of the RAF itself with the aim of providing a cadre of disciplined highly trained officers ready to lead the service through the uncertain postwar and post Empire times to come Since then it has responded continuously to the UK s political economic and military requirements The RAF Officer Cadets world has thus been one of change The author documents these changes from 1919 to today overlaying the historical and social scene with the candidly related airborne and ground based exploits of three score ex cadets The core narrative is based on the three years at Cranwell of 81 Entry of Flight Cadets who graduated in July 1962 with thirty seven jet pilots and eight navigators having launched a curriculum changing experiment in degree level studies With a foreword from an Air Chief Marshal former cadet 130 illustrations and a full index this is a cadets tribute to a world famous military academy on its centenary *Royal Air Force Quarterly and Commonwealth Air Forces Journal* ,1966

Reckless Fellows Edward Bujak,2015-09-25 The Royal Flying Corps later the Royal Air Force was formed in 1912 and went to war in 1914 where it played a vital role in reconnaissance supporting the British Expeditionary Force as air cavalry and also in combat establishing air superiority over the Imperial German Air Force Edward Bujak here combines the history of the air war including details of strategy tactics technical issues and combat with a social and cultural history The RFC was originally dominated by the landed elite in Lloyd George s phrase from the stateliest houses in England and its pilots were regarded as knights of the air Harlaxton Manor in Lincolnshire seat of landed gentry became their major training base Bujak shows how within the circle of the RFC the class divide and unconscious superiority of Edwardian Britain disappeared absorbed by common purpose technical expertise and by an influx of pilots from Canada Australia New Zealand and South Africa He thus provides an original and unusual take on the air war in World War I combining military social and cultural history
