**The Palestine Question** Henry Cattani, 2022-10-10 First published in 1988 The Palestine Question presents the highlights of the Palestine issue in a succinct objective and well documented manner The author reveals a fundamental fact which has apparently been overlooked namely that the conflict is not restricted to the territories seized by Israel in 1967 that is the West bank and the Gaza Strip which represent 20% of Palestine but concerns an area five times greater that is the whole territory of Palestine as well as the fate of more than 5 million Palestinians The author has done what has not been done before he offers judicious peace plan based on right and justice for the intractable Arab Israeli conflict and its root cause the Palestine problem This book constitutes an indispensable reference work and essential reading for all who are concerned with Middle East and world peace

**Our Palestine Question** Geoffrey Levin, 2023-11-28 A new history of the American Jewish relationship with Israel focused on its most urgent and sensitive issue the question of Palestinian rights American Jews began debating Palestinian rights issues even before Israel's founding in 1948 Geoffrey Levin recovers the voices of American Jews who in the early decades of Israel's existence called for an honest reckoning with the moral and political plight of Palestinians These now forgotten voices which include an aid worker turned academic with Palestinian Sephardic roots a former Yiddish journalist anti Zionist Reform rabbis and young left wing Zionist activists felt drawn to support Palestinian rights by their understanding of Jewish history identity and ethics They sometimes worked with mainstream American Jewish leaders who feared that ignoring Palestinian rights could foster antisemitism leading them to press Israeli officials for reform But Israeli diplomats viewed any American Jewish interest in Palestinian affairs with deep suspicion provoking a series of quiet confrontations that ultimately kept Palestinian rights off the American Jewish agenda up to the present era In reconstructing this hidden history Levin lays the groundwork for more forthright debates over Palestinian rights issues American Jewish identity and the U S Israel relationship more broadly [Yearbook of](#)

**The Jewish Agency and Syria during the Arab Revolt in Palestine** Mahmoud Muhareb,2022-12-29 Founded in 1929 the Jewish Agency played a central role in the founding of the State of Israel Throughout the 1920s 30s and 40s many secret meetings took place between the JA and Arab leaders and elites The dominant narrative claims that Syrian leaders and elites were not involved in any such meetings However this book reveals for the first time that a multitude of secret meetings and negotiations took place including with the Syrian National Block the official Syrian leadership at the time and the Shahbandari opposition and leaders of Jabal al Druze Based mainly on primary sources from Israeli archives including documentation of discussions reports and decisions taken by the JA leadership the book tells a new story of a critical period of history the Arab Revolt of 1936 1939 in Palestine Mahmoud Muhareb argues that the main historic objective of the JA was to reach agreements with Arab leaders and Arab states behind the back of the Palestinians and at their expense and to normalize its relations with the Arab states while it continued to deny the national rights of the Palestinians The book challenges Israeli and Syrian official narratives and substantiates the Palestinian narrative as well as some Israeli new historians who asserted Israel refusal to recognize the national rights of the Palestinians and affirmed its attempts to reach a comprehensive settlement with the Arab states at the expense of the

Palestinians The book includes Arabic and Hebrew sources translated into English for readers

**Continental Philosophy and the Palestinian Question** Zahi Zalloua, 2017-02-23 From Sartre to Levinas continental philosophers have looked to the example of the Jew as the paradigmatic object of and model for ethical inquiry Levinas for example powerfully dedicates his 1974 book *Otherwise than Being* to the victims of the Holocaust and turns attention to the state of philosophy after Auschwitz Such an ethics radically challenges prior notions of autonomy and comprehension two key ideas for traditional ethical theory and more generally the Greek tradition It seeks to respect the opacity of the other and avoid the dangers of hermeneutic violence But how does such an ethics of the other translate into real everyday life What is at stake in thinking the other as Jew Is the alterity of the Jew simply a counter to Greek universalism Is a rhetoric of exceptionalism with its unavoidable ontological residue at odds with shifting political realities Within this paradigm what then becomes of the Arab or Muslim the other of the Jew the other of the other so to speak This line of ethical thought in its desire to bear witness to past suffering and come to terms with subjectivity after Auschwitz arguably brackets from analysis present operations of power Would then a more sensitive historical approach expose the Palestinian as the other of the Israeli Here Zahi Zalloua offers a challenging intervention into how we configure the contemporary

**Arab Attitudes to Israel** Yehoshafat Harkabi, 2017-09-08 Because of recent changes in the explicitly declared goals of Arabs in the Palestinian conflict this book is of singular importance and no scholar or expert on Middle East affairs can afford to ignore it This work by a scholar described as the doyen of Israeli Arabists is the result of vast research into the attitude of the Arabs toward Israel manifested both in their declared explicit aims and in ideological exegeses on the roots of the Palestinian problem Approximately one hundred twenty books written by Arabs and the Arab press and radio are herein analyzed

Harkabi's searching examination is objective. His detection of consistent patterns in what at first seems amorphous is convincing. If there is such a thing as a science of political psychology, Harkabi is its master. Rethinking Arab Democratization Larbi Sadiki, 2009-02-12. Rethinking Arab Democratization unpacks and historicizes the rise of Arab electoralism, narrating the story of stalled democratic transition in the Arab Middle East. It provides a balance sheet of the state of Arab democratization from the mid 1970s into the 21st century. In seeking to answer the question of how Arab countries democratize and whether they are democratizing at all, the book pays attention to specificity, highlighting the peculiarities of democratic transitions in the Arab Middle East. To this end, it situates the discussion of such transitions firmly within their local contexts but without losing sight of the global picture, namely the US drive to control and democratize the Arab World. The book rejects exceptionalism, foundationalism, and Orientalism by showing that the Arab World is not immured from the global trend towards political liberalization. But by identifying new trends in Arab democratic transitions, highlighting their peculiarities, and drawing on Arab neglected discourses and voices, the book pinpoints the contingency of some of the arguments underlying Western theories of democratic transition when applied to the Arab setting. Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines. Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war. The geographical focus of the series is primarily Latin America, the Caribbean, Southern and Eastern Europe, and relevant experiences in Africa and Asia. The series editor is Laurence Whitehead, Official Fellow, Nuffield College, University of Oxford.
