Nature Of Chinese Politics From Mao To Jiang:

The Nature of Chinese Politics Jonathan Unger, 2002 This text describes and analyses how politics among the Chinese leadership has operated and evolved from the period of Mao court up to 2002 Part I explores the politics of Mao and Deng Part II explores and analyzes the ongoing changes in Chinese politics during Jiang's tenure **The End of the Maoist Era:**

Chinese Politics During the Twilight of the Cultural Revolution, 1972-1976 Frederick C Teiwes, Warren

Sun, 2014-12-18 This book launches an ambitious reexamination of the elite politics behind one of the most remarkable transformations in the late twentieth century As the first part of a new interpretation of the evolution of Chinese politics during the years 1972-82 it provides a detailed study of the end of the Maoist era demonstrating Mao's continuing dominance even as his ability to control events ebbed away The tensions within the gang of four the different treatment of Zhou Enlai and Deng Xiaoping and the largely unexamined role of younger radicals are analyzed to reveal a view of the dynamic of elite politics that is at odds with accepted scholarship The authors draw upon newly available documentary sources and extensive interviews with Chinese participants and historians to develop their challenging interpretation of one of the most poorly understood periods in the history of the People's Republic of China *Chinese Politics and Government* Sujian

Guo, 2012-09-10 Over the past two decades China's political reforms open door policy dramatic economic growth and increasingly assertive foreign policy have had an unprecedented regional and global impact This introductory textbook provides students with a fundamental understanding of government and politics in China as well as the conceptual ability to explore the general patterns impacts and nature of continuities and changes in Chinese politics Further it equips students with analytical frameworks by which they can understand analyse and evaluate the major issues in Chinese politics including The basic methodologies and theoretical controversies in the study of Chinese politics The major dimensions structures processes functions and characteristics of the Chinese political system such as ideology politics law society economy and foreign policy The impact of power ideology and organization on different spheres of Chinese society The structure process and factors in Chinese foreign policy making Whether China is a strategic partner or potential threat to the United States By examining contending theoretical models in the study of Chinese politics this book combines an essentialist approach that keeps focus on the fundamental unique and defining features of Chinese politics and government with other theoretical approaches or analytical models which reveal and explore the complexities inherent in the Chinese political system Extensively illustrated the textbook includes maps photographs and diagrams as well as providing questions for class discussions and suggestions for further reading Written by an experienced academic with working knowledge of the Chinese Government this textbook will provide students with a comprehensive introduction to all aspects of Chinese Politics The Politics of the Core Leader in China Xuezhi Guo, 2019-05-09 This is the first full length scholarly study of the Chinese core leader and his role in the Chinese Communist Party's elite politics China after Jiang Gang Lin, Xiaoyuan Liu, Xiaobo

Hu,2003 One of the first evaluations of China's leadership transition with Jiang Zemin's 2002 retirement as Communist Party chief this book probes the country's related institutional transitions both those under way and those still needed if China is to remain stable and prosperous in the 21st century *China's Governance Model* Hongyi Lai,2016-06-10 Many studies of government in China either simply describe the political institutions or else focus critically on the weaknesses of the system such as corruption or the absence of Western style democracy Authors of these studies fail to appreciate the surprising ability of China's government to rapidly transform a once impoverished economy and to recover from numerous crises from 1978 to the present This book on the other hand takes a more balanced more positive view This view is based on a study of changes in China's institutions for coping with critical crises in governance since 1978 These changes include better management of leadership succession better crisis management improved social welfare the management of society through treating different social groups differently depending on their potential to rival the Party state and a variety of limited intra party and grassroots democracy This book applies to the Chinese model the term pragmatic authoritarianism It explains changes to and the likely future direction of China's governance model It compares current risks in China's governance with threats that terminated dynasties and the republic in China over the past four thousand years and concludes that the regime can be expected to survive a considerable period despite its existing flaws Few topics in Chinese politics are as significant as the nature state and prospects of the political regime While the topic had been unduly understudied for a long period of time a young generation of scholars has emerged on this subject Among others the book by Hongyi Lai stands out and provides a comprehensive and penetrating analysis on this topic I am confident that his book will make a significant contribution to the study of Chinese politics and may well define the debate on China's political development governance and model for years to come Yongnian Zheng Director East Asian Institute National University of Singapore

Neoclassical Realism and the Underdevelopment of China's Nuclear Doctrine Paolo Rosa,2018-04-06 This book addresses the under researched discourse of the evolution of Chinese nuclear posture and in particular explains the absence from this evolution of a coherent and well defined operational doctrine Using a neoclassical realist framework the book explains why China after having launched a crash programme in the mid 1950s to develop a nuclear deterrent did not debate a clear operational doctrine with respect to targeting and employment until the mid 1980s *Routledge Handbook of the Chinese Communist Party* Willy Wo-Lap Lam,2017-08-18 Whilst the Chinese Communist Party is one of the most powerful political institutions in the world it is also one of the least understood due to the party's secrecy and tight control over the archives the press and the Internet Having governed the People's Republic of China for nearly 70 years though much interest remains into how this quintessentially Leninist party governs one fifth of the world and runs the world's second largest economy The Routledge Handbook of the Chinese Communist Party gives a comprehensive and multi faceted picture of the party's traditions and values as well as its efforts to stay relevant in the twenty first century It uses a wealth of contemporary data and qualitative

analysis to explore the intriguing relationship between the party on the one hand and the government the legal and judicial establishment and the armed forces on the other Tracing the influence of Marx Engels Lenin and Stalin as well as Mao Zedong on contemporary leaders ranging from Deng Xiaoping and Jiang Zemin to Hu Jintao and Xi Jinping the sections cover the party s history and traditions how the party works and seeks to remain relevant major policy arenas the CCP in the twenty first century The Routledge Handbook of the Chinese Communist Party will be of interest to students and scholars of Chinese Politics Asian Politics Political Parties and International Relations Go to <https://www.bookshop4u.com/lw1> to see Willy Lam introduce the book Chinese Assertiveness, Ideational Mobilization, and the Rise of Xi Jinping Friso M.S.

Stevens,2025-05-06 This book examines the historical domestic and leadership drivers behind the repositioning of China toward center stage after 2008 In the years of global turmoil that followed the 2008 global financial crisis China s foreign policy of the late Hu Jintao years came to be viewed in Western discourse as increasingly assertive Displaying a certain cognitive dissonance China however vehemently rejects this viewpoint Especially after Xi Jinping rose to power in 2012 it is clear that China has abandoned its long held foreign policy doctrine of keeping a low profile Analyzing how language has been produced and reproduced over time this book explains the shift to a more assertive China by examining the intervening ideas about China s desired place in East Asia s regional order The Chinese Communist Party propaganda offers compelling evidence that there is much greater continuity between the Hu and Xi eras than is exhibited in the current literature Moreover the book traces the deeper ideational sources of Chinese assertiveness back to the New Left movement and the Patriotic Education Campaign of the 1990s Agency for the turn in the late 2000s and the selection of the compromise candidate Xi is attributed to the choices past leaders made with some Party elders ruling from behind the curtain This book will be of much interest to students of Chinese politics and foreign policy East Asian International Relations and Security Studies *Choosing China's Leaders* Chien-wen Kou,Xiaowei Zang,2013-10-08 Political elites are a key topic in

contemporary China studies and have been investigated in relation to factional politics generation politics technocracy and crucially institutionalization The institutionalization of elite replacement began in China in the 1980s and quickly accelerated after the early 1990s as mechanisms emerged to regulate political elites entry and exit including age limits term limits and step by step promotion By examining the various processes of elite selection this book explores the role played by institutionalization in elite recruitment promotion and turnover in China While existing studies have developed our understanding of Chinese elite politics two key puzzles regarding institutionalisation remain Although institutionalisation is recognised as an important trend in Chinese politics there is as yet no theoretical framework to explain the forces that have brought about and sustained this Further it is unclear how the process of institutionalisation has impacted on factional politics and how factions would continue to operate within the parameters of formal politics Drawing on a wide range of studies this book looks at Politburo members senior People s Liberation Army officers provincial leaders heads of major

central state owned enterprises and Youth League affiliates to provide a comprehensive understanding of elite recruitment and mobility in contemporary China This book will be of great interests to students and scholars of Chinese politics and government Chinese studies and Asian politics more broadly The Chinese Communist Party as Organizational Emperor Zheng Yongnian,2009-12-16 The Chinese Communist Party CCP is one of the largest and most powerful political organizations and China s rapid rise has allowed CCP to extend its influence throughout the globe This book explores the CCP transformation as a form of organizational emperor and its ability to survive potential democracy *Why Communism Did Not Collapse* Martin K. Dimitrov,2013-07-31 This volume brings together a distinguished group of scholars working to address the puzzling durability of communist autocracies in Eastern Europe and Asia which are the longest lasting type of non democratic regime to emerge after World War I The volume conceptualizes the communist universe as consisting of the ten regimes in Eastern Europe and Mongolia that eventually collapsed in 1989 91 and the five regimes that survived the fall of the Berlin Wall China Vietnam Laos North Korea and Cuba The essays offer a theoretical argument that emphasizes the importance of institutional adaptations as a foundation of communist resilience In particular the contributors focus on four adaptations of the economy of ideology of the mechanisms for inclusion of potential rivals and of the institutions of vertical and horizontal accountability The volume argues that when regimes are no longer able to implement adaptive change contingent leadership choices and contagion dynamics make collapse more likely **Marketing Dictatorship** Anne-Marie Brady,2009-11-16 Click here to hear Anne Marie Brady s BBC World Service radio documentary titled The Message from China China s government is no longer a Stalinist Maoist dictatorship yet it does not seem to be moving significantly closer to democracy as it is understood in Western terms After a period of self imposed exclusion Chinese society is in the process of a massive transformation in the name of economic progress and integration into the world economy The Chinese Communist Party CCP is seeking to maintain its rule over China indefinitely creating yet another new China Propaganda and thought work play a key role in this strategy In this important book noted China scholar Anne Marie Brady answers some intriguing questions about China s contemporary propaganda system Why have propaganda and thought work strengthened their hold in China in recent years How has the CCP government strengthened its power since 1989 when so many analysts predicted otherwise How does the CCP maintain its monopoly on political power while dismantling the socialist system How can the government maintain popular support in China when the uniting force of Marxist Leninist Maoist ideology is spent and discredited What has taken the place of communist ideology Examining propaganda and thought work in the current period offers readers a unique understanding of how the CCP will address real and perceived threats to stability and its continued hold on power This innovative book is a must read for everyone interested in China s growing role in the world community The Rise of Think Tanks in China Xufeng Zhu,2013 Despite continuing criticism of the Chinese authoritarian political system the range of participants in the decision making process has widened with different social actors now playing an

increasingly important role in the Chinese policymaking process Accordingly the role of think tanks in the policymaking process has generated great interest within and outside China This book explores the behaviour and influence of China's think tanks and explains the reasons and social consequences of the rise of think tanks in China The book raises several questions on the topic How did think tanks emerge in China What are the essential factors that determine think tanks in terms of building their governmental and personal networks How do think tanks work and build their influence in the Chinese policy process What happens to Chinese society when think tanks become important policy participants in the policy process The book goes on to discuss new perspectives on policy processes and elite politics in China and empirically with comparative case study and data from nationwide questionnaire surveys provides a comprehensive picture of think tanks in the current political system of the country

China's Changing Political Landscape Cheng Li, 2009-08-01 While China's economic rise is being watched closely around the world the country's changing political landscape is intriguing as well Forces unleashed by market reforms are profoundly recasting state-society relations Will the Middle Kingdom transition rapidly slowly or not at all to political democracy In China's Changing Political Landscape leading experts examine the prospects for democracy in the world's most populous nation China's political transformation is unlikely to follow a linear path Possible scenarios include development of democracy as we understand it democracy with more clearly Chinese characteristics mounting regime instability due to political and socioeconomic crises and a modified authoritarianism perhaps modeled on other Asian examples such as Singapore Which road China ultimately takes will depend on the interplay of socioeconomic forces institutional developments leadership succession and demographic trends Cheng Li and his colleagues break down a number of issues in Chinese domestic politics including changing leadership dynamics the rise of business elites increased demand for the rule of law and shifting civil-military relations Although the contributors clash on many issues they do agree on one thing the political trajectory of this economic powerhouse will have profound implications not only for 1.3 billion Chinese people but also for the world as a whole

Words and Their Stories Ban Wang, 2010-10-05 As China joins the capitalist world economy the problems of social disintegration that gave rise to the earlier revolutionary social movements are becoming pressing Instead of viewing the Chinese Revolution as an academic study these essays suggest that the motifs of the Revolution are still alive and relevant The slogan Farewell to Revolution that obscures the revolutionary language is premature In spite of dislocations and ruptures in the revolutionary language to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations Earlier meanings of revolutionary words may persist or coexist with non-revolutionary rivals Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested

Iran and China Shirzad Azad, 2017-02-09 Because of their historical roles and politico-economic significance in contemporary international politics Iran and China have perpetually been in the crosshairs of both policy circles and interested observers in almost every other

part of the world Crucial interactions touching upon any aspect of Tehran Beijing ties from diplomatic and military links to economic and cultural connections have especially been in the limelight of such riveting inquisitiveness which has often given rise to a flurry of rash comments sensational claims and impetuous conclusions But a detached probe into critical developments involving Iran and China however elucidates this rather inconvenient eventuality that the relations between the two important countries are not essentially based on pivotal principles and clear cut commitments nor do their ties really rest on tenuous thoughts and flimsy foundations devoid of any common interests in short term or well conceived objectives in long run In the same way the two political systems in Tehran and Beijing may ultimately end up each contributing to a separate pole of power regionally and internationally rather than moving faithfully and steadfastly in lockstep with what it requires them to truly materialize their more recent aspiration and design to move toward achieving a very close strategic partnership

Chinese Macrosecuritization Juha A. Vuori, 2023-11-10 This book provides a holistic picture of Chinese global security discourses with a focus on macrosecritizations The work examines how the People s Republic of China PRC has aligned itself within global security discourses This is approached through the theory of securitization specifically by using the notion of macrosecritization as the lens for its analysis The book offers the first full account of Chinese macrosecritization discourses and alignments and it aims to discern what security speech with referent objects such as humanity civilization or nature has done in the domestic and international politics of China Specifically the work focuses on the discourses of the Cold War anti nuclear weapons climate change and the Global War on Terror which have all been postulated in the literature as macrosecritizations In addition it examines discourses with global referent objects that have been put forth by the PRC so that we can see whether its proposals for global security governance take the form of or are legitimated through macrosecritization The overall argument in the book is that the way contemporary China uses macrosecritization discourses provides for ontological security as its position in relation to other major powers is undergoing transformation by allowing it to maintain a consistent narrative of its international self that abides by its own set of moral values and sense of worth This book will be of interest to students of critical security studies Chinese politics and International Relations The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution NonCommercial ShareAlike CC BY NC SA 4 0 International

China Entering the Xi Jinping Era Zheng Yongnian, Lance L. P. Gore, 2014-11-20 How will China develop under the new leadership of Xi Jinping and Li Keqiang This is a key question for both China and the wider world This book presents a comprehensive overview of the key areas and issues assessing how

things are likely to develop under the new leadership It considers the economy trade politics and demographics appraises the leadership both at the national and provincial levels and discusses potential flashpoints in China s relationship with its neighbors and China s emerging role in world politics The book emphasizes the great uncertainties surrounding the next phase of China s development highlighting the structural problems of the economy the problems of urbanization and governance and the deep social cleavages which exist over issues such as income disparity rampant corruption and unequal opportunities in social mobility Against this backdrop it measures the emerging leadership of Xi Jinping to assess the prospects for China in the next decade and beyond
