**The Chicago Guide to Your Academic Career** John A. Goldsmith, John Komlos, Penny Schine Gold, 2010-04-15 Is a career as a professor the right choice for you If you are a graduate student how can you clear the hurdles successfully and position yourself for academic employment What s the best way to prepare for a job interview and how can you maximize your chances of landing a job that suits you What happens if you don t receive an offer How does the tenure process work and how do faculty members cope with the multiple and conflicting day to day demands With a perpetually tight job market in the traditional academic fields the road to an academic career for many aspiring scholars will often be a rocky and frustrating one Where can they turn for good frank answers to their questions Here three distinguished scholars with more than 75 years of combined experience talk openly about what s good and what s not so good about academia as a place to work and a way of life Written as an informal conversation among colleagues the book is packed with inside information about finding a mentor avoiding pitfalls when writing a dissertation negotiating the job listings and much more The three authors distinctive opinions and strategies offer the reader multiple perspectives on typical problems With rare candor and insight they talk about such tough issues as departmental politics dual career marriages and sexual

**Christian Worldview and the Academic Disciplines** Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These

individual essays on each discipline are a unique element of this book. These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline. *Christian Worldview and the Academic Disciplines* is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students. This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible. This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty. Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful.
