Television, Aesthetics and Reality Anthony Barker, 2009-03-26 This new collection of essays seeks to focus on three areas where television has recently been in an intriguing state of flux Taking as our background the emergence of multimedia conglomerates and cash rich cable channels we look at the way old national terrestrial channels and the brash new internationally commercialized ones have innovated in the domain of television programming In all there are fourteen original essays an introduction to the book s theme by the editor and a foreword by Professor Annette Hill Section one Realizing the Real looks at contemporary patterns of television consumption and the presentational styles which package the real in news current affairs and other live television formats Essays on rhetorical strategies in the news coverage of the war in Iraq on national and international inflections of Sky News in Europe and coverage of the recent EURO2004 football tournament as well the multi channel reporting of a prominent paedophilia scandal are presented in this section They all analyse the extent to which the grounded and the local are threatened and distorted by hegemonic forces in media today The findings of a comprehensive new study of Portuguese social practices and viewing habits are also featured in this section Section Two Realizing Performance addresses the way new trends in reality programming and other documentary practices have impacted on fiction and entertainment television There are essays on the recent wave of British television comedy heavily influenced by TV newsmagazine and fly on the wall documentary styles and two pieces on new American series 24 and CSI which have revolutionized the narrative parameters and evidential base for thrillers and cop shows respectively coming up with new ways to perform space time and science Finally there is an essay on Nigel Kneale s The Year of the Sex Olympics 1968 a survivor from the era of the single play who seems to anticipate the future of television in reality based gameshow style entertainment Each of these essays shows that the success of these programmes is dependent on a fresh restylization of the conventions and formulas which govern mainstream television programming They therefore see the representation of the real in fiction as primarily an aesthetic reappraisal Section Three Performing the Real looks at the explosion in reality television programming itself It focuses on the coming to pass of 70s and 80s theorists visions of both a passive voyeuristic society and one increasingly at peace with the notion of surveillance We have been progressively acculturated to watching and being watched Orwellian anxiety has given way to Baudrillardian acceptance of the message and the medium fused in a new order of mediated reality or hyperreality Essays refer specifically to the globalization of shows and formats and their local inflections and to coverage of reality shows in print media and on the net There are essays on The Bachelor and gender stereotyping Joe Millionaire and the conventions of melodrama and two on Big Brother one on

the problems of communication within a sealed environment and another on its reception in Portugal Concerns about the self and its authenticity are consistency raised in all the essays of this section *Continuity and Change* Milly Buonanno,2000 Continuity and Change examines the growth of fictional television in five major European countries Focusing on drama and comedy it analyzes the degree to which an increase in the production of fictional television and the extension of fictional television s presence into prime time has led to higher production costs and an emphasis on family oriented programming

Social Class and Television Drama in Contemporary Britain David Forrest,Beth Johnson,2017-06-13 This collection is a wide ranging exploration of contemporary British television drama and its representations of social class Through early studio set plays soap operas and period drama the volume demonstrates how class provides a bridge across multiple genres and traditions of television drama The authors trace this thematic emphasis into the present day offering fascinating new insights into the national conversation around class and identity in Britain today The chapters engage with a range of topics including authorial explorations of Stephen Poliakoff and Jimmy McGovern case studies of television performers Maxine Peake and Jimmy Nail and discussions of the sitcom genre and animation form This book offers new perspectives on popular British television shows such as Goodnight Sweetheart and Footballers Wives and analysis of more recent series such as Peaky Blinders and This is England **Comedy and Distinction** Sam Friedman,2014-04-24 This book was shortlisted for the 2015 BSA Philip Abrams Memorial Prize Comedy is currently enjoying unprecedented growth within the British culture industries Defying the recent economic downturn it has exploded into a booming billion pound industry both on TV and on the live circuit Despite this academia has either ignored comedy or focused solely on analysing comedians or comic texts This scholarship tends to assume that through analysing an artist s intentions or techniques we can somehow understand what is and what isn t funny But this poses a fundamental question funny to whom How can we definitively discern how audiences react to comedy Comedy and Distinction shifts the focus to provide the first ever empirical examination of British comedy taste Drawing on a large scale survey and in depth interviews carried out at the Edinburgh Festival Fringe the book explores what types of comedy people like and dislike what their preferences reveal about their sense of humour how comedy taste lubricates everyday interaction and how issues of social class gender ethnicity and geographical location interact with patterns of comic taste Friedman asks Are some types of comedy valued higher than others in British society Does more legitimate comedy taste act as a tangible resource in social life a form of cultural capital What role does humour play in policing class boundaries in contemporary Britain This book will be of interest to students and scholars of sociology social class social theory cultural studies and comedy studies *Television Series as Literature* Reto Winckler,Víctor Huertas-Martín,2022-01-19 This book explores how television series can be understood as a form of literature bridging the gap between literary and television studies It goes beyond existing adaptation studies and narratological approaches to television series in both its scope and depth The respective chapters address literary works themes tropes techniques values

genres and movements in relation to a broad variety of television series while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittell and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields By questioning the alleged divide between television series and works of literature it contributes not only to a better understanding of television series and literary texts themselves but also to the development of interdisciplinary scholarship in the humanities

Granada Television--The First Generation John Finch, Michael Cox, Marjorie Giles, 2003-11-08 This is a rich and readable collection of memoirs of those who worked at Granada during the first thirty years of its existence It captures a climate of creative activity unique in the history of broadcasting referred to now as the Golden Years of British Television Lords Birt and Macdonald Sir Denis Forman Michael Parkinson Michael Apted Stan Barstow Nick Elliott Victoria Wood Kenith Trodd Jack Rosenthal Anna Ford Chris Kelly and Alan Plater are just a few of the many well known contributors who were responsible for creating the foundations on which Granada's considerable worldwide reputation was based Shows like World in Action Brideshead Revisited A Family at War Coronation Street What the Papers Say and many more described in this book were pioneers in their respective fields

Television and Repetition James Walters, 2023-06-02 Resisting some of the negative connotations that repetition can attract this book illustrates how it has been used as a catalyst for creative expression across a range of television genres Divided into two parts the first three chapters contextualise repetition within related media and critical debates before locating it as an important facet of television that is worth exploring in detail The final three chapters discuss specific television shows that incorporate repetition creatively within their narrative structure and aesthetic composition ranging from The Royle Family and Doctor Who to I May Destroy You and This is Going to Hurt In each case James Walters argues that repetition emerges as crucial to the expression of key themes and ideas thus becoming a structural and compositional element itself Exploring the ways in which repetition has featured in the work of figures such as Umberto Eco Raymond Bellour and Bruce Kawin and has influenced the approaches of television scholars like Raymond Williams Roger Silverstone and John Ellis this book is essential reading for scholars and students of film television and media studies

Television Finales Douglas L. Howard, David Bianculli, 2018-11-13 Today more than ever series finales have become cultural touchstones that feed watercooler fodder and Twitter storms among a committed community of viewers While the final episodes of The Fugitive and M A S H continue to rank among the highest rated broadcasts more recent

shows draw legions of binge watching fans Given the importance of finales to viewers and critics alike Howard and Bianculli along with the other contributors explore these endings and what they mean to the audience both in terms of their sense of narrative and as episodes that epitomize an entire show Bringing together a veritable who's who of television scholars journalists and media experts including Robert Thompson Martha Nochimson Gary Edgerton David Hinckley Kim Akass and Joanne Morreale the book offers commentary on some of the most compelling and often controversial final episodes in television history Each chapter is devoted to a separate finale providing readers with a comprehensive survey of these watershed moments Gathering a unique international lineup of journalists and media scholars the book also offers readers an intriguing variety of critical voices and perspectives Representations of the Mother-in-Law in Literature, Film, Drama, and Television Jo Parnell, 2018-08-03

This book is a comprehensive study of some ways of treating the subject that demonstrate new and unusual perspectives and provides a different approach to the popularly held views of mothers in law and that further address these works as popular culture and as texts in their own right from within the framework of literary theory and as works that demonstrate the ability to reach and connect with and satisfy both the general reader the student and the scholar from all levels and walks of life Television Sitcom Brett Mills, 2005-11-17 Despite its global reach longstanding popularity and immense profitability sitcom has been repeatedly neglected in theoretical work on television and media This book demonstrates that this lack needs to be sorely addressed by dragging analysis of sitcom up to date with a wealth of contemporary examples a range of new approaches to the genre and examination of the roles sitcom and comedy play within society The book takes as its starting point the variety of ways in which sitcom has traditionally been explored A chapter on genre examines the history and development of sitcom and the institutional structures which produce it There is also analysis of differences between sitcoms produced in a range of countries and what happens when a programme gets sold abroad and remade A chapter on representation explores the debates about the ways in which sitcom chooses who to make jokes about and why and whether this matters And a chapter on performance argues that this is a vital and underexplored aspect of sitcom's funniness and interrogates the ways in which comic actors make their performance funny With specific case studies on Will and Grace The Office and The Cosby Show as well as analysis of a broad range of contemporary and historical examples throughout this book will be of interest to students of sitcom and comedy as well as those of television and popular culture **A2 Media Studies** Antony Bateman, Peter Bennett, Sarah Casey Benyahia, Peter Wall, 2010-12-14
