Nick Black,2021-09-01 Highly Commended BMA Medical Book Awards 2013 The history of health care is complex confusing and contested It involves more than just the creation of hospitals and dispensaries infirmaries and health centers There are also royal colleges trades unions medical schools nurses homes coroners courts nursing sisterhoods ambulance stations patients organizations and medical missions Usually to enhance our understanding we sit and read books or nowadays surf the Internet But it s more fun to go out visit the buildings where events unfolded and transport yourself back in time The story of how health care has developed from medieval times to the present day is told through seven walks in central London each with a key theme such as Competition between the church crown and city for control Changing fortunes of particular districts Radical reform between 1840 and 1880 Individual creativity and entrepreneurship Hospitals unavoidable choice between merger or migration Transformation of health care trades into professions Development of primary care The book takes as much interest in one of the six ambulance stations build in 1915 by the London County Council as it does in the grandest teaching hospital Although some important buildings have been destroyed and others are threatened many remain The walks aim to help preserve our legacy as increasingly former health care buildings are converted into hotels offices homes and shops Awareness of their original functions is in danger of being lost The book also
