Modern Chinese Art:

Inside/out Asia Society. Galleries, San Francisco Museum of Modern Art, 1998-01-01 The late twentieth century has been marked by momentous political economic and social change throughout the Chinese world. Deeply rooted cultural assumptions and ancient visual traditions have been challenged by rapid modernization and conflicting global ethnic and local identities. *Inside Out: New Chinese Art* was the first major international exhibition to explore the impact of these challenges on artists in the People's Republic of China, Hong Kong, Taiwan, and those of the 1980s Diaspora. The multifaceted exhibition and accompanying catalog encompass an extensive range of artistic forms including installation, video, and performance art, as well as more traditional media such as oils and ink. The art is grouped according to themes, some specific to regions and others that reflect widespread and overlapping trends. With the inclusion of ambiguous territories like Hong Kong and Taiwan, the exhibition opens up a perspective of modern Chinese art from the outside as well as a looking out from the inside. The catalog features essays by eminent Chinese art scholars and curators, along with leading curators and historians of Western art. Together, they promote Chinese art's rightful place in the contemporary global cultural arena and at the same time acknowledge the influence of its rich heritage. The diversity and freshness of the exhibition reflects the explosion of creativity among Chinese artists during the past decade. The ironic social commentary of Li Shan's *The Rouge Series* no. 24, the apartment art of artists reacting against the traditional patronage of large museums and corporations, and Wang Jin's sly humor in portraying consumer fetishes in today's China are a few examples of the spirited artistry awaiting the viewers of *Inside Out*.

Contemporary Chinese Art Paul Gladston, 2014-06-15 Since the confirmation of Deng Xiaoping's policy of Opening and Reform in 1978, the People's Republic of China has undergone a liberalization of culture that has led to the production of numerous forms of avant-garde, experimental, and museum-based art. With a fast-growing international market and a thriving artistic community, contemporary Chinese art is riding a wave of prosperity, though issues of censorship still abound. Shedding light on the current art scene, Paul Gladston's *Contemporary Chinese Art* puts China's recent artistic output into the context of the wider cultural, economic, and political conditions that surround it. Providing a critical mapping of ideas and practices that have shaped the development of Chinese art, Gladston shows how these combine to bind it to the structure of power and state, both within and outside of China. Focusing principally on art produced by artists from mainland China, including painting, film, video, photography, and performance, he also discusses art created in Taiwan, Hong Kong, Macau, and diasporic communities. Illustrated with 150 images, *Contemporary Chinese Art* unravels the complexities of politics, artistic practice, and culture in play in China's art scene.

China—Art—Modernity David Clarke, 2019-01-22 China Art Modernity provides a critical introduction to modern and contemporary Chinese art as a whole It illuminates what is distinctive and significant about the rich range of art created during the tumultuous period of Chinese history from the end of

Imperial rule to the present day The story of Chinese art in the twentieth and twenty first centuries is shown to be deeply intertwined with that of the country s broader socio political development with art serving both as a tool for the creation of a new national culture and as a means for critiquing the forms that culture has taken The book s approach is inclusive In addition to treating art within the Chinese Mainland itself during the Republican and Communist eras for instance it also looks at the art of colonial Hong Kong Taiwan and the Chinese diaspora Similarly it gives equal prominence to artists employing tools and idioms of indigenous Chinese origin and those who engage with international styles and contemporary media In this way it writes China into the global story of modern art as a whole at a moment in intellectual history when Western centred stories of modern and contemporary culture are finally being recognized as parochial and inadequate Assuming no previous background knowledge of Chinese history and culture this concise yet comprehensive and richly illustrated book will appeal to those who already have an established interest in modern Chinese art and those for whom this is a novel topic It will be of particular value to students of Chinese art or modern art in general but it is also for those in the wider reading public with a curiosity about modern China At a time when that country has become a major actor on the world stage in all sorts of ways accessible sources of information concerning its modern visual culture are nevertheless surprisingly scarce As a consequence a fully nuanced picture of China s place in the modern world remains elusive China Art Modernity is a timely remedy for that situation Here is a book that offers a comprehensive account of the dizzying transformations of Chinese art and society in the twentieth and twenty first centuries Breaking free of conventional dichotomies between traditional and modern Chinese and Western that have hobbled earlier studies Clarke s highly original book is exactly what I would assign my own students Anyone eager to understand developments in China within the global history of modern art should read this book Robert E Harrist Jr Columbia University Clarke s book presents a critically astute mapping of the arts of modern and contemporary China It highlights the significance of urban and industrial contexts migration diasporas and the margins of the mainland while imaginatively seeking to inscribe its subject into the broader story of modern art A timely and reliable intervention and indispensable for the student and non specialist reader Shane McCausland SOAS University of London
