Public Parks, Private Partners Kathy Madden, Project for Public Spaces, 2000 *Public Parks, Private Partners* Project For Public Spaces, Incorporated, 2000-12-01 Partnership. Private corporations. Public corporations Albert Hutchinson Putney, 1908 Hyperlocal Jennifer S. Vey, Nate Storrington, 2022-10-25 An examination of how the hyper local is the locus of real change Many of America's downtowns waterfronts and innovation districts have experienced significant revitalization and reinvestment in recent years but concentrated poverty and racial segregation remain persistent across thousands of urban suburban and rural neighborhoods The coronavirus pandemic magnified this sustained and growing landscape of inequality Uneven patterns of economic growth and investment require a shift in how communities are governed and managed This shift must take into account the changing socioeconomic realities of regions and the pressing need to bring inclusive economic growth and prosperity to more people and places In this context place based hyperlocal governance structures in the United States and around the globe have been both part of the problem and part of the solution These organizations range from community land trusts to business improvement districts to neighborhood councils However very little systematic research has documented the full diversity and evolution of these organizations as part of one interrelated field Hyperlocal helps fill that gap by describing the challenges and opportunities of place governance The chapters in Hyperlocal explore both the tensions and benefits associated with governing places in an increasingly fragmented and inequitable economic landscape Together they explore the potential of place governance to give stakeholders a structure through which to share ideas voice concerns advocate for investments and co design strategies with others both inside and outside their place They also discuss how place governance can serve the interests of some stakeholders over others in turn exacerbating wealth based inequities within and across communities Finally they highlight innovative financing organizing and ownership models for creating and sustaining more effective and inclusive place governance structures The authors hope to provoke new thinking among place governance practitioners policymakers private sector leaders urban planners scholars students and philanthropists about how why and for whom place governance matters The book also provides guidance on how to improve place governance practice to benefit more people and places

Public Parks, Private Power Julia Hunter Palmer,2009 **Who Cleans the Park?** John Krinsky,Maud Simonet,2017-03-24 America s public parks are in a golden age Hundreds of millions of dollars both public and private fund urban jewels like Manhattan s Central Park Keeping the polish on landmark parks and in neighborhood playgrounds alike means that the trash must be picked up benches painted equipment tested and leaves raked Bringing this often invisible

work into view however raises profound questions for citizens of cities In *Who Cleans the Park* John Krinsky and Maud Simonet explain that the work of maintaining parks has intersected with broader trends in welfare reform civic engagement criminal justice and the rise of public private partnerships Welfare to work trainees volunteers unionized city workers sometimes working outside their official job descriptions staff of nonprofit park conservancies and people sentenced to community service are just a few of the groups who routinely maintain parks With public services no longer being provided primarily by public workers Krinsky and Simonet argue the nature of public work must be reevaluated Based on four years of fieldwork in New York City *Who Cleans the Park* looks at the transformation of public parks from the ground up Beginning with studying changes in the workplace progressing through the public private partnerships that help maintain the parks and culminating in an investigation of a park's contribution to urban real estate values the book unearths a new urban order based on nonprofit partnerships and a rhetoric of responsible citizenship which at the same time promotes unpaid work reinforces workers domination at the workplace and increases the value of park side property *Who Cleans the Park* asks difficult questions about who benefits from public work ultimately forcing us to think anew about the way we govern ourselves with implications well beyond the five boroughs

African Engagements, 2011-05-27 With the end of the Cold War the world seemed to move from a bipolar to a unipolar system with the neoliberal West globally imposing its laws However it has been acknowledged that other actors such as China India and Brazil have become increasingly influential helping to lead to a new multipolarity at the global level The question of what this emerging multipolarity means for Africa is important Will Africa become crushed in a mounting struggle over raw materials and political hegemony between superpowers and fall victim to a new scramble for Africa Or does this new historic conjuncture offer African countries and groups greater room for negotiation and manoeuvring eventually leading to stronger democracy and enhanced growth The chapters in this volume offer food for thought on how Africa's engagements with the world are currently being reshaped and revalued and importantly on whose terms
