Nancy Christie

Royal Historical Society Transactions 1998 Sixth Series:

Historical Research Bill McDowell, 2013-11-04 This is the first practical guide to cover the various stages of a history research project from the selection of the topic and the organization and interpretation of source material through to the completion of the written up record Whether it is for a dissertation thesis article or indeed full length book *Historical Research* deals with the purpose of research and the implications limitations and benefits of different research methods as well as the effective presentation of the finished result *Transatlantic Subjects* Nancy Christie, 2008 A reinterpretation of the place of colonial Canada within a reconstructed British Empire that focuses on culture and social relations *The Web of Friendship* Joyce Ransome, 2011-07-28 A portrait of Nicholas Ferrar and his family to whom he dedicated his ministry with a focus on his background and the education and experiences that shaped that ministry and the circumstances that brought them to Little Gidding This book appeals for its detailed account of a family's life together as well as the spiritual aspirations that made their household a community Later generations appealed to their example both for its mission and its method Not only does Ransome describe the man and the family in a way that brings them alive but also encompasses both their strength and their human frailties and indicates their contemporary and future significance The book is aimed at both an academic and general audience of readers interested in history religion education and family relationships including the role of women

Princely Brothers and Sisters Jonathan R. Lyon, 2013-01-15 In *Princely Brothers and Sisters* Jonathan R Lyon takes a fresh look at sibling networks and the role they played in shaping the practice of politics in the Middle Ages Focusing on nine of the most prominent aristocratic families in the German kingdom during the Staufien period 1138 1250 Lyon finds that noblemen and to a lesser extent noblewomen relied on the cooperation and support of their siblings as they sought to maintain or expand their power and influence within a competitive political environment Consequently sibling relationships proved crucial at key moments in shaping the political and territorial interests of many lords of the kingdom Family historians have largely overlooked brothers and sisters in the political life of medieval societies As Lyon points out however siblings are the contemporaries whose lives normally overlap the longest More so than parents and children husbands and wives or lords and vassals brothers and sisters have the potential to develop relationships that span entire lifetimes The longevity of some sibling bonds therefore created opportunities for noble brothers and sisters to collaborate in especially potent ways As Lyon shows cohesive networks of brothers and sisters proved remarkably effective at counterbalancing the authority of the Staufien kings and emperors Well written and impeccably researched *Princely Brothers and Sisters* is an important book not only for medieval German historians but also for the field of family history **The Scots in South Africa** John M. MacKenzie, 2013-07-19 The description of South Africa as a rainbow nation has always been taken to embrace the black brown and white peoples who constitute its population But each of these groups can be sub divided and in the white case the Scots have made one of the most distinctive contributions to the country's history Now available in paperback

this book is a full length study of their role from the eighteenth to twentieth centuries It highlights the interaction of Scots with African peoples the manner in which missions and schools were credited with producing Black Scotsmen and the ways in which they pursued many distinctive policies It also deals with the inter weaving of issues of gender class and race as well as with the means by which Scots clung to their ethnicity through founding various social and cultural societies This book offers a major contribution to both Scottish and South African history and in the process illuminates a significant field of the Scottish Diaspora that has so far received little attention The Routledge History of Women in Early Modern Europe

Amanda L. Capern,2019-10-30 The Routledge History of Women in Early Modern Europe is a comprehensive and ground breaking survey of the lives of women in early modern Europe between 1450 and 1750 Covering a period of dramatic political and cultural change the book challenges the current contours and chronologies of European history by observing them through the lens of female experience The collaborative research of this book covers four themes the affective world practical knowledge for life politics and religion arts science and humanities These themes are interwoven through the chapters which encompass all areas of women s lives sexuality emotions health and wellbeing educational attainment litigation and the practical and leisured application of knowledge skills and artistry from medicine to theology The intellectual lives of women through reading and writing and their spirituality and engagement with the material world are also explored So too is the sheer energy of female work including farming and manufacture skilled craft and artwork theatrical work and scientific enquiry The Routledge History of Women in Early Modern Europe revises the chronological and ideological parameters of early modern European history by opening the reader s eyes to an exciting age of female productivity social engagement and political activism across European and transatlantic boundaries It is essential reading for students and researchers of early modern history the history of women and gender studies *The Great Tradition* Anthony

Brundage,Richard A. Cosgrove,2007 This book examines the prominent role played by constitutional history from 1870 to 1960 in the creation of a positive sense of identity for Britain and the United States **Gentility and the Comic Theatre**

of Late Stuart London Mark S. Dawson,2005-06-17 The book examines how gentility was portrayed at London s theatres during the early modern era Why Bother with History? Beverley C. Southgate,2013-11-04 Why Bother With History

argues for an increasingly important role for a revitalised historical study Examining the motivations of past historians the author rejects the ancient aspiration to a history for its own sake and argues that historians importance lies in their own adoption of a moral standpoint from which a story of the past can be told that facilitates the attainment of a future we desire Inevitably controversial in that it challenges many of the assumptions of modernist history this is an interdisciplinary book which draws in particular on psychology and literature **Invoking the Akelarre** Emma Wilby,2019-08-02 With their

dramatic descriptions of black masses and cannibalistic feasts the records generated by the Basque witch craze of 160914 provide us with arguably the most demonologically stereotypical accounts of the witches sabbath or akelarre to have

emerged from early modern Europe While the trials have attracted scholarly attention the most substantial monograph on the subject was written nearly forty years ago and most works have focused on the ways in which interrogators shaped the pattern of prosecutions and the testimonies of defendants Invoking the Akelarre diverts from this norm by employing more recent historiographical paradigms to analyze the contributions of the accused Through interdisciplinary analyses of both French and Spanish Basque records it argues that suspects were not passive recipients of elite demonological stereotypes but animated these received templates with their own belief and experience from the dark exoticism of magical conjuration liturgical cursing and theatrical misrule to the sharp pragmatism of domestic medical practice and everyday religious observance In highlighting the range of raw materials available to the suspects the book helps us to understand how the fiction of the witches sabbath emerged to such prominence in contemporary mentalities whilst also restoring some agency to the defendants and nuancing the historical thesis that stereotypical content points to interrogatorial opinion and folkloric content to the voices of the accused In its local context this study provides an intimate portrait of peasant communities as they flourished in the Basque region in this period and leaves us with the irony that Europes most sensationally demonological accounts of the witches sabbath may have evolved out of a particularly ardent commitment on the part of ordinary Basques to the social and devotional structures of popular Catholicism

Target JFK Robert K. Wilcox,2016-11-15 He was born in Buenos Aires and educated in Geneva and Cuba He was a daring WWII paratrooper who parachuted behind enemy lines on D Day He was a handsome charming man who briefly worked as a Hollywood stuntman He was also a spy who may have killed John F Kennedy The shocking new book Target JFK reveals page after page of incredible never before reported evidence that a mysterious Argentinian with a stranger than fiction life story is the missing link in the assassination mystery that has puzzled America for half a century

Witch Craze Lyndal Roper,2004-12-11 From the gruesome ogress in Hansel and Gretel to the hags at the sabbath in Faust the witch has been a powerful figure of the Western imagination In the sixteenth and seventeenth centuries thousands of women confessed to being witches of making pacts with the Devil causing babies to sicken and killing animals and crops and were put to death This book is a gripping account of the pursuit interrogation torture and burning of witches during this period and beyond Drawing on hundreds of original trial transcripts and other rare sources in four areas of Southern Germany where most of the witches were executed Lyndal Roper paints a vivid picture of their lives families and tribulations She also explores the psychology of witch hunting explaining why it was mostly older women that were the victims of witch crazes why they confessed to crimes and how the depiction of witches in art and literature has influenced the characterization of elderly women in our own culture

The Rise of Thomas Cromwell Michael Everett,2015-01-01 How much does the Thomas Cromwell of popular novels and television series resemble the real Cromwell This meticulous study of Cromwell s early political career expands and revises what has been understood concerning the life and talents of Henry VIII s chief minister Michael Everett provides a new and enlightening

account of Cromwell's rise to power his influence on the king his role in the Reformation and his impact on the future of the nation Controversially Everett depicts Cromwell not as the fervent evangelical Machiavellian politician or the revolutionary administrator that earlier historians have perceived Instead he reveals Cromwell as a highly capable and efficient servant of the Crown rising to power not by masterminding Henry VIII's split with Rome but rather by dint of exceptional skills as an administrator

La pathologie du pouvoir: vices, crimes et délits des gouvernants Patrick Gilli, 2016-02-02 La singularité de la criminalité des gouvernants ou de leurs actes peccamineux réside dans la rareté des condamnations qu'ils ont subies En examinant sur la longue durée les formes de dénonciation de ces délits des hommes de pouvoir le livre essaie de comprendre les raisons qui aboutissent à la rupture du consensus et la remise en cause de l'acceptation sociale des traditions jusqu'alors tolérées corruption extorsion abus en tout genre Les différentes contributions examinent les conditions de ces condamnations morales et politiques et dessinent un tableau nuancé de ces pathologies du pouvoir qui loin d'être invariables dans le temps sont articulées aux paradigmes moraux de chaque société historique Les contributeurs sont Nathalie Barrandon Anne Catherine Baudoin Franck Collard Kathleen Crowther Angela De Benedictis Silvia Di Paolo Julien Dubouloz Patrick Gilli Cedric Giraud Thomas Granier Laurent Guitton Charles Guerin Corinne Manchio Nancy McLoughlin Hélène Marnard Richard Newhauser Flocel Sabat Armand Strubel Julien Thiry et Silvana Vecchio English What is singular about the criminality of rulers or their sinful acts is how rarely they are convicted Through a long term study of the forms of denunciation of crimes committed by those who hold power this book tries to understand the reasons that lead to breaking the consensus and calling into question the social acceptance of traditions which had hitherto been tolerated corruption extortion different types of abuse The various contributions investigate the moral and political conditions of these convictions and give a well balanced account of these pathologies of power far from being invariable over time they are consistent with the moral paradigms of each society in history

Empires of Faith Peter Sarris, 2011-10-27 A panoramic account of the history of Europe the Mediterranean and the Near East from the fall of Rome to the rise of Islam

Speech, Print and Decorum in Britain, 1600-1750 Elspeth Jajdelska, 2016-03-10 Filling an important gap in the history of print and reading Elspeth Jajdelska offers a new account of the changing relationship between speech rank and writing from 1600 to 1750 Jajdelska draws on anthropological findings to shed light on the different ways that speech was understood to relate to writing across the period bringing together status and speech literary and verbal decorum readership the material text and performance Jajdelska's ambitious array of sources includes letters diaries paratexts and genres from cookery books to philosophical discourses She looks at authors ranging from John Donne to Jonathan Swift alongside the writings of anonymous merchants apothecaries and romance authors Jajdelska argues that Renaissance readers were likely to approach written and printed documents less as utterances in their own right and more as representations of past speech or as scripts for future speech In the latter part of the seventeenth century however some readers were treating books as proxies for the author's speech rather than as

representations of it These adjustments in the way speech and print were understood had implications for changes in decorum as the inhibitions placed on lower ranking authors in the Renaissance gave way to increasingly open social networks at the start of the eighteenth century As a result authors from the lower ranks could now publish on topics formerly reserved for the more privileged While this apparently egalitarian development did not result in imagined communities that transcended class readers of all ranks did encounter new models of reading and writing and were empowered to engage legitimately in the gentlemanly criticism that had once been the reserve of the cultural elites Shortlisted for the European Society for the Study of English ESSE book prize 2018

The Medieval Crossbow Stuart Ellis-Gorman, 2022-07-20 An in depth illustrated history and technical study of this iconic weapon of the Middle Ages The crossbow is an iconic weapon of the Middle Ages and alongside the longbow one of the most effective ranged weapons of the pre gunpowder era Unfortunately despite its general fame it has been decades since an in depth history of the medieval crossbow has been published which is why Stuart Ellis Gorman s detailed accessible and highly illustrated study is so valuable The Medieval Crossbow approaches the history of the crossbow from two directions The first is a technical study of the design and construction of the medieval crossbow the many different kinds of crossbows used during the Middle Ages and finally a consideration of the relationship between crossbows and art The second half of the book explores the history of the crossbow from its origins in ancient China to its decline in sixteenth century Europe Along the way it explores the challenges in deciphering the crossbow s early medieval history as well as its prominence in warfare and sport shooting in the High and Later Middle Ages This fascinating book brings together the work of a wide range of accomplished crossbow scholars and incorporates the author s own original research to create an account of the medieval crossbow that will appeal to anyone looking to gain an insight into one of the most important weapons of the Middle Ages

Early Modern Civil Discourses J. Richards, 2003-09-09 This collection explores the concept of civility in the early modern period It addresses a range of writings in English and Scots among them conduct manuals colonial tracts diaries letters dialogues poetry drama chronicles by English Welsh and Scots men and women in and about the Atlantic archipelago It explores the many meanings of civility in the early modern period it recovers some of the lost associations of civility as well as the complex use of the adjectives civil and barbarous in cultural and colonial encounters

The Unsexed Mind and Psychological Androgyny, 1790-1848 Victoria F. Russell, 2022-01-01 This book explores a significant lacuna in British history Between the 1790s and the 1840s the concept of psychological androgyny or the unsexed mind emerged as a notion of psychosexual equality promoted by a small though influential network of heterodox radicals on the margins of Rational Dissent Deeply concerned with the growing segregation of the sexes supported seemingly by arbitrary and increasingly binary models of sexual difference heterodox radicals insisted that while the body might be sexed the mind was not They argued that society and the prejudicial masculinist institutions of patriarchy should be reformed to accommodate and protect what one radical described as an infinitely varied humanity In

placing the concept of psychological androgyny centre stage this book offers a substantial revision to understandings of progressive debates on gender in the late eighteenth and early nineteenth century in Britain A Companion to Britain in the Later Middle Ages S. H. Rigby, 2008-04-15 This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field Covers social economic political religious and cultural history in England Ireland Scotland and Wales Provides a guide to the historical debates over the later Middle Ages Addresses questions at the leading edge of historical scholarship Each chapter includes suggestions for further reading

Unveiling the Power of Verbal Artistry: An Emotional Sojourn through **Royal Historical Society Transactions 1998 Sixth Series**

In some sort of inundated with monitors and the cacophony of fast connection, the profound power and mental resonance of verbal art often fade into obscurity, eclipsed by the constant barrage of noise and distractions.
