 Index of Proper Nouns **The SAGE Handbook of Political Communication** Holli A Semetko, Margaret Scammell, 2012-04-03
 This authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state of the art review that sets the agenda for future study. It is divided into five sections. Part One explores the macro level influences on political communication such as the media industry, new media technology and political systems. Part Two takes a grassroots perspective of the influences of social networks, real and online, on political communication. Part Three discusses methodological advances in political communication research. Part Four focuses on power and how it is conceptualized in political communication. Part Five provides an international, regional and comparative understanding of political communication in its various contexts. *The SAGE Handbook of Political Communication* is an essential benchmark publication for advanced students, researchers and practitioners in the fields of politics, media and communication, sociology and research methods. *The Internet and European Parliamentary Democracy* Xiudian Dai, Philip Norton, 2013-09-13
 This book investigates the ethical challenges the internet presents to contemporary parliamentary democracy in Europe and how these challenges are being addressed. It fills an important gap: current literature until now has largely focused on the study of internet usage by politicians and institutions. With the ever widening scope of participation in internet based communication, there are widely differing views on its potential social, economic and political impact and whether parliamentary democracy will be strengthened or weakened in the information age. Key questions include: To what extent is the internet being used in parliamentary political communication? the ethics of behaviour: Should there be any institutional control and monitoring of parliamentarians' use of the internet? the ethics of code of conduct: What impact does the internet have upon the principle of trust and transparency in the context of parliamentary democracy? the ethics of accountability. The book compares four European parliaments: the British, European, Portuguese and Swedish Parliaments, using both quantitative methods (questionnaires and survey of websites) and qualitative methods (workshops and face to face interviews with parliamentarians and parliamentary staff). This book was previously published as a special issue of the *Journal of Legislative Studies*. **The Routledge Handbook of Elections, Voting Behavior and Public Opinion** Justin Fisher, Edward Fieldhouse, Mark N. Franklin, Rachel Gibson, Marta Cantijoch, Christopher Wlezien, 2017-09-22
 The study of elections, voting behavior and public opinion are arguably among the most prominent and intensively researched sub-fields

within Political Science It is an evolving sub field both in terms of theoretical focus and in particular technical developments and has made a considerable impact on popular understanding of the core components of liberal democracies in terms of electoral systems and outcomes changes in public opinion and the aggregation of interests This handbook details the key developments and state of the art research across elections voting behavior and the public opinion by providing both an advanced overview of each core area and engaging in debate about the relative merits of differing approaches in a comprehensive and accessible way Bringing geographical scope and depth with comparative chapters that draw on material from across the globe it will be a key reference point both for advanced level students and researchers developing knowledge and producing new material in these sub fields and beyond The Routledge Handbook of Elections Voting Behavior and Public Opinion is an authoritative and key reference text for students academics and researchers engaged in the study of electoral research public opinion and voting behavior Social Media Campaigning in Europe Darren G. Lilleker, Karolina

Koc-Michalska, Ralph Negrine, Rachel Gibson, Thierry Vedel, Sylvie Strudel, 2020-06-04 Studies of election campaigns have shown an increased employment of websites weblog tools email and social media by political campaigners as well as the use of similar platforms by citizens to find information communicate about elections or engage more generally in political issues This comprehensive volume explores the ways in which social media is used on the one hand as a campaigning tool and on the other by local citizens It aims to develop a more holistic and Eurocentric research agenda by capturing both supply and demand practices at the European level The authors employ both single and multination case studies furthering debates on how political actors and voters embrace the new information and communication environment in what ways and for what purposes The book offers new perspectives on social media campaigning within European democracies thereby contributing to a more global and comprehensive understanding of how campaigning is affected and might be enhanced by developing an interactive digital strategy This book will be of great interest to students of both politics and media studies It was originally published as a special issue of the Journal of Information Technology Politics Routledge Handbook of Internet Politics
