Royal Impostor King Sverre Of Norway:

A Royal Impostor, King Sverre of Norway Earl G. M. of Cranbrook, 1956 *A Royal Impostor, King Sverre of Norway*, 1956 *A Royal Impostor* Geoffrey Malcolm Gathorne-Hardy, 1956 *Ideology and Power in Norway and Iceland, 1150-1250* Costel Coroban, 2018-06-11 This book provides an analysis of the ideology of power in Norway and Iceland as reflected in sources written during the period 1150-1250. The main focus is explaining the way that Kings' power in Norway and that of chieftains in Iceland was idealised in important texts from the 12th and 13th centuries: *Sverris saga*, *Konungs skuggsjá*, *Hkonar saga*, *Hkonarsonar slendingabók*, *Egils saga*, *Laxdæla saga* and *Íslendinga saga*. The originality of this work consists in the fact that it is the first monograph to comparatively analyse the ideology of power in Iceland looking specifically at representations of kings and chieftains during the Civil Wars period and compare the findings to those pertaining to Norway.

All the King's Women: Polygyny and Politics in Europe, 900-1250 Jan Rüdiger, 2020-09-25 Polygyny in Europe The grand narrative of Western history is the development of monogamous marriage culminating in the central Middle Ages. Other kinds of relationships have often perhaps too lightly been dismissed as just lust. In this book Jan Rüdiger investigates the plurality of man-woman relationships in medieval Scandinavia and analyses the social and political uses of elite polygyny. By way of comparison the findings from the North are then applied to England, France and the Iberian Peninsula in order to propose a new overall image of elite polygyny including marriage in the medieval West. See inside the book.

Key Figures in Medieval Europe Richard K. Emmerson, 2013-10-18 From emperors and queens to artists and world travelers from popes and scholars to saints and heretics *Key Figures in Medieval Europe* brings together in one volume the most important people who lived in medieval Europe between 500 and 1500. Gathered from the biographical entries from the ongoing series *The Routledge Encyclopedias of the Middle Ages* these A-Z biographical entries discuss the lives of over 575 individuals who have had a historical impact in such areas as politics, religion or the arts. Individuals from places such as medieval England, France, Germany, Iberia, Italy and Scandinavia are included as well as those from the Jewish and Islamic worlds. A thematic outline is included that lists people not only by categories but also by regions. For a full list of entries, contributors and more visit the *Routledge Encyclopedias of the Middle Ages* website.

Church, Kingship, and Lay Investiture in England, 1089-1135 Norman Frank Cantor, 2015-12-08 In the latter part of the eleventh century a revolutionary group within the Western Church centered in the papacy attempted to overthrow the early medieval system of church-state relations by which the church in each country was under control of the kings and other secular rulers. Here is a comprehensive history of these controversies during the crucial period from the death of Archbishop Lanfranc in 1089 to the end of the reign of Henry I in 1135. The greater part of the book is concerned with the pontificate of Archbishop Anselm 1093-1109 and includes the first substantial account of the episcopal career of this famous theologian. In a concluding chapter the obscure period in the history of the English Church from 1109 to 1135 is investigated and the methods by which Henry I

reasserted royal authority over the Church are indicated Originally published in 1958 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

in the rich and varied literature of early Scandinavia has prompted a corresponding interest in its background its origins social and historical context and relationship to other medieval literatures Until the 1980s however there was a distinct lack of scholarship in English that synthesized the critical trends and thinking in the field so in 1985 Carol J Clover and John Lindow brought together several of the most distinguished Old Norse scholars to contribute essays for a collection that would finally provide a comprehensive guide to the major genres of Old Norse Icelandic literature The contributors summarize and comment on scholarly work in the major branches of the field eddic and skaldic poetry family and kings sagas courtly writing and mythology Their essays each with a full bibliography make up this vital survey of Old Norse literature in English a basic reference work that has stimulated much research and helped to open up the field to a wider academic readership This volume has become an essential text for instructors and now twenty years after its first appearance it is being republished as part of the Medieval Academy Reprints for Teaching MART series with a new preface that discusses more recent contributions to the field

Constant Crisis Hans Jacob Orning, 2025-05-15 *Constant Crisis* focuses on the culmination of struggles in the medieval Norwegian kingdom to examine whether these conflicts underscored a breakdown of society and polity or whether they created an equilibrium among factions that in fact served to contain violence Applying the term constant crisis for its deliberate dissonance Hans Jacob Orning observes that two properties were manifest in Norwegian political and social structures of the twelfth and thirteenth centuries a systemic balance achieved in an environment of endemic power struggles and a normalization of these conflicts that made it possible to maneuver and make plans and strategies The kings sagas *Sverris saga* and *Buglungr* are virtually indispensable sources of information on this period of Norwegian history and Orning relies extensively on them as well as on other medieval sources to depict this era and its protagonists including the major rival armed groups the Birchlegs and the Croziers and among kings bishops and earls the person of King Sverre himself
