Percival, 2022-08-02. California went through a political earthquake of sorts when the state recalled Governor Gray Davis in 2003. In 2021 the state faced another political turning point with the threatened recall of Governor Gavin Newsom. Less than two years after Newsom's overwhelming election victory more than two million Californians signed on to the recall effort hoping to expel him from office in a special election. How could such a monumental turnabout be possible? Normally the political headwinds would be much too strong for a movement to oust a governor who had decisively vanquished his opponent. But with the COVID-19 pandemic dominating every aspect of society including politics these weren't normal times. Organizing a recall election is a demanding enterprise; it takes abundant political energy, tremendous amounts of anger with the status quo, and mounds of money. Yet for the second time in less than two decades such wheels were set in motion. What is it that makes California so dynamic yet so fragile? This book explains that paradox and in the process enlightens readers about the recall process, the challenges of federalism, and the pitfalls of direct democracy. It examines the underlying conditions that expose a state with poorly linked institutions, a bitterly divided society, and a governor who had to act under nearly impossible conditions, demonstrating his strengths and vulnerabilities along the way. It's a story that could happen only in California, a state with a history of only stories. Designed to be useful in a variety of college courses, this book is the first to unveil the Newsom backstory and will appeal to pundits and politicians as well as interested general readers. Routledge Handbook of Public Policy in Africa Gedion Onyango, 2021-12-30. This Handbook provides an authoritative and foundational disciplinary overview of African Public Policy and a comprehensive examination of the practicalities of policy analysis, policymaking processes, implementation, and administration in Africa today. The book assembles a multidisciplinary team of distinguished and upcoming Africanist scholars, practitioners, researchers, and policy experts working inside and outside Africa to analyse the historical and emerging policy issues in 21st century Africa. While mostly attentive to comparative public policy in Africa, this book attempts to address some of the following pertinent questions: How can public policy be understood and taught in Africa? How does policymaking occur in unstable political contexts or in states under pressure? Has the democratisation of governing systems improved policy processes in Africa? How have recent transformations such as technological proliferation in Africa impacted public policy processes? What are the underlying challenges and potential policy paths for Africa going forward? The contributions examine an interplay of prevailing institutional, political, structural challenges and opportunities for policy effectiveness to discern striking commonalities and trajectories across different African states. This is a valuable resource for practitioners, politicians,

researchers university students and academics interested in studying and understanding how African countries are governed

Public Policy and Media Organizations David Berry, Caroline Kamau, 2016-05-23 Public policy thinking and implementation is both a process of

intellectual thought and rationale for governing This book examines public policy and the influence news media organizations have in the production and implementation of public policy Part I assesses the impact of political philosophy on public policy thinking and further discusses the meaning of public policy in social democratic systems It uses the riots that occurred across England in the summer of 2011 as a case study to focus on how the idea of the Big Society was regenerated by government and used as a basis for public policy thinking Finally it investigates how media organizations form news representations of public policy issues that seek to contextualize and reshape policy manufactured for public consumption Part II provides a psychological exploration of the processes which explain the connection between the media the public and policy makers Does the common good really drive public policy making or can group processes better explain what policy makers decide This second part of the book explores how media workers professional identities and practices shape their decisions about how to represent policy news It also shows how the public identities and corporate interests of media organizations shape their role as referees of public policy making and how all this culminates in faulty decision making about how to represent policy news polarization in public opinion about particular policies and shifts in policy makers decisions

Nonprofits in Policy Advocacy Sheldon Gen, Amy Conley Wright, 2020-08-01 Policy advocacy is an increasingly important function of many nonprofit organizations as they seek broad social changes in their concerning issues Their advocacy practices however have often been guided by their own past experiences anecdotes from peer networks and consultant advice Most of their practices have largely escaped empirical and theoretical grounding that could better root their work in established theories of policy change The first book of its kind

**Policy Drift** Norma Riccucci, 2018-02-13 The role of formal and informal institutional forces in changing three areas of U S public policy privacy rights civil rights and climate policy There is no finality to the public policy process Although it is often assumed that once a law is enacted it is implemented faithfully even policies believed to be stable can change or drift in unexpected directions The Fourth Amendment for example guarantees Americans privacy rights but the 9 11 terrorist attacks set off one of the worst cases of government sponsored espionage Policy changes instituted by the National Security Agency led to widespread warrantless surveillance a drift in public policy that led to lawsuits challenging the constitutionality of wiretapping the American people Much of the research in recent decades ignores the impact of large scale slow moving secular forces in political social and economic environments on public policy In Policy Drift Norma Riccucci sheds light on how institutional forces collectively contributed to major change in three key areas of U S policy privacy rights civil rights and climate policy without any new policy explicitly being written Formal levers of change U S Supreme Court decisions inaction by Congress Presidential executive orders stimulated by social political or economic forces organized permutations which ultimately shaped and defined contemporary public policy Invariably implementations of new policies are embedded within a political landscape Political actors motivated by social and economic factors may explicitly employ strategies to shift the direction of existing public policies or derail them altogether Some segments of the population will benefit from this

process while others will not thus policy drifts carry significant consequences for social and economic change A comprehensive account of inadvertent changes to privacy rights civil rights and climate policy Policy Drift demonstrates how unanticipated levers of change can modify the status quo in public policy
