E. Hawkesworth, Maurice Kogan, 2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **Boom Town Blues: Elliot Lake** Anne-Marie Mawhiney, Jane Pitblado, 1999-09-01 Boom Town Blues Collapse and Revival in a Single Industry Community tells of the Northern Ontario city of Elliot Lake once the uranium capital of the world which was devastated by the closing of the uranium mines operated by Denison and Rio Algom The closures and mass layoffs were first announced in 1990 with the layoffs occurring from then until June 1996 Throughout the period after the layoffs were announced several major research projects were undertaken One the Elliot Lake Tracking and Adjustment Study follows approximately 1 000 of the laid off miners and 530 of their spouses through their adjustment processes Another the Seniors Needs Assessment examines the

human resource and service needs of the increasing numbers of seniors moving to Elliot Lake as part of the community's economic strategy. In addition to these social scientific studies, several land and environmental reclamation research projects have been undertaken. *Boom Town Blues: Collapse and Revival in a Single Industry Community* tells the reader about the results of these studies and gives a variety of community-based perspectives on the Elliot Lake story. The book highlights the struggles and successes of families and of the community as a whole. *Boom Town Blues* is about one community's struggle to survive to shift its economic base from mining to one where retirement living for seniors, mine decommissioning, and a community-based research facility would be among several economic survival strategies. The book is of interest to readers throughout Northern Ontario and indeed wherever single industry towns are threatened by major shifting in their economic base and are struggling to survive. The book also provides an excellent case study for teachers, students, policy makers, and politicians.

Innovative Measurement and Evaluation of Community Development Practices Norman Walzer, Jane Leonard, Mary Emery, 2017-10-02. Finding innovative and useful measurement practices for community development projects is gaining in importance as policymakers increase the demands for accountability. This book examines some of the latest efforts to document the effectiveness of local development efforts. The types of documentation differ by types of project, jurisdiction, and country, but they have a common focus of recognizing the importance of the Community Capitals framework. Public agencies in the past have often measured development successes by the number of jobs created and/or amount of private investment forthcoming. However, the impacts of community development reach much deeper than those indicators. Strengthening local decision-making capacity is a common component of development efforts, as is engaging populations that in the past have not been active in decision-making. These and other considerations are explored in more detail by authors in this volume. Local policymakers and practitioners will be continually pressured to provide more documentation of outcomes, and readers will gain considerable insights into alternative approaches that can be included in projects but can also see the common elements needed to create a solid measurement system. International insights are a special strength of the discussions in this book. This book was published as a special issue of *Community Development*.

Social Network Analysis of Disaster Response, Recovery, and Adaptation Eric C. Jones, A.J. Faas, 2016-09-09. *Social Network Analysis of Disaster Response, Recovery, and Adaptation* covers systematic social network analysis and how people and institutions function in disasters, after disasters, and the ways they adapt to hazard settings. As hazards become disasters, the opportunities and constraints for maintaining a safe and secure life and livelihood become too strained for many people. Anecdotally and through many case studies, we know that social interactions exacerbate or mitigate those strains, necessitating a concerted intellectual effort to understand the variation in how ties within and outside communities respond and are affected by hazards and disasters. Examines the role of societal relationships in a disaster context, incorporating theory and case studies by experts in the field. Integrates research in the areas of social network analysis and inter-organizational networks. Presents

a range of studies from around the world employing different approaches to network analysis in disaster contexts **Public Papers of the Presidents of the United States** United States.
