Winning the Battle Against Prostate Cancer Gerald Chodak, 2010-12-07 Prostate cancer is the second most common cancer in men with almost 200 000 new cases being diagnosed each year Today increasing numbers of men and their families play a more active role in their treatment and the results can be seen in the increase of men who survive prostate cancer Yet each year over 27 000 men die from prostate cancer This makes prostate cancer the second leading cause of cancer death in men behind lung cancer The range of controversial therapies and treatments for prostate cancer is greater than that of any other cancer affecting men This makes it difficult for men and their families to determine what are the best options available Rarely do doctors agree on which treatment a patient should receive or when they should receive it And many of the current books on prostate cancer suffer from considerable bias promoting one treatment over another without good scientific evidence Winning the Battle Against Prostate Cancer resolves the problem of contradictory and incomplete information The book is an unbiased and up to date look at prostate cancer treatments and therapies Dr Chodak lays out the pros and cons of all reasonable treatment options including the chances that a man may have a good result or develop side effects or complications Equally important Dr Chodak recognizes that men and their families need more than just the facts They are concerned not only with their survival but also what life will be like after treatment Winning the Battle Against Prostate Cancer offers empathetic insight into the impact of the disease on day to day activities so that patients and family members have a clear understanding of what lies ahead and what options are available should complications arise The book does not gloss over the controversies but presents them in a clear concise easy to understand manner

Survive and Advance; My Cancer Battle, Fought One Laugh at a Time Steve Abbott, 2024-08-15 Steve s prostate cancer diagnosis came in July 2013 It s estimated that nearly 300 000 cases of prostate cancer were diagnosed in the US in 2023 which makes it the most common cancer among men after skin cancer Typically low risk 97% of those diagnosed with prostate cancer survive 15 years after diagnosis But in Steve s case despite immediate surgery it s been anything but low risk Following surgery nearly eleven years ago at this writing Steve has remained in continuous treatment He s experienced the prayerful anticipation of countless experimental drug trials only to be followed by the crushing disappointment of dismal results At his side through it all has been his lovely wife Diana a cancer survivor herself Few people can write about cancer with humor Let alone LOL humor Steve has managed to transform his cancer journey into an entertaining trip through pop culture Using movie lines Hey brother can you spare 66 515 and song lyrics Go back Jack do it again Steve writes with self effacing wit Not an easy task to address a subject as serious as cancer

especially his own His experiences will no doubt clear a path for countless cancer patients and not just prostate cancer Recently Steve received the Caesar Blevins Warrior Award from ZERO Prostate Cancer in Washington D C He was also named an Unsung Hero by Cancer Family Care and Nonprofit Executive Director of the Year by Medical Mutual In February 2024 Steve spoke on cancer survivorship to more than 1 000 pharmaceutical industry representatives in Orlando

outdated poor bastard with cancer syndrome Finally it totals up some interesting things such as number of needle sticks hours in an IV chair CT and PET scans bone marrow extractions and the amount of money that the disease has cost so far billed versus paid It is also a legacy book in that it tells many of the unforgettable lessons learned while growing up in a blue collar sports minded neighborhood in the guts of Philadelphia It tells about a dad with two very separate and distinct personalities one a very bad drunk dad and one an outstanding good dad and a perfect mother loving to the very end It outlines the authors two older brothers and two younger sisters and their important roles in the family a strong one to this day all of whom volunteered to be stem cell donors It describes the authors wives warmth understanding and stoic battle alongside of her husband Above all this is a good news book one which is intended to inform as well as bring a few knowledgeable smiles to those who have been through similar experiences and even bigger smiles to those who havent
