Morphogenesis in Plant Tissue Cultures Woong-Young Soh, Sant Saran Bhojwani, 2013-11-11 Morphogenesis or developmental morphology is a dynamic process and a fascinating field of investigation Since the beginning of this century plant morphologists Eames 1961 anatomists Eames and Macdaniels 1947 and embryologists Maheshwari 1950 have studied the processes of development and differentiation by observing whole plants and their histological preparations and have generated a wealth of information on the structural changes associated with various developmental stages in the life cycle of a large number of plant species Around 1940 plant morphogenesis became an experimental field when plant physiologists initiated studies on the effect of treatments such as application of physiologically active compounds or growth regulators irradiation exposure to different day length temperature and injury on morphological and structural changes During the past two decades geneticists and molecular biologists have become interested in plant morphogenesis and extensive work is being done to understand the regulation of gene expression during morphogenesis and how the products of genetic information control the developmental processes

Secondary Metabolites and Biotherapeutics Awanish Kumar, Sunil Kumar, 2024-02-29 Secondary Metabolites and Biotherapeutics presents the latest biotechnological advancements in the production of target secondary metabolites for medicinal use including topics such as transcriptomics nanotechnology gene editing tools like CRISPR CAS secondary metabolites source and production Secondary metabolites derived from plants as a response to stress have always played a vital role in the pharmaceutical industry to produce medicines However their limited production in plants have always raised concerns for large scale production With the advancement of modern biotechnology researchers around the globe are now able to engineer plants with specific chemical compositions This book is a valuable resource to researchers in biotechnology medical sciences pharmaceutical biotechnology pharmacology and plant biology Provides updates in the field of secondary metabolite used in therapy Covers the latest biotechnological advancements in the production of target secondary metabolites for the purpose of medicinal use Elucidates the medicinal value of the plants used traditionally by different ethnic groups for treating various disorders Presents the medicinal value of endophytes

Plant-Microbial Interactions and Smart Agricultural Biotechnology Swati Tyagi, Robin Kumar, Baljeet Saharan, Ashok Kumar Nadda, 2021-09-29 Considering the ever increasing global population and finite arable land technology and sustainable agricultural practices are required to improve crop yield This book examines the interaction between plants and microbes and considers the use of advanced techniques such as genetic engineering revolutionary gene editing technologies and their applications to understand how plants and microbes help or harm each other at the molecular level Understanding plant microbe interactions and related gene editing technologies will provide new possibilities for sustainable agriculture The book will be extremely useful for researchers working in the fields of plant science molecular plant biology plant microbe interactions plant engineering technology agricultural microbiology and related fields It will be useful for upper level

students and instructors specifically in the field of biotechnology microbiology biochemistry and agricultural science Features Examines the most advanced approaches for genetic engineering of agriculture CRISPR TALAN ZFN etc Discusses the microbiological control of various plant diseases Explores future perspectives for research in microbiological plant science Plant Microbial Interactions and Smart Agricultural Biotechnology will serve as a useful source of cutting edge information for researchers and innovative professionals as well as upper level undergraduate and graduate students taking related agriculture and environmental science courses

Communication and Smart Technologies Álvaro Rocha, Daniel Barredo, Paulo Carlos López-López, Iván Puentes-Rivera, 2021-09-30 This book features selected papers from the International Conference on Communication and Applied Technologies ICOMTA 2021 jointly organized by Universidad del Rosario Bogotá Colombia the University of Vigo Galicia Spain the University of Santiago de Compostela Equipo de Investigaciones Políticas Galicia Spain the University of A Coruña Galicia Spain and the Information and Technology Management Association ITMA during September 2021 It covers recent advances in the field of digital communication and processes digital social media software big data data mining and intelligent systems

Smart Technologies: Breakthroughs in Research and Practice Management Association, Information Resources, 2017-06-19 Ongoing advancements in modern technology have led to significant developments with smart technologies With the numerous applications available it becomes imperative to conduct research and make further progress in this field Smart Technologies Breakthroughs in Research and Practice provides comprehensive and interdisciplinary research on the most emerging areas of information science and technology Including innovative studies on image and speech recognition human computer interface and wireless technologies this multi volume book is an ideal source for researchers academicians practitioners and students interested in advanced technological applications and developments

Navigating Model Minority Stereotypes Rupam Saran, 2015-08-11 Though Asian Indians are typically thought of as a model minority not much is known about the school experiences of their children Positive stereotyping of these immigrants and their children often masks educational needs and issues creates class divides within the Indian American community and triggers stress for many Asian Indian students This volume examines second generation America born and 1.5 generation foreign born Asian Indians as they try to balance peer culture home life and academics It explores how through the acculturation process these children either take advantage of this positive stereotype or refute their stereotyped ethnic image and move to downward mobility Focusing on migrant experiences of the Indian diasporas in the United States this volume brings attention to highly motivated Asian Indian students who are overlooked because of their cultural dispositions and outlooks on schooling and those students who are more likely to underachieve It highlights the assimilation of Asian Indian students in mainstream society and their understandings of Americanization social inequality diversity and multiculturalism

Tourism Innovation in the Digital Era Marco Valeri, 2023-10-23 Tourism Innovation in the Digital Era explores topics as diverse as big data analytics in tourism marketing to the impact of AI to the

use of CSR in competitiveness amongst hotel groups providing multidisciplinary approaches on the organizational impacts of digitalization and artificial intelligence in tourism and hospitality Phytoremediation Technology for the Removal of Heavy Metals and Other Contaminants from Soil and Water Vineet Kumar, Maulin P. Shah, Sushil Kumar Shahi, 2022-02-07

Phytoremediation Technology for the Removal of Heavy Metals and Other Contaminants from Soil and Water focuses on the exploitation of plants and their associated microbes as a tool to degrade detoxify stabilize toxic and hazardous contaminants and restore the contaminated site The book introduces various phytoremediation technologies using an array of plants and their associated microbes for environmental cleanup and sustainable development The book mainly focuses on the remediation of toxic and hazardous environmental contaminants their phytoremediation mechanisms and strategies advances and challenges in the current scenario This book is intended to appeal to students researchers scientists and a wide range of professionals responsible for regulating monitoring and designing industrial waste facilities Engineering consultants industrial waste managers and purchasing department managers government regulators and graduate students will also find this book invaluable Provides natural and eco friendly solutions to deal with the problem of pollution Details underlying mechanisms of phytoremediation of organic and inorganic contaminants with enzymatic roles Describes numerous successful field studies on the application of phytoremediation for eco restoration of contaminated sites Presents recent advances and challenges in phytoremediation research and applications for sustainable development Provides authoritative contributions on the diverse aspects of phytoremediation by world leading experts *Individual and Contextual Factors in the English Language Classroom* Rahma Al-Mahrooqi, Christopher J. Denman, 2022-03-22 This edited volume examines a number of topics related to the roles of individual and contextual factors in English as second or foreign language ESL EFL settings by presenting chapters across the three sections of theoretical and pedagogical approaches teacher and learner research and research into the roles of technology The book has a focus on practical actions and recommendations related to individual and contextual factors in ESL EFL with a specific concern with issues of cognition metacognition emotion and identity and offers perspectives from a diverse range of international education settings For teachers of ESL EFL the effective recognition and integration of individual and contextual factors into the classroom may represent a significant challenge This is often the case in those settings where native English speaking teachers work in foreign language contexts where they may have limited understanding of local cultures and languages or where language instructors have class groups that are culturally and linguistically diverse In these and similar contexts the types and extent of individual and contextual factors impacting on language learning may challenge both learner and instructor expectations of what an effective and supportive classroom is While such a situation offers numerous opportunities for learners and teachers to expand their knowledge of themselves and each other it also presents the possibility for ineffective teaching and learning to occur It is within this framework that the book presents the latest theoretical pedagogical and research perspectives from around the world thereby providing a

resource for all stakeholders with an interest in the roles individual and contextual factors play in the English learning process

Emerging Nanotechnologies for Diagnostics, Drug Delivery and Medical Devices Ashim K Mitra, Kishore Cholkar, Abhirup Mandal, 2017-02-13 Emerging Nanotechnologies for Diagnostics Drug Delivery and Medical Devices covers the modern micro and nanotechnologies used for diagnosis drug delivery and theranostics using micro nano and implantable systems In depth coverage of all aspects of disease treatment is included In addition the book covers cutting edge research and technology that will help readers gain knowledge of novel approaches and their applications to improve drug agent specificity for diagnosis and efficient disease treatment It is a comprehensive guide for medical specialists the pharmaceutical industry and academic researchers discussing the impact of nanotechnology on diagnosis drug delivery and theranostics Gives readers working in immunology drug delivery and medicine a greater awareness on how novel nanotechnology orientated methods can help improve treatment Provides readers with backgrounds in nanotechnology chemistry and materials science an understanding on how nanotechnology is used in immunology and drug delivery Includes focused coverage of the use of nanodevices in diagnostics therapeutics and theranostics not offered by other books

Omics Technologies and Bio-engineering Debmalya Barh, Vasco Ariston De Car Azevedo, 2018-02-28 Omics Technologies and Bio Engineering Towards Improving Quality of Life Volume 2 is a unique reference that brings together multiple perspectives on omics research providing in depth analysis and insights from an international team of authors The book delivers pivotal information that will inform and improve medical and biological research by helping readers gain more direct access to analytic data an increased understanding on data evaluation and a comprehensive picture on how to use omics data in molecular biology biotechnology and human health care Covers various aspects of biotechnology and bio engineering using omics technologies Focuses on the latest developments in the field including biofuel technologies Provides key insights into omics approaches in personalized and precision medicine Provides a complete picture on how one can utilize omics data in molecular biology biotechnology and human health care

Learning Elementary Science for Class 4 (A.Y. 2023-24) *Onward* Aditi Gupta, 2023-05-20 The Learning Elementary Science is a series consisting of five books Classes 1 to 5 based on the latest curriculum and guidelines laid down by NCERT in its National Curriculum Framework NCF The main focus is given on the development of different skills as per NEP 2020 In this revised edition various elements of NEP 2020 are incorporated to facilitate the shift from rote learning to skill building The emphasis is also given to develop higher order thinking skills in children including communication creativity and critical thinking Life skills along with inculcation of healthy habits are also discussed to promote a holistic approach towards the protection of the environment and conservation of nature This series aims at encouraging inventiveness and competence in children follows a thematic approach of the concepts introduces each chapter with an interesting and interactive warm up section to recall the previous knowledge related to the concept presents language in simple and easy to follow manner considering the age appropriateness of

children contains vibrant colourful illustrations and pictures to grab the interest and attention of children as well as for clarity of the concepts adopts collaborative approach that leads to interaction of both students and teacher in the process of learning provides well formulated questions which address the different cognitive levels and various skills as per NEP 2020 Art Integration Case Study Based Application Critical Thinking Experiential Learning Problem Solving Exploration etc of students includes Life Skills that are helpful in real life situations raises the environmental awareness among children as well as its conservation and protection from the very young age We are sure this series will make learning science a fascinating effective and engaging process for the learners Looking forward to your valuable suggestions Author Parallaxic Praxis: Multimodal Interdisciplinary Pedagogical Research Design Pauline Sameshima, Patricia Maarhuis, Sean Wiebe, 2019-10-30 Parallaxic Praxis is a research framework utilized by interdisciplinary teams to collect interpret transmediate analyze and mobilize data generatively The methodology leverages the researchers personal strengths and the collective expertise of the team including the participants and community when possible Benefits include the use of multi perspective analyses multi modal investigations informal and directed dialogic conversations innovative knowledge creation and models of residual and reparative research Relying on difference dialogue and creativity propulsion processes and drawing on post qualitative new materiality multiliteracies and combinatorial even juxtaposing theoretical frames this model offers extensive research possibilities across disciplines and content areas to mobilize knowledge to broad audiences This book explains methods theories and perspectives and provides examples for developing creative research design in order to innovate new understandings This model is especially useful for interdisciplinary partnerships or cross sector collaborations This book specifically addresses issues of research design methodology knowledge generation knowledge mobilization and dissemination for academics students and community partners Examples include possibilities for scholars interested in doing projects in social justice community engagement teacher education Indigenous research and health and wellness

Innovations in Digital Instruction Through Virtual Environments DeHart, Jason D., 2023-04-25 The implementation of virtual environments in education has been rapidly increasing in frequency after the COVID 19 pandemic As these technologies rise in popularity it is essential to understand the roles digital technologies play in fostering connections and learning the affordances of digital texts and spaces for virtual classroom experiences the difficulties educators have faced and how these practices have been crafted to meet these challenges and more Innovations in Digital Instruction Through Virtual Environments advances knowledge about the pedagogical decisions and lived experiences of researchers and educators both before and after the COVID 19 pandemic It features research from those who have worked to sustain and develop digital media pedagogical practices Covering topics such as active learning environments emotional labor and textual engagements this premier reference source is an excellent resource for educators and administrators of both K 12 and higher education pre service teachers teacher educators librarians researchers and academicians *Phytohormones in*

Plant Biotechnology and Agriculture Ivana Machácková, Georgy A. Romanov, 2013-11-11 Phytohormone research is a crucially important area of plant sciences. Phytohormones are one of the key systems integrating metabolic and developmental events in the whole plant and the response of plants to external factors. Thus they influence the yield and quality of crops. During the last decade we have slowly begun to understand the molecular mechanisms underlying phytohormone action largely as a result of the rapid developments that have been made internationally in the field of plant molecular genetics. Putative receptor proteins for ethylene 1993, 95 brassinosteroids 1997 and cytokinins 2001 have been identified and the genes that encode them cloned. Primary response genes and elements of hormonal signal transduction have also been identified for most known phytohormones. There is now little doubt that phytohormones like their animal counterparts function as signal molecules and create a signalling network in the whole plant organism. The in vivo activity of hormones depends among other things on their rate of biosynthesis and metabolism and on their transport into and out of target cells. Consequently genes and enzymes involved in these processes are of particular interest. In recent years a number of genes encoding enzymes for the synthesis, modification and degradation of different phytohormones have been cloned and identified as have genes encoding proteins involved in phytohormone transport and its regulation. Some classes of phytohormone have been shown to participate in stress reactions and can increase the resistance of plants to unfavorable environmental factors.

Degradation Sikandar I. Mulla, R. N. Bharagava, 2022-04-21 This book is about different Enzymes from various sources that play an important role in the degradation of an array of pollutants with simultaneous generation of value added products. This is an Edited Book which deals with a comprehensive knowledge on the role of different microorganisms and their enzymes in the degradation of pollutants. Wastewater treatment with simultaneous production of value added products. It also deals with the current state, perspectives and various challenges associated with the microbial enzymatic degradation of environmental pollutants. This book will provide a profound knowledge on the importance of microorganisms and their enzymes in the degradation of pollutants like pesticides, antibiotics, toxic hazardous chemicals, endocrine disrupting chemicals, compounds with production of value added products like bioplastics for the sustainable development of society. It covers various existing wastewater treatment approaches using microorganisms alone and or in combination of other methods with their merits, demerits and future prospects. *Cumulated Index Medicus*, 1997 *The Coast*, 1938 **D3D** Robledo Camacho, Marco Antonio, 2004-01-01 D3D Un enfoque integral de la dirección de empresas es un libro serio, provocador y postconvencional, científico, innovador y honesto, práctico, contestatario y responsable.
