Lasc,Andrew McClellan,Änne Söll,2021-11-01 Revisiting the Past in Museums and at Historic Sites demonstrates that museums and historic spaces are increasingly becoming backdrops for all sorts of appropriations and interventions that throw new light upon the objects they comprise and the pasts they reference Rooted in new scholarship that expands established notions of art installations museums period rooms and historic sites the book brings together contributions from scholars from intersecting disciplines Arguing that we are witnessing a paradigm shift concerning the place of historic spaces and

museums in the contemporary imaginary the volume shows that such institutions are merging traditional scholarly activities tied to historical representation and inquiry with novel modes of display and interpretation drawing them closer to the world of entertainment and interactive consumption Case studies analyze how a range of interventions impact historic spaces and conceptions of the past they generate The book concludes that museums and historic sites are reinventing themselves in order to remain meaningful and to play a role in societies aspiring to be more inclusive and open to historical and cultural debate Revisiting the Past in Museums and at Historic Sites will be of interest to students and faculty who are engaged in the study of museums art history architectural and design history social and cultural history interior design visual culture and material culture

**Scandinavia and the Great Powers in the First World War** Michael Jonas, 2019-02-21 This study is among the first works in English to comprehensively address the Scandinavian First World War experience in the larger international context

of the war It surveys the complex relationship between the belligerent great powers and Northern Europe's neutral small states in times of crisis and war The book's overreaching rationale draws upon three underlying conceptual fields neutrality and international law hegemony and great power politics as well as diplomacy and policy making of small states in the international arena From a variety of angles it examines the question of how neutrality was understood and perceived negotiated and dealt with both among the Scandinavian states and the belligerent major powers especially Britain Germany and Russia For a long time the experience of neutral countries during the First World War was seen as marginal and was overshadowed by the experiences of occupation and collaboration brought about by the Second World War In this book Jonas demonstrates how this perception has changed with neutrality becoming an integral part of the multiple narratives of the First World War It is an important contribution to the international history of the First World War cultural historically influenced approaches to diplomatic history and the growing area of neutrality studies

**The Jewel Album of Tsar Nicholas II and a Collection of Private Photographs of the Russian Imperial Family** A. von Solodkoff, 1997

Nicholas and Alexandra Michel (Prince of Greece), 1992 In the summer of 1918 Tsar Nicholas II his Tsarina Alexandra and their five children were executed by firing squad at Ekaterinburg The unique and revealing photographs in this book illustrate the intimate family life of the last ruling Romanovs from 1896 shortly after the marriage of Nicholas and Alexandra to the family's house arrest at Tsarskoye Selo palace in 1917 shortly before their death These photographs have been selected from thousands taken by the Tsarina and her five children which were mounted in their own and the Tsars personal albums The albums have until now remained hidden for over seventy years in government archives in Moscow Whilst researching his book Imperial Palaces of Russia in the Autumn of 1990 Prince Michael of Greece was puzzled by an invitation to view material in the government archives Thirty thick leather bound volumes embossed with the Imperial monogram awaited him the private photograph albums which the curators wanted to show first to a relative of the Romanov family Through his selection of images from the family albums the author here tells the story of the last Tsar one of the saddest of twentieth century politics Nicholas II was a man both unprepared and ill equipped to rule the greatest empire in the world and under the influence of Alexandra the wife he so adored he led Russia to disaster But theirs was also an extraordinary love story as the three hundred photographs in this book reveal Away from the responsibilities of Empire we see a close and loving family of simple tastes and great candour The photographs clearly illustrate the personalities of Nicholas and Alexandra and of their four daughters Olga Tatiana Maria and Anastasia and beloved son and heir Alexis who suffered from haemophilia and whose every move was carefully watched The family were keen and sometimes talented amateur photographers who took their own cameras with them everywhere be it on family picnics or on state occasions The book thus illustrates a fascinating transition from the joy and relaxation of the early years through the tension caused by the Tsarevich's illness to the stresses and anxiety of the First World War and the coming Revolution These photographs provide a new

perspective on the life of the Imperial family and constitute an invaluable historical document **The Romanov Family**
