Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately

brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments

Thomas Hardy and History Fred Reid, 2017-08-17 This book addresses the questions What did Thomas Hardy think about history and how did this enter into his writings Scholars have sought answers in revolutionary gender postcolonial and millennial criticism but these are found to be unsatisfactory Fred Reid is a historian who seeks answers by setting Hardy more fully in the discourses of philosophical history and the domestic and international affairs of Britain He shows how Hardy worked out from the late 1850s his own meliorist philosophy of history and how it is inscribed in his fiction Rooted in the idea of cyclical history as propounded by the Liberal Anglican historians it was adapted after his loss of faith through reading the works of Auguste Comte George Drysdale and John Stuart Mill and used to defend the right of individuals to break with the Victorian sexual code and make their own experiments in living *Centennial History of American*
