DiIulio,2011-02-01 The nation s federal state and local public service is in deep trouble Not even the most talented dedicated well compensated well trained and well led public servants can serve the public well if they must operate under perverse personnel and procurement regulations that punish innovation and promote inefficiency Many attempts have been made to determine administrative problems in the public service and come up with viable solutions Two of the most important the 1990 report of the National Commission on the Public Service led by former Federal Reserve chairman Paul A Volcker and the 1993 report of the National Commission on the State and Local Public Service led by former Mississippi Governor William F Winter recommended deregulating the public service Deregulating the public service essentially means altering or abolishing personnel and procurement regulations that deplete government workers creativity reduce their productivity and make a career in public service unattractive to many talented energetic and public spirited citizens But will it work With the benefit of a historical perspective on the development of American public service from the days of the progressives to the present the contributors to this book argue that deregulating the public service is a necessary but insufficient condition for much of the needed improvement in governmental administration Avoiding simple solutions and quick fixes for long standing ills they recommend new and large scale experiments with deregulating the public service at all levels of government In addition to editor John DiIulio the contributors are Paul A Volcker former chairman of the Federal Reserve now at Princeton University former Mississippi Governor William F Winter Gerald J Garvey Princeton John P Burke University of Vermont Melvin J Dubnick Rutgers Constance Horner former director of the Federal Office of Personnel Management now at Brookings Mark Handbook of
