existing and future NFP leaders at all organisational levels to support their organisations and employees and in turn clients and communities through theoretical insights and practical approaches by focusing on transformational leadership aspects for contemporary Not for Profits for Not for Profits and Social Enterprises is key reading for researchers academics and policy makers in the areas of Non profit Management Leadership Public Sector Management and Charity Management as well as related disciplines such as Philanthropy and Social Entrepreneurship The Europa International Foundation **Directory 2023** Europa Publications, 2023-07-27 This fully revised directory of international foundations trusts charitable and grantmaking NGOs and other similar non profit institutions provides a comprehensive picture of foundation activity on a worldwide scale Now in its 32nd edition The Europa International Foundation Directory includes Information on some 2 700 organizations organized by country or territory including details of funding priorities and projects geographical area of activity principal staff and contact details Details of co ordinating bodies and centres that assist foundations grantmaking organizations and other NGOs Bibliography Comprehensive index section This new edition has been revised and expanded to include the most comprehensive and up to date information on this growing sector Pressure Through Law Carol Harlow, Richard Rawlings, 2013-05-13 Group litigation has been recognised by political scientists in the States as a useful method of gaining ground and attracting publicity for pressure groups since the turn of the century In Britain however recognition that the courts fill such a role has come more slowly Despite this lack of recognition pressure through law is far from a modern phenomenon As the authors show such cases can be identified in Britain as early as 1749 when abolitionists used the court to test conflicting views of slavery in common law This book looks at the extent to which pressure groups in Britain use litigation presenting a view of the courts as a target for campaigners and a vehicle for campaigning It begins with a description of the tradition of pressure through law in Britain tracing the development of a parallel tradition in the United States which has been influential in shaping current British attitudes The authors analyse the significance of the political environment in Britain in test case strategy In contrast with America Britain has no written constitution and no Bill of Rights and its lack of Freedom of Information legislation makes both litigation and the monitoring of its effects very difficult However the centralised character of the British government means that the effects of lobbying are rather more visible in the corridors of power The authors examine a large number of case studies in order to analyse current practice and they look at the rapidly changing European and international scene discussing transnational law the European community and the Council of Europe They also look at the campaign tactics of global organisations such as Amnesty and Greenpeace Carol Harlow and Richard Rawlings are experienced in public law and familiar with political science literature They are therefore able to relate legal systems to the political process in a book designed to be accessible and important to lawyers to political scientists and to lobby group activists **Veterinary Notes For Cat Owners** Jean Turner, Trevor Turner, 2012-03-31 A comprehensive and accessible manual of feline medicine and surgery it explains the symptoms and treatment of every

disease or injury that a cat owner is likely to encounter Written in a straightforward manner by experts in their fields the book contains detailed sections on anatomy and physiology the organ systems digestive cardiovascular reproductive urinary nervous endocrine locomotor ear eye nose immune blood and skin infectious diseases bacterial viral parasitic etc and poisoning Including chapters on nursing first aid medicines dentistry nutrition and feeding as well as advice for new owners and sections on showing breeding insurance and behaviour This book will become the standard work on feline health care

The Great Cat and Dog Massacre Hilda Kean,2017-03-14 In 1939 400 000 cats and dogs were massacred in Britain their corpses heaped up outside veterinarians offices Fear of the imminent German blitz led the government to urge pet owners to spare their animal companions so that they would not suffer in the bombing raids Hilda Kean's gripping narrative of this little known event includes tales of smuggling pets into bomb shelters trading bits of cat food on the black market and preemptively killing thousands of pets at the start of the war to save the food supplies in England Kean is able to show vividly how pets were an important part of British wartime experience She pays close attention to animals both symbolic and actual arguing that after the pet massacre human animal bonds became stronger and closer In the process of telling this history Kean necessary complicates the picture of World War II as the good war fought by a nation of good animal loving people Her close use of primary materials diaries personal sources contemporary newspapers collective public reports on daily life etc gives palpable reality to the animals and their fate at this time This forgotten aspect of Britain's history makes us rethink accepted accounts of the War and shows the ways in which animal and human histories are inextricably linked We are also constrained to rethink our assumptions about ourselves and the animals with whom we share our homes
