Public Schools In Hard Times The Great Depression And Recent Years Paperback:

Schools In Great Depression Dominic W Moreo,2021-12-12 First Published in 1996 The Great Depression was not a seamless web of human experience Disparate images of highs and lows in daily individual experiences proliferated This study is a modest attempt to delineate the effects of the Great Depression upon the schools For the most part the voices of this work are drawn from the press and periodicals of the times On one level this work is concerned with the coming of the Depression and its effects upon the schools It is a tale worth telling **Public Schools in Hard Times** David B.

Tyack,Robert Lowe,Elisabeth Hansot,1984 In the first social history of what happened to public schools in those years of the locust the authors explore the daily experience of schoolchildren in many kinds of communities the public school students of working class northeastern towns the rural black children of the South the prosperous adolescents of midwestern suburbs How did educators respond to the fiscal crisis and why did Americans retain their faith in public schooling during the cataclysm The authors examine how New Dealers regarded public education and the reaction of public school people to the distinctive New Deal style in programs such as the National Youth Administration They illustrate the story with photographs cartoons and vignettes of life behind the schoolhouse door Moving from that troubled period to our own the authors compare the anxieties of the depression decade with the uncertainties of the 1970s and 1980s Heirs to an optimistic tradition and trained to manage growth school staff have lately encountered three shortages of pupils money and public confidence Professional morale has dropped as expectations and criticism have mounted Changes in the governing and financing of education have made planning for the future even riskier than usual Drawing on the experience of the 1930s to illuminate the problems of the 1980s the authors lend historical perspective to current discussions about the future of public education They stress the basic stability of public education while emphasizing the unfinished business of achieving equality in schooling Education & the Great Depression David Hicks,2006 Education and the Great Depression Lessons from a

Global History examines the history of schools in terms of pedagogies curricula policies and practices at the point of intersection with worldwide patterns of economic crisis political instability and social transformation Examining the Great Depression in the historical contexts of Egypt Turkey Germany Brazil and New Zealand and in the regional contexts of the United States including Virginia New York City Cleveland Chicago and South Carolina this collection broadens our understanding of the scope of this crisis while also locating more familiar American examples in a global framework

American Catholic Schools in the Twentieth Century Ann Marie Ryan,2022-02-21 This book examines how Catholic educators grappled with public educational policies and reforms like standardization and accreditation educational measurement and testing and federal funding for schools during the early to mid twentieth century These issues elicited an array of reactions including resistance cooperation and co optation American Catholics had established one of the largest private educational organizations in the United States by the twentieth century It rivaled only that of the public school

system At mid century Catholic schools enrolled some 12 percent of the American school age population and their enrollments grew in number through the 1960s The Catholic Church s lobbying arm the National Catholic Welfare Conference NCWC used its well earned stature to push for federal funds for students attending their schools The NCWC succeeded in securing funds with the Elementary and Secondary Education Act of 1965 for students needing special education services and students living in poverty attending Catholic schools This signified a major shift in American education policy Despite this radical change Catholic schools lost significant enrollment over the next several decades to public private and newly minted public charter schools Catholic schools faced an increasingly competitive landscape in an ever expanding school choice environment that they helped create

Leaders in the Historical Study of American Education Wayne J. Urban, 2012-01-01 This volume consists of twenty six autobiographical essays by leading historians of American education which document the enormous variety of paths taken to get into this field A companion to earlier volumes on philosophy of education and curriculum studies the historians in this volume reflect a wide variety of interests that underlay accomplishment in this scholarly field They come from diverse backgrounds that have animated their scholarly careers in compelling ways Readers in any variety of educational or historical study should learn from this volume how unplanned careers can still result in highly successful sets of accomplishments That realization is a tribute both to the individual contributors and to the great attractiveness of educational history to committed scholars of various backgrounds and orientations

The Rise and Fall of an Urban School System Jeffrey Mirel, 1999 The updated edition of the difficulties faced by the Detroit public schools and the historical reasons that led to the present situation

Newcomb College, 1886-2006 Susan Tucker, Beth Willinger, 2012-05-07 In 1886 Josephine Louise Newcomb donated funds to Tulane University for the founding of the H Sophie Newcomb Memorial College Her contribution created the nation s first degree granting coordinate college for women For more than a century Newcomb College educated thousands of young women in the liberal arts and sciences preparing them for positions in the civic and economic world of New Orleans and the South Newcomb College 1886 2006 explores the rich history and tradition of the college through a diverse and multidisciplinary collection of essays Early chapters focus on the life of Josephine Louise Newcomb and her desire to memorialize her daughter Sophie as well as the development of student culture in the Progressive Era Several essays explore the staples of a Newcomb education from its acclaimed pottery and junior year abroad programs to lesser known but trailblazing work in physical education and chemistry Concluding biographical and autobiographical chapters recount the lives of distinguished alumnae and the personal memories of Newcomb s influence on New Orleans The essays offer insight into the work of artists Caroline Wogan Durieux and Ida Kohlmeyer education reformer Sarah Towles Reed U S representative Lindy Boggs and other Newcomb leaders in various fields Throughout the book contributors reflect on the curriculum pedagogy and alliances that created paths for students not only for advanced studies but also for their roles as friends wives mothers reformers and professionals

Touching on three centuries the book concludes in 2006 when Tulane University closed Newcomb College and Paul Tulane College the arts and sciences college for men and united the two as Newcomb Tulane College This absorbing collection offers both a scholarly history and an affectionate tribute to a Newcomb education **The Struggle for the History of**

Education Gary McCulloch,2011-02-25 In *The Struggle for History Education* Gary McCulloch sets out a vision for a future of study in the history of education which contributes to education history and social sciences alike *Dear Mrs. Roosevelt*

Robert Cohen,2003-10-16 Impoverished young Americans had no greater champion during the Depression than Eleanor Roosevelt As First Lady Mrs Roosevelt used her newspaper columns and radio broadcasts to crusade for expanded federal aid to poor children and teens She was the most visible spokesperson for the National Youth Administration the New Deal s central agency for aiding needy youths and she was adamant in insisting that federal aid to young people be administered without discrimination so that it reached blacks as well as whites girls as well as boys This activism made Mrs Roosevelt a beloved figure among poor teens and children who between 1933 and 1941 wrote her thousands of letters describing their problems and requesting her help *Dear Mrs Roosevelt* presents nearly 200 of these extraordinary documents to open a window into the lives of the Depression s youngest victims In their own words the letter writers confide what it was like to be needy and young during the worst economic crisis in American history Revealing both the strengths and the limitations of New Deal liberalism this book depicts an administration concerned and caring enough to elicit such moving appeals for help yet unable to respond in the very personal ways the letter writers hoped Reading in History Bonnie

Gunzenhauser,2015-10-06 A collection of essays that offer a methodological framework for the history of reading Focusing on a specific historical moment it gathers statistics about such issues as literacy rates library subscriptions publication and sales figures and print runs to answer questions about what was being read and by whom in a particular place and time The

New Encyclopedia of Southern Culture Clarence L. Mohr,2011-05-16 Offering a broad up to date reference to the long history and cultural legacy of education in the American South this timely volume of *The New Encyclopedia of Southern Culture* surveys educational developments practices institutions and politics from the colonial era to the present With over 130 articles this book covers key topics in education including academic freedom the effects of urbanization on segregation desegregation and resegregation African American and women s education and illiteracy These entries as well as articles on prominent educators such as Booker T Washington and C Vann Woodward and major southern universities colleges and trade schools provide an essential context for understanding the debates and battles that remain deeply imbedded in southern education Framed by Clarence Mohr s historically rich introductory overview the essays in this volume comprise a greatly expanded and thoroughly updated survey of the shifting southern education landscape and its development over the span of four centuries *Whose America?* Jonathan Zimmerman,2022-08-26 In this expanded edition of his 2002 book Zimmerman

surveys how battles over public education have become conflicts at the heart of American national identity *Critical Race*

Theory The 1619 Project Mask mandates As the headlines remind us American public education is still wracked by culture wars But these conflicts have shifted sharply over the past two decades from religious issues to national ones marking larger changes in the ways that Americans imagine themselves From the Scopes Trial over evolution in the 1920s through battles over school prayer in the 80s and 90s the twentieth century's bitterest school battles were tied to questions of faith By contrast America forged truces over history instruction by adding new groups to a shared patriotic story of freedom and progress Jonathan Zimmerman forecast as much in his 2002 book *Whose America* Twenty years later though Zimmerman has reconsidered arguments over what American history is what it means and how it is taught have exploded with special force in recent years whether over Confederate monuments the naming of buildings and institutions or the very definition of patriotism In this substantially expanded new edition Zimmerman meditates on the history of the culture wars in the classroom and on what our inability to find common ground might mean for our future *New Perspectives on the History of the Twentieth-Century American High School* Kyle P. Steele, 2021-11-07 The growth of the American high school that occurred in the twentieth century is among the most remarkable educational social and cultural phenomena of the twentieth century The history of education however has often reduced the institution to its educational function alone thus missing its significantly broader importance As a corrective this collection of essays serves four ends as an introduction to the history of the high school as a reevaluation of the power of narratives that privilege the perspective of school leaders and the curriculum as a glimpse into the worlds created by students and their communities and most critically as a means of sparking conversations about where we might look next for stories worth telling *Public Engagement for Public Education* Marion Orr, John Rogers, 2011 This volume examines the ways youth parents community members and civic leaders join forces to improve public education Foundations of Education Samuel M. Craver, Maïke Ingrid Philipsen, 2011-06-30 *Foundations of Education* is organized around the major problems facing contemporary American education It offers a thorough scholarly treatment of these problems from historical philosophical and sociological perspectives bringing together relevant findings from those disciplines to analyze and illuminate a wide range of issues Each chapter focuses on a core topic including race gender equal opportunities school governance to give students a solid overview providing intellectually sound material that offers real depth and challenges students to think creatively Packed with exercises discussion questions international case studies for comparative purposes and supported by a fully up to date companion website this is a text that responds to current developments changes and trends in teacher education *Foundations of Education* will prepare a new generation of educators for a globalized and technology driven society that needs to be aware of its best educational traditions its current problems and its future possibilities Identity and Inner-City Youth Shirley Brice Heath, Milbrey McLaughlin, 1993 What do effective youth organizations offer inner city youngsters that schools do not This book suggests that educators can learn much from inner city social and youth organizations which reach at risk youngsters by developing a sense of family that many

of them fail to get at home Addressing a variety of issues collaboration across organizations the role of gangs in social control the historical roles of ethnicity and gender in youth organizations Heath and McLaughlin describe frames for identity that extend beyond ethnicity and gender

To Get a Better School System Gene B. Preuss, 2009 Gene B Preuss examines not only the public policy wrangling and historical context leading up to and surrounding the Gilmer Akin legislation but also places the discussion in the milieu of the national movement for school reform

Education and Learning in America Catherine Reef, 2010-06-23 Examines the progress and development of education throughout U S history from the changing theories of education and the differences between urban and rural education to the movements of progressivism and traditionalism to standardized testing

Hoosier Schools William J. Reese, 1998 This anthology is important for historians of education but it has a larger purpose Public schools have remained a faithful barometer of the major economic political and social changes that swept across the nation Social historians can learn much from this well written anthology Journal of American History a fine contribution to the history of public policy studies The Public Historian School reform activists sometimes forget that schools are a product of history that many proposed reforms were tried before with mixed results That understanding of the past is critical to our understanding of current efforts to improve schools These original studies of school reform in Indiana from before the Civil War to the most recent efforts offer a much needed perspective on the reoccurring struggle to remake the public schools in a new image

More Than One Struggle Jack Dougherty, 2005-12-15 Traditional narratives of black educational history suggest that African Americans offered a unified voice concerning Brown v Board of Education Jack Dougherty counters this interpretation demonstrating that black activists engaged in multiple overlapping and often conflicting strategies to advance the race by gaining greater control over schools Dougherty tells the story of black school reform movements in Milwaukee from the 1930s to the 1990s highlighting the multiple perspectives within each generation In profiles of four leading activists he reveals how different generations redefined the meaning of the Brown decision over time to fit the historical conditions of their particular struggles William Kelley of the Urban League worked to win teaching jobs for blacks and to resettle Southern black migrant children in the 1950s Lloyd Barbee of the NAACP organized protests in support of integrated schools and the teaching of black history in the 1960s and Marian McEvilly and Howard Fuller contested in different ways the politics of implementing desegregation in the 1970s paving the way for the 1990s private school voucher movement Dougherty concludes by contrasting three interpretations of the progress made in the fifty years since Brown showing how historical perspective can shed light on contemporary debates over race and education reform
