Abell, Norman G. Lederman, 2013-03-07. This state-of-the-art research Handbook provides a comprehensive coherent current synthesis of the empirical and theoretical research concerning teaching and learning in science and lays down a foundation upon which future research can be built. The contributors all leading experts in their research areas represent the international and gender diversity that exists in the science education research community. As a whole the Handbook of Research on Science Education demonstrates that science education is alive and well and illustrates its vitality. It is an essential resource for the entire science education community including veteran and emerging researchers, university faculty, graduate students, practitioners in the schools, and science education professionals outside of universities. The National Association for Research in Science Teaching (NARST) endorses the Handbook of Research on Science Education as an important and valuable synthesis of the current knowledge in the field of science education by leading individuals in the field. For more information on NARST please visit <http://www.narst.org>. *Keywords in Youth Studies* Nancy Lesko, Susan Talburt, 2012-03-22. With recent attention to issues such as youth social exclusion, poverty, school underachievement, school violence, gang activity, sexuality, and youth's interactions with media and the internet, youth studies has emerged as a significant interdisciplinary field. It has moved beyond its roots in subcultural studies to encompass a diverse array of disciplines, subfields, and theoretical orientations. Yet no volume exists that systematically presents and puts into dialogue the field's areas of focus and approaches to research. As a unique blend of reference guide, conceptual dictionary, and critical assessment, *Keywords in Youth Studies* presents and historicizes the state of the field. It offers theoretically informed analysis of key concepts and points to possibilities for youth studies reconstruction. Contributors include internationally renowned field experts who trace the origins, movements, and uses and meanings of keywords such as resistance, youth violence, surveillance, and more. The blending of section essays with focused keywords offers beginning and advanced readers multiple points of entry into the text and connections across concepts. A must read for graduate students, faculty, and researchers across a range of disciplines, this extraordinary new book promotes new interdisciplinary approaches to youth research and advocacy. *Storied Doctorates* Maria Xypaki, Eleni Sinakou, María Angélica Mejía-Cáceres, Ailim Schwambach, 2021-09-03. This book brings together the diverse narratives of researchers' personalized stories about the process of doing doctoral research, PhD in the field of Environmental and Sustainability Education (ESE), and about the life after the completion of such life-forming experience. The narratives go beyond the academic to discuss the different ways in which doctoral study in the field of environmental and sustainability education is experienced at the personal and professional level. Contributors are located in different countries in Europe, Australasia, and Latin America. The different countries that the authors write from matters because it contextualizes both the process of studying environmental and sustainability education and the way in

which this is experienced at a time when the world has become increasingly conscientized towards environmental challenges As such the book is appreciated by established and emerging scholars in this field and in related fields around the world Readers are presented with a comprehensive volume ideal for aspiring ESE researchers supervisors policy makers and practitioners
