Critical Issues in Israeli Society Alan Dowty, 2004-01-30. Fashioning a working political structure in Israel that will bring together all aspects of society from Jews to Arabs, ultra Orthodox to assertively secular, has never been easy. However, two developments have intensified this challenge: demographic changes have sharpened the differences between the groups, and open challenges of legitimacy have undermined the previous de facto acceptance of pluralism. There has been no strong civic framework of Israeliness to replace Zionism as a shared identity that would override more parochial identities and interests. Added to these pressures are the collapse of the peace process in late 2000 and the influence of global developments on the Arab-Israel conflict and on Israeli domestic society. In this volume, twelve noted scholars of Israel present authoritative and analytic overviews of these important issues. The ability of the Israeli political system to bridge differences through a Jewish tradition of power sharing has in the past managed to overcome enormous divisions at least within the Jewish sector. Economic progress and globalization have brought Israel closer to other developed societies in many respects while exposing Israel to pressures associated with these trends. Closer analysis of these critical issues reveals that there are also positive forces at work as the nation seeks a broader synthesis of its Jewish legacy and universal liberal values.

This book provides expert analysis of the core issues related to the welfare state, including regional depictions of welfare states around the globe. The book combines essays on methodologies, core concepts and central policy areas to produce a comprehensive picture of what the welfare state means around the world. In the midst of the credit crunch, this book addresses some of the many questions about the welfare state. This book is suitable for students and scholars throughout the social sciences, particularly in sociology, social policy, public policy, international relations, politics and gender studies.
