Leyden,Albert N. Link,2015 Public sector entrepreneurship refers to innovative public policy initiatives that generate greater economic prosperity by transforming a status quo economic environment into one more conducive to creative and innovative activities under uncertainty This book illustrates public sector entrepreneurship using examples from U S technology and innovation policy     Organizational Development in Public Administration Maurizio Decastri,Stefano Battini,Filomena Buonocore,Francesca Gagliarducci,2020-08-26 Cultural economic and political trends are changing the way public administrations are organized and this book examines the new challenges managers face with the need for a shift from a traditional bureaucratic model to a competency based approach to organizational design and management in the areas of recruitment training career development and assessment Through the analysis of an experimental project launched jointly by the Italian National School for Administration SNA and the Prime Minister s Office this book showcases how a competency based system can be a key tool in reforming HR in the public sector with significant effects on the organization and management of public administration     **Public Financial Management** Howard A. Frank,2006-01-13 Public Financial Management covers the five major pillars of this sub discipline of public administration context public finance retirement systems performance measurement and budgeting and international perspectives This text offers practitioners information valuable in their day to day operations while also providing students in public adm     *Public Management* Mirko Noordegraaf,2017-08-24 This major new text on the theory and practice of public management moves away from descriptive accounts of its evolution to provide a systematic treatment of the key paradigms of public management today It examines their competing outlooks values tools and assumptions and using a wide range of examples from different areas of management around the world their implications for practice The text sets out three contrasting logics for management performance professionalism and politics and shows how public managers act on the interplay between these for effective results Relating all three logics to a wide range of diverse contexts from police services to healthcare social services to educational providers the text shows how managers can simultaneously perform to a high standard act professionally through their work and cope with internal and external politics Incorporating the latest theories and practices this comprehensive book will appeal to readers around the world wanting to understand and contribute to public management today     *ECEG2007-Proceedings of the 7th European Conference on e-Government* Dan Remenyi,     Knowledge and Entrepreneurship in Public Policy Christopher J. Coyne,Abigail R. Hall,Eileen Norcross,2023-11-17 Understanding entrepreneurship as alertness to potential profit opportunities and the activities involved with bringing those opportunities to life and public policy as laws regulations and activities of government this volume analyzes the intersection of the two to show how public policy influences entrepreneurship Using a mix of theoretical and applied research the contributors argue that policies which incentivize productive entrepreneurship will advance economic well being but that the passage of such policies depends in large part on the availability and usage of economic knowledge by policymakers If policymakers lack the

relevant economic knowledge to achieve their desired outcomes policies will be ineffective in incentivizing productive entrepreneurship

*Intergovernmental Management for the 21st Century* Timothy J. Conlan, Paul L. Posner, 2009-11-01 A Brookings Institution Press and the National Academy of Public Administration publication America's complex system of multi-layered government faces new challenges as a result of rapidly changing economic, technological, and demographic trends. An aging population, economic globalization, and homeland security concerns are among the powerful factors testing the system's capacity and flexibility. Major policy challenges and responses are now overwhelmingly intergovernmental in nature, and as a result, the fortunes of all levels of government are more intertwined and interdependent than ever before. This volume, cosponsored by the National Academy of Public Administration (NAPA), defines an agenda for improving the performance of America's intergovernmental system. The early chapters present the current state of practice in intergovernmental relations, including discussion of trends toward centralization, devolution, and other power-sharing arrangements. The fiscal underpinnings of the system are analyzed along with the long-term implications of current trends in financing at all levels. The authors identify the principal tools used to define intergovernmental management grants, mandates, preemptions, and in discussing emerging models and best practices in the design and management of those tools. In *Intergovernmental Management for the 21st Century*, applies these crosscutting themes to critical policy areas where intergovernmental management and cooperation are essential, such as homeland security, education, welfare, health care, and the environment. It concludes with an authoritative assessment of the system's capacity to govern, oversee, and improve. Contributors include Jocelyn Johnston (American University), Shelley Metzenbaum (University of Maryland), Richard Nathan (SUNY at Albany), Barry Rabe (University of Michigan), Beryl Radin (American University), Alice Rivlin (Brookings Institution), Ray Sheppach (National Governors' Association), Frank Shafroth (George Mason University), Troy Smith (BYU Hawaii), Carl Stenberg (University of North Carolina), and Suzanne E. Scoggins. **Policing China** Suzanne E. Scoggins, 2021-06-15 In *Policing China*, Suzanne E. Scoggins delves into the paradox of China's self-projection of a strong security state while having a weak police bureaucracy. Assessing the problems of resources, enforcement, and oversight that beset the police outside of cracking down on political protests, Scoggins finds that the central government and the Ministry of Public Security have prioritized stability, maintenance, and *weiwen* to the detriment of nearly every aspect of policing. The result, she argues, is a hollowed-out and ineffective police force that struggles to deal with everyday crime. Using interviews with police officers up and down the hierarchy, as well as station data, news reports, and social media postings, Scoggins probes the challenges faced by ground-level officers and their superiors at the Ministry of Public Security as they attempt to do their jobs in the face of funding limitations, reform challenges, and structural issues. *Policing China* concludes that despite the social control exerted by China's powerful bureaucracies, security failures at the street level have undermined Chinese citizens' trust in the legitimacy of the police and the capabilities of the state.

Public Administration Norma M. Riccucci, 2010-06-16 Is public administration an art or a science? This question of

whether the field is driven by values or facts will never be definitively answered due to a lack of consensus among scholars The resulting divide has produced many heated debates however in this pioneering volume Norma Riccucci embraces the diversity of research methods rather than suggesting that there is one best way to conduct research in public administration Public Administration examines the intellectual origins and identity of the discipline of public administration its diverse research traditions and how public administration research is conducted today The book s intended purpose is to engage reasonable minded public administration scholars and professionals in a dialogue on the importance of heterogeneity in epistemic traditions and to deepen the field s understanding and acceptance of its epistemological scope This important book will provide a necessary overview of the discipline for graduate students and scholars

**Public Administration and Public Management** Jan-Erik Lane,2005 Suggests a new perspective on the public sector using game theory and the new economics of information

**Rethinking Democratic Accountability** Robert D. Behn,2004-05-26 Traditionally American government has created detailed formal procedures to ensure that its agencies and employees are accountable for finances and fairness Now in the interest of improved performance we are asking our front line workers to be more responsive we are urging our middle managers to be innovative and we are exhorting our public executives to be entrepreneurial Yet what is the theory of democratic accountability that empowers public employees to exercise such discretion while still ensuring that we remain a government of laws How can government be responsive to the needs of individual citizens and still remain accountable to the entire polity In Rethinking Democratic Accountability Robert D Behn examines the ambiguities contradictions and inadequacies in our current systems of accountability for finances fairness and performance Weaving wry observations with political theory Behn suggests a new model of accountability with compacts of collective mutual responsibility to address new paradigms for public management

**Grassroots to Government** Gemma Carey,2016-02-09 Joined up government has captured the imaginations of public administrators for many decades It offers great promise for tackling the complex or wicked policy problems that concern the governments of industrialised countries Despite ongoing interest there remains an absence of core methods and principles to make joined up government work in practice Increasingly public policy scholars are calling for evidence based joined up government However this evidence is currently in its infancy In addition to an overview of current debates Grassroots to Government comprehensively explains the state of evidence in joined up government accompanied by an in depth case study of the experiences of a national joined up initiative the Australian Social Inclusion Agenda In doing so it offers both a breadth and depth of knowledge on joined up government Grassroots to Government is essential reading for anyone interested in designing implementing and evaluating joined up and whole of government initiatives including public service professionals academics community sector practitioners and advanced level students in public policy social policy and public administration

**International Trends in Participatory Budgeting** Michiel S. De Vries,Juraj Nemec,David Špaček,2021-11-26 This book analyses the participatory budgeting

practice as it has evolved in evaluated countries focusing on what is substantially at stake concerning the budget and issues involved the actual participation the way such processes are organised and administered and the outcomes of such processes It concludes that participatory budgeting in selected European countries is far away from the level of best practice but that all experiences are not just trivial pursuits The information collected serves to check to what extent participatory budgeting as practiced in the countries involved presents a real attempt to change municipal budgets towards addressing the needs of marginalized groups and to improve decision making based on local democracy and participation or whether these processes as such are to be judged to be more important than any output and outcomes The practices can neither be seen as a process of policy diffusion nor as a process of policy mimesis The terminology of participatory budgeting remains but the tools to achieve the goals resulted only in marginal changes in the status quo in municipalities in European countries practicing participatory budgeting instead of resulting in radical changes to increase spending in favor of marginalized groups Chapter 15 Unraveled Practices of Participatory Budgeting in European Democracies is available open access under a CC BY 4.0 license
