**Political Investigations** Robert Fine, 2005-07-08 In this highly innovative book Robert Fine compares three great studies of modern political life Hegel's *Elements of the Philosophy of Right*, Marx's *Capital* and Hannah Arendt's *Origins of Totalitarianism* and argues that they are all profoundly radical texts which jointly contribute to our understanding of the modern world. Fine maintains that these works are far more revealing when read together than in opposition and draws a direct parallel between Hegel's critique of social forms of right and Marx's critique of social forms of value. Fine shows how fruitfully their work can and should be combined. Hannah Arendt was in turn critical of what she saw as the historicism of both Hegel and Marx but Fine argues that her study of the origins of totalitarianism directly picks up on their insights into the modern potential for fanaticism and destructiveness. Arendt never disavowed any of the nineteenth century thinkers who prefigured the catastrophes to come but Fine shows her indebtedness to Hegel and Marx. This fascinating book offers a re-reading of these texts as three pivotal moments in the construction of a critical humanist tradition.

**Hegel and Marx** David MacGregor, 2014-06-15 The second edition of *Hegel and Marx* surveys Hegel's close connection with world-famed economist Friedrich List, the declared enemy of Karl Marx. Illuminating the mysterious nature of Hegel's relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last fifteen years since the original publication of *Hegel and Marx* in 1998.

**Hannah Arendt and Participatory Democracy** Shmuel Lederman, 2019-03-13 This book centers on a relatively neglected theme in the scholarly literature on Hannah Arendt: her support for a new form of government in which citizen councils would replace contemporary representative democracy and allow citizens to participate directly in decision making in the public sphere. The main argument of the book is that the council system or more broadly the vision of participatory democracy was far more important to Arendt than is commonly understood. Seeking to demonstrate the close links between the council system and Arendt

advocated and other major themes in her work the book focuses particularly on her critique of the nation state and her call for a new international order in which human dignity and the right to have rights will be guaranteed her conception of the political and the conditions that can make this experience possible the relationship between philosophy and politics and the challenge of political judgement in the modern world      **Hannah Arendt and the Law** Marco Goldoni,Chris

McCorkindale,2012-04-20 This book fills a major gap in the ever increasing secondary literature on Hannah Arendt s political thought by providing a dedicated and coherent treatment of the many various and interesting things which Arendt had to say about law Often obscured by more pressing or more controversial aspects of her work Arendt nonetheless had interesting insights into Greek and Roman concepts of law human rights constitutional design legislation sovereignty international tribunals judicial review and much more This book retrieves these aspects of her legal philosophy for the attention of both Arendt scholars and lawyers alike The book brings together lawyers as well as Arendt scholars drawn from a range of disciplines philosophy political science international relations who have engaged in an internal debate the dynamism of which is captured in print Following the editors introduction the book is split into four Parts Part I explores the concept of law in Arendt s thought Part II explores legal aspects of Arendt s constitutional thought first locating Arendt in the wider tradition of republican constitutionalism before turning attention to the role of courts and the role of parliament in her constitutional design In Part III Arendt s thought on international law is explored from a variety of perspectives covering international institutions and international criminal law as well as the theoretical foundations of international law Part IV debates the foundations content and meaning of Arendt s famous and influential claim that the right to have rights is the one true human right      *Legal and Ethical Retributivism* Halil Cesur,2025-07-31 This book explores a foundational philosophical tension in contemporary retributivism revealing ambiguities in its approach to punishment between two conflicting conceptions of restoration legal justice and ethical love Through an analysis of the three parties involved in a crime the victim the offender and the state it argues that neo retributivism has not sufficiently incorporated the ethical face of punishment into its theoretical framework The pull of legal justice is often so strong that the voice of ethical love is silenced neo retributivism is at an impasse To navigate this the book engages with contemporary critical criminal justice scholarship introducing the ideal of loving justice while highlighting an unresolved tension between penal reformism and abolitionism The book will be of interest to academicians and researchers working in the areas of philosophy of punishment criminal law theory criminal justice restorative justice philosophy of law political philosophy and Hegel scholarship      **Marxism,**

**Orientalism, Cosmopolitanism** Gilbert Achcar,2013-08-08 In this collection of essays Gilbert Achcar examines the controversial relationship of Marxism to religion to Orientalism and its critique by Edward Said and to the concept of cosmopolitanism A compelling range of issues is discussed within these pages including a comparative assessment of Christian liberation theology and Islamic fundamentalism Orientalism in reverse which can take the form of an apology for

Islamic fundamentalism the evolution of Marx's appraisal of non Western societies and the vagaries of cosmopolitanism up to our present era of globalisation Erudite and incisive these essays provide a major contribution to the critical discussion of Marxism Orientalism and cosmopolitanism and illuminate the relationships between all three *Hannah Arendt and Cosmopolitanism* Angela Taraborrelli, 2024-09-05 Hannah Arendt and Cosmopolitanism presents the first comprehensive study of Hannah Arendt's cosmopolitanism Challenging the common belief that cosmopolitanism is a negligible or incompatible element of Arendt's thought it unpacks various key elements of her philosophy such as her critique of human rights the defence of the right to have rights as a right to belong to a particular political community the scepticism towards the establishment of a world government as a solution to the problem of statelessness and the importance she attached to the passport Through this the text argues that Arendt is a theorist of cosmopolitanism in her own right by reconstructing as systematically as possible an issue that is relatively neglected in the secondary literature Taraborrelli shows how Arendt anticipates and develops cosmopolitanism in four main forms moral political institutional judicial cultural and how in her thought there is no insuperable contradiction between cosmopolitanism and belonging to a political community or between cosmopolitanism and the conditions of political action *Arendt's Judgment* Jonathan Peter Schwartz, 2016-06-13 In Arendt's Judgment Freedom Responsibility Citizenship Jonathan Peter Schwartz claims that Arendt's theory of political judgment formed the core of her political thought and that understanding it correctly makes it possible to grasp the systematic thread that runs through her diverse body of work **From Radical Marxism to Knowledge Socialism** Michael A. Peters, Liz Jackson, 2021-12-22 This volume examines the place of Marxist theory in the history of the journal Educational Philosophy and Theory primarily through the selection and exploration of typical and significant articles exploring Marxist related themes in the journal over time The title From Radical Marxism to Knowledge Socialism reflects this historical approach In the 1960s and 1970s Marxism was considered to be a radical extreme political theory while western liberalism and a free market economy were largely taken for granted as natural phenomena in western philosophy of education and in the journal More recently educational theorists have begun to explore trends related to the neoliberal age Paradoxically such trends include the move toward knowledge socialism which decenters the normative presuppositions of knowledge capitalism as the latest iteration of western liberalism The volume begins with an introductory chapter that examines the history of Marxism in western philosophy and philosophy of education The rest of the book features works selected from the journal that further illustrate the evolution of Marxist theoretical perspectives in the field over time This collection thus gives a sense of the range and extent of Marxist inspired thinking in educational philosophy and theory This book will be of interest to students and scholars of educational philosophy and theory and others who are interested in exploring in depth the evolution of key themes in this field over time including liberalism ideology Marxism neoliberalism knowledge construction capitalist and socialist schooling and other aspects of economic analysis in education **Global Democracy and Exclusion** Ronald

Tinnevelt, Helder De Schutter, 2011-07-12 The essays in this book explore the consequences of globalization for democracy covering issues which include whether democracy implies exclusion or borders and whether it is possible to create a democracy on a global level Explores the consequences of globalization for democracy Discusses whether democracy implies exclusion or boundaries Makes sense of democracy and human rights in a globalizing world Investigates what kind of common identity can and should support forms of global democracy Presents a state of the art analysis of the foundations of global democracy

The Crisis Paradigm Andrew Simon Gilbert, 2019-05-28 This book examines how 20th century theorists have used a discourse of crisis to frame their conceptualizations of modernity Through an investigation of four key thinkers Georg Lukács Hannah Arendt Reinhart Koselleck and Jürgen Habermas Gilbert argues that scholars in the social sciences and humanities should be cautious of treating crises as explananda for research Instead the book calls for sociological analysis of the role of crisis within social scientific discourse and examines how crisis has been used as a conceptual frame for legitimating theoretical agendas Gilbert's sociology of concepts approach presents crisis as a paradigm of modern thought and more generally reflects on how concepts can become the carriers of diverse intellectual traditions and debates The Crisis Paradigm will be of interest to students and scholars of social and critical theory politics sociology and history as well as those working in the fields of media studies communication and discourse analysis

*Antisemitism and the Constitution of Sociology* Marcel Stoetzler, 2014-07-01 Modern antisemitism and the modern discipline of sociology not only emerged in the same period but antagonism and hostility between the two discourses notwithstanding also overlapped and complemented each other Sociology emerged in a society where modernization was often perceived as destroying unity and social cohesion Antisemitism was likewise a response to the modern age offering in its vilifications of the Jew an explanation of society's deficiencies and crises *Antisemitism and the Constitution of Sociology* is a collection of twelve essays providing a comparative analysis of modern antisemitism and the rise of sociology This volume addresses three key areas the strong influence of writers of Jewish background and the rising tide of antisemitism on the formation of sociology the role of antisemitism in the historical development of sociology through its treatment by leading figures in the field such as Emile Durkheim Talcott Parsons and Theodor W Adorno and the discipline's development in the aftermath of the Nazi Holocaust Together the essays provide a fresh perspective on the history of sociology and the role that antisemitism Jews fascism and the Holocaust played in shaping modern social theory

**Private Law and Human Rights** Elspeth Reid, 2013-06-24 A comparative investigation into the revolution in private law in the era of human rights Scotland and South Africa are mixed jurisdictions combining features of common law and civil law traditions Over the last decade a shared feature in both Scotland and South Africa has been a new and intense focus on human rights In Scotland the European Convention on Human Rights now constitutes an important element in the foundation of all domestic law Similarly the Constitution of the Republic of South Africa adopted in 1996 has as its cornerstone a Bill of Rights that binds not only the legislature the executive the judiciary and all organs of state but also private parties Of course the constitutional moments from which these documents sprang were very different and the Scottish and South African experience in some aspects could not be more dissimilar Yet in many respects the parallels are close and compelling This book written by experts from both jurisdictions examines exactly how human rights provisions influence private law looking at all branches of the subject Moreover it gives a unique perspective by comparing the approach in these kindred legal systems thus providing a benchmark for both

**Human Rights, Islam and the Failure of Cosmopolitanism** June Edmunds, 2017-05-12 Cosmopolitanism as an intellectual and political project has failed The portrayal of human rights especially European as evidence of cosmopolitanism in practice is misguided Cosmopolitan theorists point to the rise of claims making to the European Court of Human Rights ECtHR among Europe's Muslims to protect their right to religious freedom mainly concerning the hijab as evidence of cosmopolitan justice However the outcomes of such claims making show that far from signifying a cosmopolitan moment European human rights law has failed Europe's Muslims Human Rights Islam and the Failure of Cosmopolitanism provides an empirical examination of claims making and government policy in Western Europe focusing mainly on developments in the

UK Germany France Italy and the Netherlands A consideration of public debates and European law of conduct in the public sphere shows that cosmopolitan optimism has misjudged the magnitude of the impact claims making among Europe s Muslims To overcome this cul de sac European Muslims should turn to a new politics of rights to pursue their right to religious expression This book is a theoretically challenging re evaluation of cosmopolitan arguments through a rigorous discussion of rights making claims by Europe s Muslims to the European Court of Human Rights It combines sociological and legal case analysis which advances understanding of one of the most pressing topical issues of the day Hegel and Global Justice Andrew Buchwalter,2012-05-02 Hegel and Global Justice details the relevance of the thought of G W F Hegel for the burgeoning academic discussions of the topic of global justice Against the conventional view that Hegel has little constructive to offer to these discussions this collection drawing on the expertise of distinguished Hegel scholars and internationally recognized political and social theorists explicates the contribution both of Hegel himself and his dialectical method to the analysis and understanding of a wide range of topics associated with the concept of global justice construed very broadly These topics include universal human rights cosmopolitanism and cosmopolitan justice transnationalism international law global interculturality a global poverty cosmopolitan citizenship global governance a global public sphere a global ethos and a global notion of collective self identity Attention is also accorded the value of Hegel s account of mutual recognition for analysing themes in global justice both as regards the politics of recognition at the global level and the conditions for a general account of relations of people and persons under conditions of globalization In exploring these and related themes the authors of this book regularly compare Hegel to others who have contributed to the discourse on global justice including Kant Marx Rawls Habermas Singer Pogge Nussbaum Appiah and David Miller **The Aesthetics of Free Speech** J. Roberts,2003-12-09 The Aesthetics of Free Speech Rethinking the Public Sphere is one of the first books to theoretically explore the relationship between free speech and the public sphere By drawing upon Marxist theory the author John Michael Roberts demonstrates how liberal theorists frequently construct an abstract aesthetic of rational cultivated and competent discussion which then serves as a norm through which certain utterances can be humiliated and excluded from participating fully within the public sphere However the author also shows how excluded utterances develop their own aesthetic of free speech and how this aesthetic then comes back to haunt the bourgeois public sphere **Gramsci and Educational Thought** Peter Mayo,2010-03-19 Through a series of writings from international scholars Gramsci and Educational Thought pays tribute to the educational influence of Antonio Gramsci considered one of the greatest social thinkers and political theorists of the 20th century Represents sound social theory and a broad application and reinvention of Gramsci s ideas Covers important areas such as language and education community education and social work education Features perspectives from different geographical contexts **Fifty Major Philosophers** Kathryn Plant,Diane Collinson,2007-01-24 A comprehensive update of the best selling first edition this revitalized new text presents readers with a series of clear well

written entries focusing on fifty of the most influential philosophers from the last two thousand years Chosen to present the traditional mainstream of European philosophy the text also provides a critical survey that meets the needs of readers seeking a broad basic understanding as well as a foundation for further philosophical enquiry Encompassing a wide range of ancient medieval and modern philosophers features of the second edition include new entries on Dewey Collingwood Popper Quine Merleau Ponty Ayer and Rawls a thorough revision of existing entries a complete update of the further reading section an expanded glossary the addition of an alphabetical table of contents and an index for ease of use Authoritative and highly readable this book is a vital reference tool for all those wishing to improve their understanding of some of the world s most fascinating intellectual figures
