Scott-Keltie,M. Epstein,2016-12-28 The classic reference work that provides annually updated information on the countries of the world America at War Terence T. Finn,2014-01-07 War organized violence against an enemy of the state seems part and parcel of the American journey Indeed the United States was established by means of violence as ordinary citizens from New Hampshire to Georgia answered George Washington s call to arms Since then war has become a staple of American history Counting the War for

Independence the United States has fought the armed forces of other nations at least twelve times averaging a major conflict every twenty years In so doing the objectives have been simple advance the cause of freedom protect U S interests and impose America s will upon a troubled world More often than not the results have been successful as America s military has accounted itself well Yet the cost has been high in both blood and treasure Americans have fought and died around the globe on land at sea and in the air Without doubt their actions have shaped the world in which we live In this comprehensive collection Terence T Finn provides a set of narratives each concise and readable on the twelve major wars America has fought He explains what happened and why such places as Saratoga and Antietam Manila Bay and Midway are important to an understanding of America s past Readers will easily be able to brush up on their history and acquaint themselves with those individuals and events that have helped define the United States of America *The Fleet Air Arm* Keith

Abnett,2024-11-08 This book uncovers many hidden facts and untold stories of the Fleet Air Arm FAA shedding light on its remarkable history much of which has not been widely published It offers a concise yet vivid account of how the Royal Navy s Air Service RNAS evolved over the years shaped by over a century of political manoeuvring and its long standing rivalry with the Royal Air Force Even today the FAA continues to operate in the shadow of the RAF as seen in the ongoing developments surrounding the Queen Elizabeth class aircraft carriers and the F 35B aircraft they now carry frequent subjects in the media Few know that the last serviceman to die in the Second World War was an FAA pilot shot down over Japan at the very end of the Pacific conflict While FAA victories such as Taranto and the Falklands are well known it may surprise readers to learn that the FAA briefly flew Lancasters in 1946 And in the Gulf War FAA Westland Lynx helicopters made history by virtually wiping out Iraq s navy using Sea Skua missiles the first time seaborne helicopters achieved such a feat This book also features the most comprehensive post 1945 timeline of the FAA a reflection of the decline of Britain s maritime power over recent decades Enriching the narrative are personal anecdotes from FAA personnel highlighting their bravery dedication and sacrifice in the line of duty
