## **Medieval Hagiography:**

Medieval Hagiography Thomas Head, 2018-10-24 This collection presents through the medium of translated sources a comprehensive guide to the development of hagiography and the cult of the saints in western Christendom during the middle ages It provides an unparalleled resource for the study of the ideals of sanctity and the practice of religion in the medieval west Intended for the classroom for the medieval scholar who wishes to explore sources in unfamiliar languages and for the general reader fascinated by the saints this collection provides the reader a chance to explore in depth a full range of writings about the saints the term hagiography is derived from Greek roots *hagios* holy and *graphe* writing The thirty six chapters contain sources either in their entirety or in selections of substantial length The great majority of the texts have never previously appeared in English translation Those which have appeared in earlier translation are here presented in versions based on significant new textual and historical scholarship which makes them significant improvements on the earlier versions All the translations are accompanied by introductions notes and suggestions for further reading in order to help guide the reader The first selections date to the fourth century when the ideals of Christian sanctity were evolving to meet the demands of a world in which Christianity was an accepted religion and when the public veneration of relics was growing greatly in scope The last selections date to the period immediately prior to the Reformation a period in which the traditional concept of sanctity and acceptability of the cult of relics was being questioned In addition to numerous works from the clerical languages of Latin and Greek the selections include translations from Romance Celtic Germanic and Slavic vernacular languages as well as Hebrew texts concerning the martyrdom of Jews at the hands of Christians Originating in lands from Iceland to Hungary and from the Baltic to the Mediterranean they are taken from a full range of the many genres which constituted hagiography lives of the saints collections of miracle stories accounts of the discovery or movement of relics liturgical books visions canonization inquests and even heresy trials **Saints and Scribes** Pamela

Gehrke, 1993-02-17 In this survey of thirteenth century codices in Old French verse that contain at least one saint's life the author finds a great variety among combinations in contrast to the corpus of medieval Latin hagiographic manuscripts She interprets the combinations of texts in four collections demonstrating the value of codicological and textual analysis of entire manuscripts as an approach to medieval vernacular pious literature *Lives and Miracles of the Saints* Michael

Goodich, 2004 Hagiography is a rich source for our knowledge of many aspects of medieval culture and tradition The lives and miracles of the saints may be read on several levels both as an expression of the dominant ideology and as a reflection of long term themes in medieval society The essays in this volume attempt to exploit the Latin hagiographical sources of the medieval West as means of illuminating our understanding of a variety of such themes childhood and adolescence elite and popular religion sainthood and politics the mechanism of canonisation women in the church dreams visions and the concept of the miraculous and the convergence of heresy disbelief and piety *Early Medieval Hagiography* James T. Palmer, 2018

This short book takes readers from the creation of medieval hagiography through the ways in which it circulated to a wide ranging assessment of the modern use of hagiographies and the ways in which studying hagiography has made a difference to our understanding of the period 500-900. Lives and Miracles of the Saints Michael E. Goodich, 2024-10-28 Hagiography is a rich source for our knowledge of many aspects of medieval culture and tradition. The lives and miracles of the saints may be read on several levels both as an expression of the dominant ideology and as a reflection of long term themes in medieval society. The essays in this volume attempt to exploit the Latin hagiographical sources of the medieval West as means of illuminating our understanding of a variety of such themes: childhood and adolescence, elite and popular religion, sainthood and politics, the mechanism of canonisation, women in the church, dreams, visions and the concept of the miraculous and the convergence of heresy, disbelief and piety. *Medieval Saints' Lives* Emma Campbell, 2008 The significance of Old French hagiography in current theoretical debates in medieval studies and the humanities. Contending that the study of hagiography is significant both for a consideration of medieval literature and for current theoretical debates in medieval studies, this book considers a range of Old French and Anglo-Norman texts using modern theories of kinship and community to show how saints' lives construe social and sexual relations. Focusing on the depiction of the gift, kinship and community, the book maintains that social and sexual systems play a key role in vernacular hagiography. Such systems, along with the desires they produce and control, are argued central to hagiography's religious functions, particularly its role as a vehicle of community formation. In attempting to think beyond the limits of human relationships, saints' lives nonetheless create an environment in which queer desires and modes of connection become possible, suggesting that in this case, at least, the orthodox nurtures the queer. This book thus suggests not only that medieval hagiography is worthy of greater attention, but also that this corpus might provide an important resource for theorizing community in its medieval contexts and for thinking it in the present. EMMA CAMPBELL is Associate Professor of French at the University of Warwick. **Hagiography and the History of Latin Christendom, 500-1500**, 2019-12-02 Hagiography and the History of Latin Christendom 500-1500 shows the historical value of texts celebrating saints, both the most abundant medieval source material and among the most difficult to use. Hagiographical sources present many challenges: they are usually anonymous, often hard to date, full of topoi and unstable. Moreover, they are generally not what we would consider factually accurate. The volume's twenty-one contributions draw on a range of disciplines and employ a variety of innovative methods to address these challenges and reach new discoveries about the medieval world that extend well beyond the study of sanctity. They show the rich potential of hagiography to enhance our knowledge of that world and some of the ways to unlock it. *Generation of Identity in Late Medieval Hagiography* Gail Ashton, 2012-09-10 In this interdisciplinary and boundary breaking study Gail Ashton examines the portrayals of women saints in a wide range of medieval texts She deploys the French feminist critical theory of Cixous and Irigaray to illuminate these depictions of women by men and to further our understanding of both the lives and deeds of female saints and the contemporary and almost always male attitudes to them *Hagiography, Historiography, and Identity in Sixth-Century Gaul* Tamar Rotman, 2025-10-01 Gregory of Tours the sixth century Merovingian bishop composed extensive historiographical and hagiographical corpora during the twenty years of his episcopacy in Tours These works serve as important sources for the cultural social political and religious history of Merovingian Gaul This book focuses on Gregory's hagiographical collections especially the *Glory of the Martyrs* *Glory of the Confessors* and *Life of the Fathers* which contain accounts of saints and their miracles from across the Mediterranean world It analyses these accounts from literary and historical perspectives examining them through the lens of relations between the Merovingians and their Mediterranean counterparts and contextualizing them within the identity crisis that followed the disintegration of the Roman world This approach leads to groundbreaking conclusions about Gregory's hagiographies which this study argues were designed as an ecclesiastical history of the Merovingian Church that enabled him to craft a specific Gallo Christian identity for his audience *Forgetful of Their Sex* Jane Tibbetts Schulenburg, 2018-06-29 In this remarkable study of over 2 200 female and male saints Jane Schulenburg explores women's status and experience in early medieval society and in the Church by examining factors such as family wealth and power patronage monasticism virginity and motherhood The result is a unique depiction of the lives of these strong creative independent minded women who achieved a visibility in their society that led to recognition of sanctity A tremendous piece of scholarship This journey through more than 2 000 saints is anything but dull Along the way Schulenburg informs our ideas regarding the role of saints in the medieval psyche gender specific identification and the heroics of virginity *Library Journal* This book will be a kind of roots experience for some readers They will hear the voices haunted and haunting of their distant ancestors and understand more about themselves *Christian Science Monitor* This fascinating book reaches far beyond the history of Christianity to recreate the herstory of a whole gender Kate Saunders *The Independent* *Saints and Scribes* Pamela S. **The Social Life of Hagiography in the Merovingian Kingdom** Jamie Kreiner,2014-04-03 This book charts the influence of Christian ideas about social responsibility on the legal fiscal and operational policies of the Merovingian government which consistently depended upon the collaboration of kings and elites to succeed and it shows how a set of stories transformed the political playing field in early medieval Gaul Contemporary thinkers encouraged this development by writing political arguments in the form of hagiography more to redefine the rules and resources of elite culture than to promote saints cults Jamie Kreiner explores how hagiographers were able to do this effectively by layering their arguments with different rhetorical and cognitive strategies while keeping the surface narratives entertaining The result was a subtle and captivating literature that gives us new ways of thinking about how ideas and institutions can change and how the vibrancy of Merovingian culture inspired subsequent Carolingian developments
