from the University world legal practice and the institutions of both the EU and its Member States Inclusion of the comparative dimension brings a fresh perspective to the study of European law and highlights the effects of globalisation of the law more generally and the resulting cross fertilisation of norms and ideas that has occurred among previously sovereign and separate legal orders The Cambridge Yearbook of European Legal Studies is an invaluable resource for those wishing to keep pace with legal developments in the fast moving world of European integration SUBSCRIPTION TO SERIES To place an annual online subscription or a print standing order through Hart Publishing please click on the link below Please note that any customers who have a standing order for the printed volumes will now be entitled to free online access www.hartjournals.co.uk/cyels/subs Editorial Advisory Board John Bell Alan Dashwood Simon Deakin David Feldman Richard Fentiman Angus Johnston John R Spencer Founding Editors Alan Dashwood Angela Ward *Engineering and Contracting* Halbert Powers Gillette,1926 **Real Estate Investments in Germany** Michael Mütze,Thomas Senff,Jutta C. Möller,2007-06-30

International real estate investors are shaping events on the German real estate market to an ever greater extent The reason for the increasing interest of foreign investors in the German real estate market is primarily the property prices which are still low by international comparison and promise above average returns The proportion of foreign investors in the transaction volume on the German real estate market suddenly jumped to over 50% in 2005 and this trend has continued in 2006 at an ever increasing rate The idea behind writing a book in English about real estate investments in Germany was therefore born from practical experience in advising foreign investors In our opinion it is essential for an investor to know the special legal and tax characteristics and the economic parameters of the German real estate market in order to be in a position to make a sound investment decision Against this background this book is not to be viewed as a scientific study the aim of the authors and publishers is to familiarise foreign investors in a comprehensible and practical manner with legal and tax aspects and the economic factors prevailing on the German real estate market **Studies in Political Economy** Sir

Donald MacDougall,1975-06-18 **Specialized Administrative Law of the European Union** Herwig C. H. Hofmann,Gerard C. Rowe,Alexander H. Türk,2018-11-30 This volume deals with the law governing the administrative implementation of European Union public policy Much of this law is specific to individual policy sectors The volume provides a study of such specialized administrative law for more than twenty sectors This cross sectoral approach allows for detailed comparisons of EU administration in diverse policy fields It identifies situations where legal structures and approaches may be unnecessarily duplicated thus indicating where a comprehensive general system could be advantageous for both Union law and policy achievement The comparative nature of the study also draws attention to policy fields which have proven to be testing grounds for approaches adopted subsequently in other areas In addition the work highlights the distinctive highly networked and strongly cooperative character of EU administration as a reflection of and a foundation for the operative nature of the European Union as a whole **Dispute Resolution and Conflict Management in Construction** Edward

Davies, Peter Fenn, Michael O'Shea, 2005-10-05 Many construction conflicts and disputes are not limited to particular jurisdictions or cultures but are increasingly becoming common across the industry worldwide This book is an invaluable guide to international construction law written by a team of experts and focusing on the following national systems Australia Canada China England and Wales Estonia Hong Kong Iraq Ireland Italy Japan Malaysia the Netherlands Oman Portugal Quebec Romania Scotland Sweden Switzerland and the USA The book provides a consistent and rigorous analysis of each national system as well as the necessary tools for managing conflict and resolving disputes on construction projects
