Professional Education, Capabilities and the Public Good Melanie Walker, Monica McLean, 2013-10-01 This book innovatively explores how universities might be engines of reform and be directed towards social change Using rich case studies drawn from South African research the book comprehensively provides a myriad of new perspectives on what constitutes a set of appropriate public good professional capabilities that will translate successfully into contributions to human development It challenges universities to produce professionals who have the knowledge skills and values to improve the lives of people living in poverty in urban and rural settings It covers issues such as Conceptualising Public Good Professionalism Global Issues and Professional Education South African Debates about Higher Education Institutional conditions and professional education arrangements Social Constraints on educating ethically aware public professionals By drawing on an approach that focuses on differing public good professional capabilities in five professions this book produces a crucial new framework for the preparation of professionals relevant to the global study of higher education policy It expands higher education s contribution to global social justice beyond a concern with human capital administering a challenge to higher education internationally to address human development in the 21st century This

book will be of great interest to all scholars of higher education involved in higher education studies comparative education and development studies It will also prove valuable to policy makers higher education leaders and lecturers and graduate professionals in diverse organizations

From Education to Life Santiago Sia,2019-01-03 This book contributes to ongoing discussions on the important role of education and on the challenging tasks facing educators today Drawing on their long vast and varied experience as educators administrators and scholars the authors deal specifically with certain fundamental issues with a view to engaging those involved in education in an examination of what underlies educational theory and practice The book shows that education is not simply about attending school academic institutions or any other establishment of learning or training but rather is a process that looks further than the time spent learning lessons attending lectures doing research acquiring knowledge honing skills or developing competence important and crucial as these activities are to human development Its greatest challenge and purpose come instead from life itself For this reason this book is about education as preparing us to live a more fulfilled life and as a process that lasts a lifetime All those involved in education at all stages and in various capacities will find this book both beneficial and engaging

Family Engagement in Black Students' Academic Success Vilma Seeborg,2021-03-15 This timely volume presents powerful stories told by Black families and students who have successfully negotiated a racially fraught affluent and diverse suburban school district in America to illustrate how they have strategically contested sanctioned racist practices and forged a path for students to achieve a high quality education Drawing on rich qualitative data collected through interviews and interactions with parents and kin students community activists and educators Family Engagement in Black Students Academic Success chronicles how pride in Black American family history and values students personal capabilities and their often collective proactive challenges to systemic and personal racism shape students academic engagement Familial and collective cultural wealth of the Black community emerges as a central driver in students successful achievement Finally the text puts forward key recommendations to demonstrate how incorporating the knowledge and voices of Black families in school decision making remaining critically conscious of race and racial history in everyday actions and longer term policy and pursuing collective strategies for social justice in education will help eliminate current opportunity gaps and will counteract the master narrative of underachievement ever present in America This volume will be of interest to students scholars and academics with an interest in matters of social justice equity and equality of opportunity in education for Black Americans In addition the text offers key insights for school authorities in building effective working relationships with Black American families to support the high achievement of Black students in K 12 education

Handbook of Research on Educational Leadership for Equity and Diversity Linda C. Tillman,James Joseph Scheurich,2013-08-21 The rapid growth of diversity within U S schooling and the heightened attention to the lack of equity in student achievement school completion and postsecondary attendance has made equity and diversity two of the principle issues in education educational leadership and educational leadership

research The Handbook of Research on Educational Leadership for Equity and Diversity is the first research based handbook that comprehensively addresses the broad diversity in U S schools by race ethnicity culture language gender disability sexual identity and class The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking biases and prejudices that undermine school success for many groups of students Well known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders Each chapter reviews theoretical and empirical evidence of these inequities and provides research based recommendations for practice and for future research Celebrating the broad diversity in U S schools the Handbook of Research on Educational Leadership for Equity and Diversity critiques the inequities connected to that diversity and provides evidence based practices to promote student success for all children

The Lisbon Recognition Convention at 15: making fair recognition a reality Sjur Bergan,Carita Blomqvist,2014-05-13 The Lisbon Recognition Convention developed by the Council of Europe and UNESCO is the main international legal text on the international recognition of qualifications and has been ratified by more than 50 countries Few Council of Europe conventions have achieved a greater number of ratifications and the political importance of the Lisbon Recognition Convention is very considerable The recognition of qualifications is a necessary if not sufficient condition for both student and labour mobility To mark the 15th anniversary of the convention this book examines some of the challenges to the international recognition of qualifications The convention is an essential legal text but it needs to be put into better practice How can learners use their degrees and qualifications in a new country without losing the real value of those qualifications The authors who come from a variety of backgrounds review the policies and practice of recognition link recognition to the broader higher education policy debate and consider the role of recognition in enabling individuals to move freely across borders

Motivation in Public Management James L. Perry,Annie Hondegghem,2008-05-15 Motivation in Public Management The Call of Public Service joins a long standing debate about what drives the behavior of government employees and others who are engaged in the public s business For many centuries public service was considered a noble calling and more recently a profession During the latter part of the 20th century however many scholars called into question both the reality and desirability of a public service ethic This book draws upon a substantial and growing body of evidence from across disciplines in the social behavioral and natural sciences

It asks and answers key questions about the extent to which behavior is fundamentally self or other regarding To paraphrase James Madison public servants are not angels but neither are they self aggrandizing opportunists The evidence presented in this volume offers a compelling case that motivation theory should be grounded not only in rational choice models but altruistic and prosocial perspectives as well In addition to reviewing evidence from many disciplines the volume extensively reviews research in public management conducted under the rubric of public service motivation The volume is a comprehensive guide to history methodology empirical research and institutional and managerial implications of research on public service motivation As the contributors illustrate the implications transcend particular sectors or countries
