What Every Economics Student Needs to Know and Doesn't Get in the Usual Principles Text John Komlos, 2015-07-17 This short book explores a core group of 40 topics that tend to go unexplored in an Introductory Economics course Though not a replacement for an introductory text the work is intended as a supplement to provoke further thought and discussion by juxtaposing blackboard models of the economy with empirical observations Each chapter starts with a short refresher of standard neoclassical economic modelling before getting into real world economic life Komlos shows how misleading it can be to mechanically apply the perfect competition model in an oligopolistic environment where only an insignificant share of economic activity takes place in perfectly competitive conditions Most economics texts introduce the notion of oligopoly and differentiate it from the perfect competition model with its focus on price takers Komlos contends that oligopolies are price makers like monopolies and cause consumers and economies nearly as much harm Likewise most textbook authors eschew any distortions of market pricing by government but there is usually little discussion of the real impact of minimum wages which Komlos corrects The book is an affordable supplement for all basic economics

courses or for anyone who wants to review the basic ideas of economics with clear eyes **Improving Student Achievement Through Mastery Learning Programs** Daniel U. Barnett, 2012-02-01 Because Israel is unique in many dimensions many social scientists consider it a historical peculiarity Neither East nor West developed nor undeveloped capitalist nor socialist Third World nor First World Israel has little in common with other countries and their historical experiences This book of original essays challenges the image of Israeli uniqueness and the status of the Israeli case and at the same time corrects some common misperceptions about the comparative method in general and case selection in particular At the same time it compares Israeli and Arab experiences and addresses critical issues in Middle Eastern studies To challenge the image of Israeli uniqueness the authors situate Israel's history in comparative context employ macrohistorical concepts both to reexamine the Israeli case and to build bridges between Israel and other historical experiences and use the Israeli case to reconsider existing social science theories Articles by Michael Barnett Yehezkal Dror Rebecca Kook Ian Lustick Joel Migdal Gershon Shafir Gabriel Sheffer Shibley Telhami and Mark Tessler and Ina Warriner Israel in Comparative Perspective demonstrates how our understanding of the region can be enriched by using models and theories developed in other regions to reexamine Israeli history *Little Green Men, Meowing Nuns and Head-Hunting Panics* Robert E. Bartholomew, 2001-06-06 For a two week period in 1956 residents in the vicinity of Taipei Taiwan lived in fear that they would be the next victims of a crazed villain who was prowling the streets and slashing people at random with a razor or similar weapon At least 21 victims were reported during this period mostly women and children of low income and education A thorough investigation revealed however that five slashings were innocent false reports seven were self inflicted cuts eight were due to cuts rather than razors and one was complete fantasy This is one example of many cases of what has traditionally been called mass hysteria that are examined in this comprehensive study of human beings fear of the unknown Beginning with a concise history of mass hysteria and social delusions the author

differentiates between the two and investigates mass hysteria in closed settings such as work and school and mass hysteria in communities with incidents such as gassings Pokemon illnesses in Japan and medieval dance crazes Also examined are collective delusions with information on five major types immediate threat symbolic scare mass wish fulfillment urban legends and mass panics The book ends with a discussion of major issues in the area of mass hysteria and a look toward the future of this intriguing subject
