American Folk Art Kristin G. Congdon,Kara Kelley Hallmark,2012-03-19 Folk art is as varied as it is indicative of person and place informed by innovation and grounded in cultural context The variety and versatility of 300 American folk artists is captured in this collection of informative and thoroughly engaging essays American Folk Art A Regional Reference offers a collection of fascinating essays

on the life and work of 300 individual artists. Some of the men and women profiled in these two volumes are well known while others are important practitioners who have yet to receive the notice they merit. Because many of the artists in both categories have a clear identity with their land and culture, the work is organized by geographical region and includes an essay on each region to help make connections visible. There is also an introductory essay on U.S. folk art as a whole. Those writing about folk art to date tend to view each artist as either traditional or innovative. One of the major contributions of this work is that it demonstrates that folk artists more often exhibit both traits; they are grounded in their cultural context and creative in the way they make work their own. Such insights expand the study of folk art even as they readjust readers' understanding of who folk artists are.

The Social Construction of Communities Mark D. Varien, James M. Potter, 2008-08-15. *The Social Construction of Communities* draws on archaeological research in the Southwest to examine how communities are created through social interaction. The archaeological record of the Southwest is important for its precise dating, exceptional preservation, large number of sites, and length of occupation, making it most intensively researched archaeological regions in the world. Taking advantage of that rich archaeological record, the contributors to this volume present case studies of the Mesa Verde, Rio Grande, Kayenta, Mogollon, and Hohokam regions. The result is an enhanced understanding of the ancient

Southwest a new appreciation for the ways in which humans construct communities and transform society and an expanded theoretical discussion of the foundational concepts of modern social theory *American Indian Art Magazine* ,1988
