Hospital Ships Rupert Goodman, 2016-01-08 The story of hospital ships is a fascinating one indeed about which little has been written except for isolated tragedies such as the sinking of the Centaur off the Australian coast in 1943 **Journal of the Royal Naval Medical Service** ,1995 **The Australian Army Medical Services in the War of 1914-1918** Arthur Graham Butler, 1943 **Journal** Great Britain. Royal Naval Medical Service, 1920 **The African Slave Trade and Its Suppression** Peter Hogg, 2014-02-04 A comprehensive bibliography dealing specifically with African slave trade This volume has been sub classified for easier consultation and the compiler has provided where possible descriptions and comments on the works listed Proceedings of the Institution of Electrical Engineers Institution of Electrical Engineers, 1916 Vols for 1970 79 include an annual special issue called IEE reviews *The Halifax Explosion and the Royal Canadian Navy* John Griffith Armstrong, 2011-11-01 The Halifax Explosion of 1917 is a defining event in the Canadian consciousness yet it has never been the subject of a sustained analytical history Astonishingly until now no one has consulted the large federal government archives that contain first hand accounts of the disaster and the response of national authorities Canada's recently established navy was at the epicentre of the crisis Armstrong reveals the navy's compelling and little known story by carefully retracing the events preceding the disaster and the role of the military in its aftermath He catches the pulse of disaster response in official Ottawa and provides a compelling analysis of the legal manoeuvres rhetoric blunders public controversy and crisis management that ensued His disturbing conclusion is that federal officials knew of potential dangers in the harbour before the explosion took no corrective action and kept the information from the public As a result a Halifax naval officer was made a scapegoat and the navy received lasting and mostly undeserved vilification This is a provocative read not only for military and naval devotees but for anyone who wants to understand one of the events that shaped Canada in the twentieth century **Subject Index of Modern Books Acquired** British Library, 1927 **Current List of Medical Literature** ,1955-07 Includes section Recent book acquisitions varies Recent United States publications formerly published separately by the U S Army Medical Library **Journal of the Institution of Electrical Engineers** ,1916 **Journal of the Royal Army Medical Corps** Great Britain. Army. Royal Army Medical Corps, 1958 **The Lancet** ,1874 Encyclopaedia Britannica, a New Survey of Universal Knowledge ,1957 **General Catalogue of Printed Books** British Museum. Department of Printed Books, 1969 General Catalogue of Printed Books British Museum. Department of Printed Books, 1968 *Journal* ,1916 Includes annual report of its council 1941 48 in pt 1 **Monthly Catalog of United States Government Publications** ,1959 **Title Announcement Bulletin** ,1956 Educating Air Forces Randall Wakelam, David Varey, 2020-12-01 Compared to armies and navies which have existed as professional fighting services for centuries the technology that makes air forces possible is much newer As a result these services have had to quickly develop methods of preparing aviators to operate in conditions ranging from peace or routine security to full scale war The first book

to address the history and scope of air power professionalization through learning programs Educating Air Forces offers valuable new insight into strategy and tactics worldwide Here a group of international experts examine the philosophies policies and practices of air service educational efforts in the United States France Italy Germany Australia Canada and the UK The contributors discuss the founding successes and failures of European air force learning programs between the Great War and World War II and explore how the tense Cold War political climate influenced the creation curriculum and results of various programs They also consider how educational programs are adapting to soldiers needs and the demands of modern warfare Featuring contributions from eminent scholars in the field this volume surveys the learning approaches globally employed by air forces in the past century and evaluates their effectiveness Educating Air Forces reveals how experiential learning and formal education are not only inextricably intertwined but also necessary to cope with advances in modern warfare
