Moslems In A Multicultural Society Hizbollah As An Example:

An Army Like No Other Haim Bresheeth-Zabner, 2020-08-25 A history of the IDF that argues that Israel is a nation formed by its army The Israeli army officially named the Israel Defence Forces IDF was established in 1948 by David Ben Gurion Israel's first prime minister who believed that the whole nation is the army In his mind the IDF was to be an army like no other It was the instrument that might transform a diverse population into a new people Since the foundation of Israel therefore the IDF has been the largest richest and most influential institution in Israel's Jewish society and is the nursery of its social economic and political ruling class In this fascinating history Bresheeth charts the evolution of the IDF from the Nakba to the continued assaults upon Gaza and shows that the state of Israel has been formed out of its wars He also gives an account of his own experiences as a young conscript during the 1967 war He argues that the army is embedded in all aspects of daily life and identity And that we should not merely see it as a fighting force enjoying an international reputation but as the central ideological political and financial institution of Israeli society As a consequence we have to reconsider our assumptions on what any kind of peace might look like

Understanding Hezbollah Abed T. Kanaaneh, 2021-09-02 Over the last three decades Hezbollah has developed from a small radical organization into a major player in the Lebanese regional and even international political arenas Its influence in military issues is well known but its role in shaping cultural and political activities has not received enough attention Kanaaneh sheds new light on the organization's successful evolution as a counterhegemonic force in the region's resistance movement known as Muqawama Founded on the idea that Islam is a resisting religion whose real heroes are the poor populations who have finally decided to take action Hezbollah has shifted its focus to advocate for social justice issues and to attract ordinary activists to its cause From the mid 1990s on Hezbollah has built alliances that allow it to pursue soft power in Lebanon fighting against both the dominant Shi'ite elites and the Maronite Sunni as well as Israeli and US influence in the region Kanaaneh argues that this perpetual resistance military as well as cultural and political is fundamental to Hezbollah's continued success

Politics and War in Lebanon Mordechai Nisan,2017-07-05 Lebanon is an

exceptionally misunderstood country its religious politics are typically misrepresented and denigrated in Western political commentary Politics and War in Lebanon offers a lucid examination of Lebanese society and politics Mordechai Nisan examines Lebanon in its own terms on its own cultural turf He then points to the causes of political disintegration in 1975 and explores the capacity of Lebanon to recover and retain its unique national poise Avoiding disorienting Western stereotypes Nisan presents Lebanon in its own native frame of reference as a multi ethnic country that operates according to its immutable and enigmatic political forms Lebanon is different from other Arab countries as demonstrated through its very complex electoral system its tradition of cross elite cooperation and its special sense of Lebanese national identity that differentiates it from its overbearing Syrian neighbor Nisan explores intra Maronite Christian feuds identifies Syria's occupation strategy analyzes the violence of the Palestinians and studies Israel's failed policy strategy and the role of Hezbollah in the Lebanese power equation Lebanon is caught between its special historical identity as a country of poise creativity and liberty and the interminable warfare in the streets and villages of the country Although its future appears dim its resilience enabled it to prevail in the past and may yet continue to do so

The Borders of Islam Stig Jarle Hansen, Atle Mesøy, Tuncay Kardas, 2009 In The Clash of Civilizations Samuel Huntington argued that the borders between Western and Islamic civilizations would one day become the loci of cultural conflict The statements of Osama Bin Laden would seem to support this view This battle is not between al Qaeda and the U S he famously said in October of 2001 This is a battle of Muslims against the Global Crusaders These specially commissioned essays critically examine the virtual and actual borders of Islamic civilization Contributors concentrate on local dynamics and whether they support or contradict an emerging global confrontation between Islam and its Christian Hindu Buddhist and secular neighbors They consider borders that host Muslim majorities Afghanistan Bosnia Chechnya Ethiopia Indonesia Somalia Pakistan and Turkey those that have significant Muslim minorities Philippines Nigeria and India and those that reflect new faultlines created by migration to France the United Kingdom the United States and Spain or by advances in technology Essays explore the rise of international Salafi jihadism and whether it can be traced to countries that straddle the Islamic and non Islamic world In conclusion the contributors argue that mechanisms far more complex than those described in Huntington's Clash of Civilizations influence many border regions suggesting that while poverty and institutional failure heighten religious awareness and practice the actual effects of these phenomena are entirely different

King,2016-03-02 The activities of pro Israel pressure groups and lobbyists in the US are well known But the pro Israel lobby in Europe is less prominent in both academic and media accounts In a unique account Elvira King identifies the pro Israeli groups which attempt to influence policy makers and implementers in the EU specifically examining Christian Zionist groups Through a detailed study of the European Coalition for Israel ECI the only Christian Zionist lobby in Brussels Elvira King analyses whether and how a religious group can and can fail to influence decision makers in the EU By exploring the context of European relations with Israel as well as the mechanisms through which pressure groups are able to influence EU wide policies King offers an analysis which demonstrates how the EU can be a site where religion and politics meet rather than just being a secular institution It therefore contains vital primary research for both those interested in the pro Israel lobby as well as those examining the role of religion in politics more generally
